

Coed Is Titlist In Ag Hill Fete

Georgene Huber, sixth semester animal husbandry major, was crowned Grand Champion Showman of the 37th annual Little International Livestock Show sponsored by the Block and Bridle Club Saturday in the University Stock Pavilion.

Miss Huber, who showed a Shorthorn heifer, in the show, also

won the grand championship in 1952 as a freshman when she displayed a Hampshire ewe. In addition to the highest award of the show, Miss Huber collected a number of lesser championships which led up to her victory. These include first place in the Shorthorn class of the beef cattle division, champion shorthorn showman and fitter and champion of the beef cattle division. Plus her achievements in the show, she was co-chairman of the decoration committee for the Little International and is secretary of the Block and Bridle Club, sponsors of the event.

Tait is Reserve Champion

John Tait, fifth semester animal husbandry major, won the Reserve Grand Champion award. In obtaining this recognition he also won champion showman of the sheep division with the Hampshire ewe which he displayed.

In the horse class, Eileen Gible, fourth semester zoology major, won the champion fitter award, while Kenneth Lanan, fifth semester poultry husbandry major, received the ribbon for champion showman. Elizabeth Maule, fourth semester home economics major, was awarded the reserve champion fitter title, and Arthur Tennyson, second semester animal husbandry major, won the reserve champion showman ribbon.

4 Win in Sheep Division

Winners in the sheep division include Donald McCreight, second semester animal husbandry major, who was chosen champion fitter and Tait. Sandra Trexler, second semester pre-veterinary major, was named reserve champion fitter and Rex Shafer, eighth semester zoology major, received the reserve champion showman award.

Lee Kummer, sixth semester agronomy major, won the reserve beef cattle showman award, while James Harding, fourth semester animal husbandry major, received the reserve beef fitter ribbon. Champion Angus showman was Robert Shoenhof and Kummer was named champion Hereford showman.

Robert Korona, fourth semester agricultural education major, won champion fitter honors in the swine division and John Fleming, second semester animal husbandry major, drew top honors in the showman class. William Sipple, eighth semester animal husbandry major, was reserve champion fitter and Vernon Hazlett, second semester animal husbandry major, was awarded the reserve champion showman ribbon.

11 Presidents Discuss Codes With 2 Deans

Eleven fraternity presidents attended meetings with Dean of Men Frank J. Simes and O. Edward Pollock, assistant to the dean of men in charge of fraternity affairs, yesterday.

Simes and Pollock met with the presidents to discuss fall rushing and to offer suggestions to the fraternities as to how the new University dating code will be put into effect.

According to Pollock, the presidents were told how to obtain housemothers or chaperons, and to see whether their fraternities were planning to employ full or part-time housemothers.

Twenty to 25 women have been applied to Pollock to serve as housemothers.

Pollock said the presidents were told that men rushing fraternities should be told not to sign dormitory contracts for next year. Students will be able to sign contracts until next fall, he said.

Arndt to Give Priestly Talk

The second of a five-night series of the annual Priestly Lectures will be presented tonight by Fritz G. Arndt, professor of chemistry at The New University of Istanbul, Turkey. Arndt's lecture will be at 8 p.m. in 119 Osmond. Tonight's lecture will deal with "Problems of Acid Function."

Last night, Arndt gave the first lecture of the 28th presentation of the annual lectures; his topic was "Problems of Diazoalkane Chemistry."

Arndt is well-known in the field of organic chemistry. He will continue his lectures tomorrow night through Friday night in 119 Osmond Laboratory. Lectures tomorrow and Friday night will begin at 8. Thursday's lecture will begin at 5:15 p.m.

Rod and Coccus Club

Rod and Coccus Club will elect officers at 7 p.m. tomorrow in 206 Patterson. Dues must be paid before members may vote. Refreshments will be served.

350 Million Gallons Supplied by Tower

By FRAN FANUCCI

Perched on the highest elevation at Penn State is the University water tower. Built in 1936, this tower supplies the University with over 350 million gallons of water each year.

The tower, situated in the Nittany Lion woods, is often mistaken for an observatory, for it is 105 feet in height and 50 feet in diameter, and greatly resembles the den of an astronomer.

More than 2000 tons of water are supported by 12 steel columns enclosed in this concrete cylinder. This water tonnage, equal to about 487,000 gallons, is obtained from Mussers Gap and from numerous wells. Approximately 63 million gallons flow by gravity from the Gap, and the other 288 million are pumped from the wells.

The only water tank on the campus, it is the main source for all the water used by the University. The tank is also used as a reserve for the borough of State College. The University has a cross connection with the borough water system, so that if the University's supply is low it can use that of the borough, and vice versa. If anything should happen to the University's piping or pumping system the tank could

also be used for a reserve until the breakdown is fixed.

The tower not only is the home of the University water supply, but it also is used by the Penn State football team. On the first floor of the tower are located the gridders shower rooms and dressing rooms. The tower is also used by the Fencing Club for its practices. At other times the tower is completely deserted, except for the caretakers.

The tower is one of Penn State's most outstanding landmarks. Along with many other historical buildings and monuments the water tower is the object of much speculation, especially on the part of the freshmen. Most new students confuse the tower with the Naval Water Tunnel, located at the far end of the Golf course.

With the exception of these questions, the water tower goes completely unnoticed. At night the silhouette of its massive form can be seen clearly against the brightness of the sky. It seems to be a forgotten building, but how wrong this statement is, for as long as Penn State University will be an institute here the Water Tower will be regarded as one of its most precious and historical landmarks.

Talent Show Will Feature 7 Freshmen

Seven finalists have been chosen for the freshman talent show Friday night, Robert Gellman, talent show chairman, said yesterday.

The finalists are Jesse Brewster, Susan Coskery, Carolyn Kirchner, Edmond Kramer, and Frances Spatafore, vocalists; Dean Preshall, accordionist; and Keith Williams, pianist.

The show will be held at 8 p.m. in the Temporary Union Building.

Judges will be Robert M. Koser, assistant to the registrar, and Moylan Mills, graduate assistant in English composition. Samuel Wolcott, second semester arts and letters major, will be the master of ceremonies.

The winner of the show will receive a prize of \$20. A second prize of \$10 and a third prize of \$5 will be awarded.

The three winners will entertain at the intermission of the freshman class dance from 9 p.m. to midnight Saturday in Recreation Hall.

The informal dance will feature the music of the Melody Men and a theme of "Rhapsody in Blue." A huge piano keyboard behind the bandstand will highlight the decorations.

Freshmen may pick up free dance tickets beginning tomorrow until Saturday at noon at the Student Union desk in Old Main.

23 Students Withdraw

Twenty-three students withdrew from the University during March. Fourteen of the students were on campus and nine attended the undergraduate centers.

The following reasons were given for withdrawing: personal, 11; scholastic, 3; illness, 3; financial, 3; military service, 2; and other, 1.

Goor is the Indian name for the concentrated juice or syrup of the date-palm.

X-ray, Anyone?

HERBERT R. GLENN, director of the University Health Service looks on as nurse demonstrates the position used for X-raying. The mobile X-ray unit will be located south of the University Hospital. The free chest X-rays will be given today through Thursday.

Free X-rays Offered Today

A mobile X-ray unit will be on campus today through Thursday to give free chest X-rays. Students, faculty, and staff members may receive the service. The unit will operate from 9 a.m. to 1 p.m. and from 2 to 6 p.m. daily and will be located south of the University Hospital on Pollock road.

Graduating seniors were especially urged to take advantage of the service by Herbert R. Glenn, director of the University Health Service. According to Glenn, prospective employers will accept these X-rays, saving the expense of another X-ray.

The mobile unit has been sent by the Bureau of Tuberculosis Control of the Pennsylvania Department of Health. According to Glenn, the X-rays will reveal tuberculosis, cancer, and heart disease.

Theater Group To Present Play

"Exit Boy Laughing," a one-act play by John Price, graduate assistant in speech, will be presented at 5 p.m. today in the Little Theater, basement of Old Main.

The show is a production of the Five O'Clock Theater group of the division of dramatics. It will be given free-of-charge.

Directing the play is Catherine Stark, sixth semester arts and letters major.

Management Group

An organizational meeting of the Penn State Management Association for business and industrial management will be held at 4 p.m. today in 10 Sparks.

Interested students in the liberal arts, business administration, and industrial engineering may attend.
