

### Joins the Famous

BOB HIGGINS, left, who coached football at Penn State from 1930 to 1949, receives his plaque admitting him to the Football Hall of Fame from Adm. John H. Brown, president, during the halftime ceremony at Saturday's Penn State-West Virginia game. Looking on is Mrs. Frances Bezdek McKinstry, daughter of the late Hugo Bezdek, another former Penn State coach, who was also elected to the Hall of Fame.

### 5 Finalists to Compete For 'Mr. State' Title

Jesse Arnelle, John Carpenter, Robert Homan, Robert Rohland, and Ronald Weidenhammer have been chosen as the five finalists in the Mr. Penn State contest. All five are seventh semester seniors.

Mr. Penn State will be chosen by student applause at the Hotel Greeter Club's Belle-Hop Ball Saturday night. The finalists were chosen by a board of ten University officials.

Jesse Arnelle is sponsored by Alpha Epsilon Phi. His major activities include All-University president, Druids, Androcles, Parmi Nous, varsity football, basketball co-captain, vice president of the Junior class, Lions Paw, and the "S" Club.

John Carpenter has been entered in the contest by Sigma Alpha Epsilon. His activities include Interfraternity Council president, Liberal Arts student council, Lions Paw, Froth, Greek Week chairman, Dean of Men's advisory committee, Spring Week committee, Pershing Rifles, Androcles, and Skull and Bones.

Alpha Chi Omega and Sigma Chi are sponsoring Robert Homan as their Mr. Penn State contestant. Homan has been active as a varsity wrestler for three years, junior class publicity chairman, a member of Druids, Lions Paw, and sophomore class president. He is now All-University secretary-treasurer and a member of Skull and Bones.

Sponsored by Alpha Omicron Pi is Robert Rohland who is on the varsity football and basketball teams, IFC safety committee, a member of Pi Epsilon Kappa, Phi Kappa Psi, Skull and Bones, and State Recreation Conference. Rohland was named a distinguished military student and is "S" Club corresponding secretary.

Ronald Weidenhammer, sponsored by Alpha Chi Rho and Chi Omega, is co-captain of the basketball team, and has also been active in the Athletic Association, varsity baseball, Druids, and Parmi Nous.

### IFC Men to Meet Freshmen Tonight

Freshman men will meet with dormitory counselors and fraternity men representing the Interfraternity Council in dormitories at 10 tonight, John Russell, IFC rushing chairman, has announced.

The dormitory meetings were arranged to answer questions which freshmen might have about the fraternity system, Russell said. IFC rushing booklets and fraternity preference cards will also be distributed at the meetings.

On Sunday, the first fraternity open house will be held. Another open house is planned for the near future, he said.

## Union Local 234 Are Exempted Short \$2218 Hellz Says From English Comp

**By DON SHOEMAKER**  
Martin Hellz, chief accountant for the State, County, and Municipal Employees International, told members of Local 67 last night that \$2218.22 was unaccounted for during the first nine months of this year.

It was implied that the funds were held back by former officers of the union. Over 300 members broke away from the local two weeks ago and have since been chartered as Local 417 of the Building Service Employees International, an affiliate of the American Federation of Labor.

The former officers of Local 67 were among those who left the union. Since the split, all minutes and records of Local 67 have been in the possession of the new organization. Hellz said the exact amount of the shortage could not be determined until the minutes are obtained. He added that a writ of replevin action to regain the records was served on the new union Friday and that the books should be returned within the next few days.

Hellz based his assumption on five points:

1. During the period from January to July, the union deposited on account \$3404.07. According to Hellz's figures, the deposits should have totaled \$4271.50. He based his assumption on the amount of dues and initiation fees which should have been collected during this period.

2. During September, the union's income showed a deposit of \$44.40. Hellz said that assuming the union operated normally during September, \$572.25 should have been collected. He based his estimate on dues which should have been collected from 375 members, the average for the last seven months.

3. After the split in the union, at least \$500 worth of government bonds were found missing.

4. The expenditure of union funds amounting to \$187.94 credited to "payment for stockings" which was never reimbursed.

5. Payments of \$135 to certain officers of the union during September, over and above their regular compensations. These payments were never properly accounted for, Hellz said.

Edward Daily, international representative for Local 67, said that no formal charges had been made. He said that when the records have been obtained, the deficit will be checked and a report will be sent to the company which bonds the union.

The English composition department has exempted 234 freshmen from its basic course. The exemptions were made on the basis of tests given to the freshmen at the beginning of the semester. The names of students exempted from English composition I are:

### Course Plan Is Rejected By Chem-Phys

The proposed course in international relations which would be required of all students was opposed last night by the Chemistry and Physics student council.

All-University Cabinet is scheduled to discuss the course tonight.

Under the proposal, which came from the 1954 Student Encampment at Mont Alto, all students would be required to enroll in a course in international relations before the completion of their eighth semester.

By going on record as opposed to the plan, council became the second group to oppose the course. The Agriculture student council turned down the course on Oct. 12.

The council did approve of establishing the course, however, but objected to making it required of all students.

If cabinet approves of the course tonight, the suggestion will be forwarded to the University Senate, where it must be approved before going into effect.

In other actions, the council set Nov. 15 as the tentative date for the fall mixer to be held from 7:30 to 10 p.m. in the Temporary Union Building. Skits will be presented and refreshments will be served.

A "newsletter" committee was given the power by the council to appoint an editor for the "Chem-Phys Newsletter" and the editor will select a staff.

The first chemistry-physics coffee hour will be held Tuesday, it was announced.

### Hurlbert Elected Head Of Bus Ed Honorary

Janet Hurlbert has been elected president of the Gamma Zeta Chapter of Pi Omega Pi, business education honorary society. Other officers are Shelia Preven, vice president; Barbara Ehrenfeld, secretary-treasurer; Alice Krellner, corresponding secretary; and Sylvia Smith, historian.

The pledge banquet will be held Dec. 1.

Rosemary Arents, Wayne Zarr, Joanna Mason, Mary Shower, Joseph Del Nero, Robert Hunter, Gladys Woodward, Brooke Heckman, Carl Albrecht, Myrna Fayter, Martha Hertzberg, Margaret Remley, Florence Spector, Paul Tholan, Edwin Henric, Blanche Kurtz, Mark Baker, Carol Klamt, William Schaal, Caius Frost, Henry Hopkins, Theodore Weeks, Robert Fish, Daniel Long, Thomas Mentzer, Marie Thierwechter, John Ulrich, Martha Fritzsche, Ann Hatfield, Lenore Hamilton.

Roger Hollenbach, Bohdan Lagosky, Gordon Sharp, Nancy Lee, Nancy Siflar, Jo Ann Frost, Emil Onushak, John Yeakel, Carl Petrus, Anne Nitrauer, Gail Gilman, Peggy Neilson, Robert Nurdek, Patricia Lehr, Carol Palmer, Judith Goldman, Zoe Oser.

Georgian Kohler, Marian Peatty, Dennis Byerly, Raymond Schreckenzast, Mary Diggs, Carl Johnson, Mary Raup, Alice Artley, Ann Beckley, Thomas Kohler, John O'Conner.

Edward Frear, Jerry Phillips, Francis Fochler, Wayne Ush, John Newlin, Harriet Schoonmaker, Robert Carson, Barry Aikay, Virginia Mensch, Robert Yeager, Jacqueline Bloom, Helen Bron, Peter Fishburn, Donna Gardner, Lois Jones.

Gloria Krauss, John Legory, Margaret Leuschner, Jane Sinden, Richard Stein, Alan Stone, Robert Steale, Thomas Wellington, Jack Poole, Marion Howe, Edward Stoker, Harriet Scholes, John Long, John Stoner.

Warren Carmichael, Marjorie Hoffman, Carolyn Johnson, Sally Barnes, Alan Bomberger, Mary Conrad, Harriett Harper, Mary Ryder, Richard Spencer, Cynthia Geber, George Wills, Mary Weber, Clifford Tisdale, William Kelly, Janet Schneider.

Uberto Stagg, David Thompson, Barbara Budnick, James Shambach, Herman Biesterfeldt, Robert Shutt, Elizabeth Hoekstra, Savilla Tyler.

### New Professors Named to Staff

Three new professors have been named to the University staff.

They are Hugh S. Brown, associate professor of higher education; Marne L. Groff, associate professor of psychology and a member of the staff of the Student Advisory Service of the Psychology Clinic; and Julius London, visiting professor of meteorology for the period Feb. 1 to June 30, 1955. London is from the New York University.

The appointments were approved by the Board of Trustees.

### Froth Still on Sale

Remaining copies of the political issue of Froth will be on sale today at the Student Union desk in Old Main.

## Rigorous Engineering Course Challenges Date-Hunting Coeds

**By JACKIE HUDGINS**

Some people seem to think that engineers are bookworms who never date.

Of course, it is unfortunate that they outnumber the women in their classes approximately 54 to 1, but they're human, nevertheless. They do date.

The most promising of the engineers are chosen for enrollment in engineering science. This curriculum, established last year, is open only to those engineers who show greatest ability as mechanical and scientific students. It is designed to give rigorous and broad training in the science of engineering.

This really sounds like a tough curriculum, so, coeds, you might have to look elsewhere for those handsome dates.

Eric A. Walker, dean of the College of Engineering, who is abroad temporarily, said that the engineering science curriculum is a challenge to the brilliant students. Could this also mean a challenge for the man-hunting women?

A good allowance is a dating asset. We're not sure how much spending money the slide rule men have now, but they're almost guaranteed good jobs when they finish college. All of the 50 graduates in electrical engineering last June have accepted positions, will take graduate work, or have entered the military service.

Engineers don't spend all their time in lectures, nor are they always pouring over complicated formula, ignoring the everyday world.

Paul H. Schweitzer, professor of engineering research, has recently returned from a year's stay in Europe. Schweitzer reported that one of the most interesting things he encountered was the "whisper engine," invented by Meurer.

Not only is the engine very quiet for a diesel, but in testing it, the operators had to make three attempts to stall it while traveling uphill in high gear.

A spell will be cast . . .
