Council to Hear Freshman Hour Suggestion

A recommendation for a change in freshman women's weekend hours has been drawn up and will be submitted for approval at the next meeting of Freshman Council.

The recommendation asks that the ten o'clock permission now granted over the weekend be extended to an 11 o'clock. At present, freshman women receive a ten o'clock and a one o'clock that may be taken either night of the weekend.

To be put in effect, the recommendation must be approved by Freshman Council, the Freshmen Regulations Board, the Women's Student Government Association Senate, and the Senate committee on student affairs.

This recommendation has been submitted in previous years, but was rejected because freshman women were not permitted in fraternity houses. This objection has been eliminated, however, by the chaperon dating code which will go into effect in September, 1954.

The statement reads as follows: "We recommend that first and second semester freshman women receive an 11 o'clock and a one o'clock over weekends replacing the ten o'clock and one o'clock now in effect."

Spring 'Springs' New Fabrics

By GAY SNODGRASS

Spring!—it's hit the campus with a bang, bringing with it robins, rain, and other trite but true symptoms.

Little boys are playing baseball in vacant lots; big boys are, too; professors face dreamy stares and try to compete with longing looks out the window; coeds get that soft moon-struck look in their eyes as another pin leaves the spot over a surrendered heart.

Along with thoughts of love, baseball, and bluebooks, comes thoughts of what to wear for that special spring and summer occasion.

Color and fabric are newsworthy this season, according to one well-known California

designer. White and colorful shades are being emphasized, and pink and red, once strangers, are being used together more and more.

The newer miracle fabrics, dacron, vicara, and orlon, along with the older nylon, are being used in combination with other materials. Linen-weaves are in the fashion spotlight. Two of importance are Silklin, a blend of rayon and silk, and Dakralin, a dacron and rayon fabric.

For coats and suits, Varel, a blended fabric of 50% wool and 50% Vicara, heads designers' lists. Varel is a cashmere-soft, feather-light luxury material with unusual wrinkle-free, rug-

ged qualities. Varel is easy on cleaning bills, because it can be cleaned at home by brushing.

Simplicity is the keynote for smart new spring and summer outfits. Of special interest are
