

# Group May Act On Dating Code

The Senate committee on student affairs is expected to consider and take action on the suggested changes in the new fraternity social code this morning, Wilmer E. Kenworthy, director of student affairs, has announced.

The suggested changes concern the hours for dating and the use and qualifications for chaperons as stipulated in the new code.

Thomas Schott, Interfraternity Council president, submitted the suggestions to the committee March 24. The suggestions were not considered at that time, but were discussed by the committee last Wednesday.

Neither Kenworthy nor Schott has said specifically what the suggested changes are. However, Schott said fraternity presidents would have an approximate idea as to what the suggestions were because they are similar to those discussed by them when they met March 10.

At that time Schott was asked to represent them at a meeting with President Milton S. Eisenhower to discuss the drinking and dating code which goes into effect Sept. 1, 1954.

Schott was asked to present to President Eisenhower a request for longer hours when women could be in fraternities on Sunday and a request for more lenient choice of chaperons.

Schott met with President Eisenhower and Kenworthy three times. The suggestions submitted to the committee are those discussed when they met.

## Nittany Council Defers Merger

Nittany Council will take no further action on the proposed plan to merge the Nittany and Pollock Councils until Pollock Council reaches a decision concerning the plan.

The plan was introduced to Nittany Council Feb. 22, but Pollock Council has not as yet acted on the plan.

A second plan, independent of the council merger proposal, would combine the two areas' social committees. This plan has been approved by the Nittany Council. If this proposal meets Pollock Council's approval, the two social committees will merge and work together on such activities as the Spring Week booth and float, Curtin Schafer, council social committee chairman, said.

Schafer announced that arrangements have been completed for an exchange dinner between residents of Nittany and coeds from Thompson Hall and the Woman's Building. The dinner is scheduled for Sunday. A mixer will be held at the Temporary Union Building after the dinner.

This was written by William Coleman, graduate of the University who is now teaching at Slippery Rock State Teachers College. Coleman is also the author of "Pillars in the Night," which was presented last semester.

Following this is a Shakespeare skit based on a group of people who are trying to censor a speech in "As You Like It." This skit, "Speak the Speech," is written by Robert D. Reifsnieder, associate professor of dramatics.
