### Cabinet Ok's New Seating Plan, Accepts La Vie Office Proposal

By PEGGY MCCLAIN

All-University Cabinet last night approved a new Recreation Hall seating plan which will discontinue the present ticket-exchange system and invest power to determine the number of tickets to be sold to non-students in the Athletic Association president and the dean of the Physical Education and Athletics College.

The report was made by David Jones, chairman of the Board of Publications.

Under the recommendation, a base figure of 300 tickets would be used as a control to determine the number of tickets to be sold to non-students for Rec Hall athletic events.

Using the base figure as a control, AA president Ronald Weidemann and Dean Ernest B. McCoy will have the power to set before the event, the actual number of non-student tickets to be sold. The number will be determined from past attendance at events.

#### Insurance Idea Okayed

In further action, cabinet accepted recommendation that an official cabinet committee be appointed to explore the possibilities of an accident and health insurance policy to be made available to students.

The report was submitted by former All-University president Richard Lemeyre. Named by All-University president Jesse Arnelle to serve on the committee were Lemeyre, Robert Homan, All-University secretary-treasurer, and Arnelle.

#### Not Mandatory

The policies would not be mandatory and would cost men students \$18 per year and women \$15 per year. Coverage would be non-restrictive and would pay for any accident at any time and place.

It would cover any and all medical, hospital and surgical expense, up to \$500, in or out of a hospital and would pay \$5000 for loss of limbs or sight, with amount being doubled if accident occurred on a common carrier.

#### Specified Indemnities

It would pay specified indemnities to \$150 for sprains, fractures, and dislocations.

The policy would include 12 months, 24 hour coverage. In the case of a student policy holder graduating in June the policy would be valid until the September after graduation.

Questioned as to what insurance companies are being considered by the committee, Lemeyre said, "I would rather not say." He said he had investigated several companies, but was holding back on decision for several more days in case of further applications from companies.

#### Schanz Will Speak On Atomic Energy

John J. Schanz, instructor in mineral economics, will speak to the Mineral Economics Seminar at 4:10 p.m. today in 121 Mineral Industries. Subject of the lecture will be "The Economics of Atomic Energy."

This will be the last in a series of ten on atomic energy. The lecture will conclude the seminar's meetings for this semester.

#### Mad Hatter Entries

The deadline for handing in entries for the Mad Hatter's Day parade May 11 has been extended until 5 p.m. Monday at the Student Union desk in Old Main, according to Richard Crafton, parade co-chairman.

By ROY WILLIAMS

All-University Cabinet last night accepted a recommendation by David Jones, chairman of the Board of Publications, that LaVie be permitted to retain its present office in Old Main; and that if this is impossible LaVie be granted an office near the present public information office similar in size to its present quarters.

Jones' proposal was made because of recent speculation that the University planned to remove all student offices from the top floors of Old Main.

The present LaVie room, Jones explained, is highly desirable because it is near the public information office in Old Main. Since repeated trips to that office for advice are necessary every day, LaVie does not want to be moved from its room, Jones said. "A room in the Student Union Building would be entirely unsatisfactory," Jones stressed.

#### Publication Recommendations

Cabinet also accepted a report by Jones on nine recommendations made by the publications workshop from the 1953 student encampment, and action taken on them by the Board of Publications. Jones explained action had been carried out on the entire nine-point program.

A Student Encampment report on Student Recreation was given by Gerald Maurey, former Athletic Association president.

#### Field House Studied

Maurey said the Outing Club had been established to make use of nearby camping sites, the ice skating would be open by November 1, and a committee had been appointed to investigate the construction of a field house.

#### Applications Due For WDFM Posts

Today is the last day students may apply for positions as department heads of Station WDFM. Doris Berkowitz, station manager, has announced. Applications may be made in 306 Sparks.

Departments of the campus radio station are traffic, production, continuity, announcing, engineering, sports, music, and special events.

Students interested in working on these staffs may apply until the end of the semester, Miss Berkowitz said, but applications for new members will be given preference if received before May 7.

#### Coed Swimming

Coed swimming will be held from 7 to 9 tonight in the Glenland Pool.

Students should bring matriculation cards and swim suits. The first 50 couples will be admitted. The coed swim program is sponsored by the Athletic Association and the College of Physical Education and Athletics.

## Ike Seeks Settlement in Indochina

WASHINGTON, April 29 (AP)—President Dwight D. Eisenhower said today a practical settlement of the Indochinese War may be possible even though a completely trustworthy peace with the Communists appears to be something over the horizon.

The President told his news conference the most the United States can hope for is to work out a practical way of getting along with the Communists. That is what we have been doing in Europe, he said.

But Eisenhower declared emphatically it would be unacceptable to permit the whole anti-Communist defense of Southeast Asia to crumble and disappear.

The President thus laid new stress on his statement earlier this week that Indochina is "the cork in the bottle" whose loss to the Communists would affect the fate of hundreds of millions in Asia.

Touching on a wide range of topics, Eisenhower made these points at his news conference:

1. A congressional proposal designed to bar the dispatch of troops to Indochina or anywhere else in the world without the advance approval of Congress would damage the President's flexibility to cope with emergencies.

2. The United States will not get into a war except through the constitutional process, involving a declaration of war by Congress.

3. No British advice or counsel has influenced U.S. decisions in conversations between Washington and London on the question of aid to Indochina. This was his reply to a question whether the French had asked the United States for air intervention and the request was refused on British urging.

4. On a question of lagging legislation, Eisenhower said congress-
