

# Dockers Strike On NY Piers

NEW YORK, Oct. 5 (AP)—The International Longshoremen's Association, all but done for a few months ago, struck the New York waterfront today in a bold display of oldtime power. Seventy-one ships were caught in port.

There was no violence. The 25,000 dockers—split in two by inter-union rivalry less than five months ago—responded to the sudden

# Eisenhower Maps GOP Campaign

DENVER, Oct. 5 (AP)—President Eisenhower today called Republican congressional leaders to a political strategy conference here Friday amid signs he may head party chiefs and step up his personal campaign for election of a GOP Congress.

The Denver White House announced the chief executive and a group of top Republicans in the legislative branch will meet about two hours in advance of the President's nationwide radio-television campaign address Friday night (9:30 p.m., EST).

Eisenhower aides are saying the President's address will be his hardest hitting effort of the campaign—tailored on the basis of increasing reports from GOP leaders that the party faces a "tough fight" to maintain control of Congress.

The latest such report was put before the President today by Rep. Richard Simpson of Pennsylvania, chairman of the Republican Congressional Campaign Committee. But Simpson said after a meeting with Eisenhower that while the going will be rough, he looks for the party to gain 15 to 20 seats in the House.

# Adenauer's Foreign Policy Proven Correct

BONN, Germany, Oct. 5 (AP)—Chancellor Konrad Adenauer told the West German Parliament today the decisions of the London conference had proved his foreign policy to be basically correct.

He said that as a result Germans from the Rhine to the Elbe would have the full power of a sovereign state on internal and foreign questions with only these two exceptions:

1. The Allies retain the right to deal with the Russians on unity.
2. West Berlin must remain occupied until the all-German issue is resolved.

Otherwise, the Chancellor declared, the Allied occupation is to end for all practical purposes and his government may assume normal functioning powers on all questions of a peaceful nature.

In a one-hour speech, Adenauer expressed the hope that the London decisions on German sovereignty and rearmament within the North Atlantic Treaty Organization would be translated into fact by ratification in the respective Parliaments, including that of France.

# Pilots Refuse to Land At Night in Lock Haven

WASHINGTON, Oct. 5 (AP)—Allegheny Airlines told the Civil Aeronautics Board today that its pilots refuse to land at Lock Haven, Pa., after dark.

The airline asked the CAB, therefore, to allow it to limit service at Lock Haven to "but one round trip daily during the time of the year that daylight saving time is not normally in effect."

Allegheny said it is unable to provide the city with more than one, or at most 1½ round trips daily without unfairly depriving the remaining intermediate points on the Pittsburgh-New York route of service.

# Marilyn Monroe Shocks Hollywood With Divorce Suit

HOLLYWOOD, Oct. 5 (AP)—Marilyn Monroe, bedded upstairs with emotional upset and a virus, sued Joe DiMaggio for divorce today while the former baseball hero made himself comfortable downstairs in the home they still share.

The suit, filed in nearby Santa Monica through her attorney, charged mental cruelty but cited no specific instances.

The former star outfielder of the New York Yankees caused the screen's No. 1 box office attraction "grievous mental suffering and anguish" through no fault of hers, the action said.

Just as her attorney had predicted, it was an "innocuous" complaint of the type often filed by parting Hollywood folk.

Both the principals have been in seclusion in their English-style Beverly Hills home since Miss Monroe surprised Hollywood with the news of their breakup yesterday.

The actress' attorney, Jerry Giesler, held an hour and a half conference with Miss Monroe today.

When he served the divorce papers on DiMaggio in the downstairs living room the ex-athlete accepted them "very complacently and very decently," Giesler said.

# 6-Month Wilkes-Barre Newspaper Strike Ends

WILKES-BARRE, Pa., Oct. 5 (AP)—The six-month-old Wilkes-Barre Newspaper strike ended today. The American Newspaper Guild (CIO) approved a two-year contract with the Wilkes-Barre Publishing Co., calling for wage increases ranging from \$4.00 to \$7.50.

strike call with the smooth, shoulder-to-shoulder precision that was an ILA trademark during the union's heyday.

Tugs were not struck at the outset and the huge liners Queen Mary and the Independence were docked routinely. However, water-borne picket lines were being organized to try to turn back the tugs.

Strike May Spread "There is a strong possibility that the men in other ports from Portland, Me., to Hampton Roads, Va., will also strike," said ILA President William V. Bradley.

Federal mediators were striving for a truce as customs tabulators said practically the whole port was at a standstill. Fifteen ships were being worked at Army piers or docks where longshoremen are not needed.

On the face of it, a contract dispute over retroactivity and arbitration touched off the strike. But it also appeared to be a gesture of defiance toward the New York-New Jersey Waterfront Commission, a state-originated agency to police and control the docks.

Union Denounces Lane The independent union denounced Lane, denied the charges and ILA vice president Patrick J. Connolly declared: "Whatever chance had remained for continued negotiations was ruined by the intervention of the Waterfront Commission."

# Wood Hits Pa. Democrats

UNIONTOWN, Pa., Oct. 5 (AP)—Lt. Gov. Lloyd H. Wood, Republican candidate for governor, said tonight the Democratic election campaign is "founded on greed—not the welfare of the people."

"My opponent's tears of remorse for the people of Pennsylvania are a sham and a fraud," Wood said in a speech here.

"His interest in the welfare of the people of Pennsylvania will not extend beyond election day."

Wood is opposed in the Nov. 2 election by Sen. George M. Leader, who has cited unemployment in Pennsylvania as one of the strong reasons why he thinks the Commonwealth needs a change.

Wood said that if elected governor his own aim will be to "speed up the wheels of industry in this period of transition from a wartime to a peacetime economy and to make more jobs available for any person who wants to work."

State Revenue Secretary Otto F. Messner termed "irresponsible, untrue and ridiculous" a charge by Sen. Joseph M. Barr, state Democratic chairman, that the Revenue Department has been "padding its payrolls to get election day political workers."

Messner in a letter to Barr said the Democratic chairman had been "grossly misinformed."

# UN to View Red Atomic Control Plan

UNITED NATIONS, N.Y., Oct. 5 (AP)—The UN Steering Committee recommended today that the General Assembly consider Moscow's new plan for atomic control.

This action was taken without a record vote at a short meeting of the committee as Russian sources let it be known Moscow still stands for prohibition of the atomic and hydrogen bombs immediately and before any system of control is established.

These developments came as Yugoslavia's foreign minister, Koca Popovic, waxing optimistic with the solution of the Trieste dispute with Italy, called on the East and West to abandon cold war policies and try a new approach to international cooperation. He said lessening of world tension had created the proper atmosphere for such a move.

U. S. Delegate Henry Cabot Lodge Jr. offered no objection when Russia's Andrei Y. Vishinsky asked the Steering Committee to recommend Assembly action on the Russian atomic plan, but before Vishinsky after a long attack on the United States.

Vishinsky also asked that his proposal be treated as a separate item, but Lodge balked. He and Henri Hoppenot, France, said it should be taken up concurrently with the report of the Disarmament Commission, which is slated to be first on the agenda of the Political Committee.

This would give consideration to the Moscow plan before the committee takes up President Eisenhower's atoms for peace plan, which Lodge will handle for the President.
