

Supplement-Choir—

(Continued from page one)

discredit to the political system on campus and an insult to the intelligence of the student voters, who, in my estimation, are all capable of arriving at their own conclusions concerning candidates without having dirt thrown in their faces to cloud the issue," he said.

Handbill Cleared

Rae DelleDonne, clique chairman of the State party, said the handbill had been cleared by Ernest Famous, chairman of the elections committee. She said she had thought of changing the handbill after it had been printed, but it was too late. She said the handbills were printed in Pittsburgh. She said she then called Famous, and discussed the matter with him.

Famous said he had told Miss DelleDonne she could use the handbills because of the time element involved, if she was willing to take any consequences which might arise.

McMeekin Unhappy

John McMeekin, vice clique chairman of the State party, said yesterday "he was not particularly happy" with the handbill. It was rumored yesterday that McMeekin had resigned over the matter, but Miss DelleDonne refused to confirm it.

State party apparently had other troubles.

Robert Nurock, State party publicity chairman, said yesterday that the nine signs which he had placed on stakes throughout campus had been taken down. It was rumored yesterday that they were taken down by the campus patrol. However, Capt. Philip A. Mark denied the rumor.

Pogal denied that the signs had been removed by members of the Lion party.

"As far as I am concerned," he said, "the posters were not removed by any member of my party. If they were," he added, "I was told nothing about it."

Nurock said he had no theory as to what happened to the signs. He emphasized, however, that he was in no way accusing Lion party.

Spanish Club Meeting

Prom Queen Photos

Entrants in the Junior Prom queen contest may pick up their pictures at the Student Union desk in Old Main.

(Continued from page one)

Harshbarger said, and not a commercial tour. The choir will attend the music festival in Aix-en-Provence, France. Final plans have not been made as to all the tourist stop-overs, but Harshbarger said Battsek would contact him when arrangements were settled.

Travel by Bus and Train

The group will travel on the continent by bus and by train, Battsek said at the choir rehearsal last Sunday afternoon. They will stay in student dormitories, small hotels, and boarding houses.

The first plans for the choir tour were made last Spring, Harshbarger said. At the first choir camp in September of 1953, several choir members suggested that the group "go to Europe." Nothing was actually done about the trip until Spring, when a few top secret plans were made.

Committees Appointed

At Choir Day last Sept. 18, reports were given and a committee was appointed to investigate the possibility of a concert tour to Europe. Members of the committee are Richard Hurlbrink, Neal Robinson, Marjorie Mitchell, Joan McKinley, George Buckhout, Fred McDonald, Frank Woods, and Christopher Ernst.

Harshbarger, who lived in Europe from 1944 until 1949, and who has guided several student tours through England and the Continent, acted as advisor to the committee.

Over 13,000 Readers Are Reached By These COLLEGIAN CLASSIFIEDS

Looking ahead with General Electric

45,000 G-E people working on jobs created by new products since 1945 could almost fill Princeton's Palmer Stadium.

In 9 years, new products created G-E jobs for enough people to fill a football stadium

Coming years promise even more progress.

One out of every five people at General Electric owes his job to products G.E. didn't make before 1945. And the future looks even brighter.

We can see new and exciting possibilities in many different fields. Atomic energy, jet engines, electronics, silicones—all promise to create new products, new processes and new jobs.

As we see it at General Electric, America's industrial progress in a free economy is not only continuing, it's rapidly accelerating.

Progress Is Our Most Important Product

GENERAL ELECTRIC

IF

You are going to use snow tires this semester, won't you please get them on soon? We have all sizes in stock, even 600-16.

Or—if you already have tires, we'll be glad to put them on for you.

Just so you have them on before the snow gets yea high.
