New Registration Plan: An Improvement

On Thursday the registrar announced a new plan for registration designed to make enrollment easier for students and faculty members.

However, some students, mostly next year's seniors, are complaining that the new system is unfair to them. If they would consider the new plan more carefully, they might see the benefits in it.

One of the reasons for the plan is to eliminate crowding at the registration stations. Under the old plan, all members of a certain class registered on the same day. For example, senior engineers crowded around one station while freshman English composition stations were empty.

Under the new system, members of all classes will register at the same time alphabetically. This should make the lines shorter at all stations because the students admitted at one time to Recreation Hall will be distributed more evenly around the stations.

Next year's seniors are complaining that if their names come at the end of the alphabet, they will not be able to take the courses they want. The fact is that they would have to register last in their class, too, because that is the way the rotation would have worked out under the old system. Seniors will be able to take the courses that are required for them to graduate, according to the registrar. Department heads will be required to admit graduating seniors to the courses they need.

The new system is also designed to reduce the number of sections which will close in courses. With the strict alphabetical system, department heads will be able to judge how

heavy the demand will be for a certain course, and will estimate how many sections will be needed and how many students will be in each section.

Each student, over a four-year period, will be able to register twice on the first day no matter if his name does come at the end of the alphabet. Nothing could be fairer.

The new system apparently is better than the old one. The administration would not have gone to the trouble of planning a new system if it was not believed an improvement in registration would result.

Safety Valve—Christian Association

TO THE EDITOR: The statement of basis for the proposed University Christian Association, to which member agencies must agree, and which (Oscar A.) Haac (adviser for the Emerson Society, Unitarian student group) has labeled dogmatic, begins: Believing that God incarnate in Jesus the Christ and continually present in the Holy Spirit wills to reconcile men to himself, and that He is acting in history, creating, judging, and redeeming.

Many liberal Protestant students regard Jesus as a man and believe that God is incarnate in all men, not Jesus alone. It would seem that the statement of basis is not sufficiently broad for modern Protestants.

U.S. Arranges Indochina Talks

WASHINGTON, May 14 (AP)—The United States and France have arranged high-level talks to discuss specific conditions under which American and other Allied forces might intervene in the war in Indochina.

Diplomatic officials said these secret conversations would start within the next few days, probably in Paris, an answer to an urgent French appeal for hard information about American intentions.

French Injured Fail to Arrive

HANOI, Indochina, May 14 (AP)—The French said their first wounded soldiers were airlifted today from fallen Dien Bien Phu but they had not arrived in Hanoi. The French Command here said it had no word of a possible last-minute hitch in the promised release by the Communist-led Vietminh of the most seriously wounded. The French said earlier about 16 had been picked up and taken to Luang Prabang.

French sources in Geneva said the Vietminh was raising its price for evacuation of all of the wounded, with demands that the whole area around Dien Bien Phu be neutralized to permit free movement of their troops in and out of the region.

Malone to Probe Employee Macing

PITTSBURGH, May 14 (AP)—District Attorney James F. Malone was granted permission today to open a grand jury investigation of what he calls macing of state employes by the Fine administration.

Judge Henry Ellenbogen, presiding in Allegheny County Criminal Court, ordered the May grand jury to reconvene next Thursday as a special investigating body.

Malone charged that state employes have been coerced into paying money into a primary campaign fund.

Both French and American authorities say France has not yet asked direct U.S. intervention.

American authorities emphasized that the agreement to talk with France did not constitute a U.S. commitment to enter the war.

President Dwight D. Eisenhower, with the approval of Congress, will decide this, they said, if and when France meets conditions Secretary of State John Foster Dulles laid down in a speech on Indochina a week ago.

Dulles has informed French Ambassador Henri Bonnet, it was said, that the views set forth in this address were not just his own but represented clear-cut American government policy.

The Secretary said flatly that "the present situation does not provide a suitable basis for the United States to participate" in the seven-year-old fight in Indochina.

H-Bomb Protest--

(Continued from page one)
3. Adequate funds be set aside to pay for the possessions of the people in case they have to be moved from their homes.

4. Marshallese medical practitioners and health aides should be instructed in detecting and circumventing preventable dangers.

The Marshall Islanders' committee said the petition was not a repudiation of the United States but that they were worried because of the increasing danger from the H-bomb experiments.

Anderson Urges Allied Attempt To Stop Reds

WASHINGTON, May 14 (AP)—Robert B. Anderson, deputy secretary of defense, said tonight it is of "transcendent importance" that the United States and Allies join in a collective effort to prevent further Communist gains in any area.

While Anderson did not mention Indochina, his remarks were against the background of American attempts to muster big power help to halt the Reds in Southeast Asia.

Anderson expressed his views in an address prepared for an Armed Forces Day dinner, which President Eisenhower was scheduled to attend.

He said that in a world menaced by aggression "there are certain positions and issues which peaceable nations must show themselves willing to defend with firm policy and diplomatic implementation, if possible, with military force if necessary." He declared:

"The pattern of modern aggression is that of conquest on the installment plan—the piecemeal absorption of peoples and territories in which the Soviets hope no one instance may, at the time, be regarded as a cause of war to be engaged in by the collective effort of free nations, but which in the aggregate tends to shift the balance of world power toward the side of the aggressors."

Elizabeth II Returns

LONDON, May 14 (AP)—Queen Elizabeth II sailed home tonight to mist-shrouded England from an historic six months globe-girdling tour. First to greet her was Prime Minister Winston Churchill, who boarded the royal yacht Britannia in Southampton Harbor at the Queen's special invitation.

George Washington did not belong to any political party.

Little Man on Campus

"Then again, some schools are quite open about subsidizing their athletes."

Red Minister Shifts Indochina Position

GENEVA, May 14 (AP)—Soviet Foreign Minister V. M. Molotov moved slightly today from the rigid position taken by the Communists toward ending the war in Indochina. But formidable obstacles still stand between the Indochina conference and peace.

Molotov proposed an amendment to the Communist armistice plan presented earlier by Vietminh representatives. The amendment provided for supervision of the armistice by a neutral nation's commission.

Both United States and French spokesmen declined comment, but one French delegation source said it was "a concession on one of the points which we regarded as most important."

Molotov, today's chairman, announced a two-day recess in Indochina talks. He said that a meeting restricted to delegation heads and three advisers each would be held on Monday. This was a move suggested to Molotov privately by British Foreign Secretary Anthony Eden earlier today.

The secret sessions will permit the parties involved—the Big Four, Red China, Laos, Cambodia, Viet Nam and the Vietminh delegate—to get down to specific proposals.

CAB OKs Airport Use

WASHINGTON, May 14 (AP)—The Civil Aeronautics Board has authorized Allegheny Airlines to serve Bellefonte-State College through the regular use of the Philipsburg (Black Moshannon) Airport.

Fine Formalizes Split With Taylor

HARRISBURG, May 14 (AP)—Gov. John S. Fine formalized his break with Sen. M. Harvey Taylor, Republican state chairman, today.

The governor, at odds with Taylor for more than a year, made it official by designating Edward A. Herre Sr., Harrisburg plumbing contractor, as his Dauphin County contact on patronage matters.

Although George C. Deubel, Harrisburg, is Dauphin County GOP chairman, Taylor long has been actual leader.
