

Gridders in Final Home Game

Lions Are Solid Choice Over Scarlet for 6th Win

Lion, State To Seek Charters

Clique chairmen of both Lion and State parties have said that they will appear together before the Senate Committee on Student Affairs to have their parties chartered.

Gordon Pogal, Lion party clique chairman, said they would go before the committee after the elections, probably next week.

Rae DelleDonne, State party clique chairman, hinted that such a move was in the offing Sunday at a meeting of her steering committee. It was confirmed later in the week by Pogal.

The Senate committee must charter the parties because All-University Cabinet decided two weeks ago that it did not have the power to do so.

At that Cabinet meeting, George L. Donovan, director of Associated Student Activities, pointed out that if Cabinet were given the power to charter political parties, it would be a violation of the practice on campus.

He argued that the Senate committee has the sole power, pointing out that political parties have always been given meeting rooms on campus by the scheduling office, because the administration has felt they are part of student government.

He said that groups are granted this right only if they are chartered by the Senate committee.

Fraternities to Hold Open House Tomorrow

Fraternities will hold open houses for freshmen from 2 to 5 p.m. tomorrow, according to John Russell, Interfraternity Council Rushing chairman.

Russell urged that freshmen visit as many fraternities as possible. He said it is important for freshmen to ask particulars such as the cost of membership if they are interested in a fraternity.

Blue Key Initiates Nine

Blue Key, junior men's hat society, Thursday night initiated nine men.

The new members are: Carl Held, John Seastone, Lou Freiberg, John Schofield, Donald Calvert, Charles H. Springman, Ken Lesight, James Tate, and Charles Carlson.

Vishinsky Gives Views On Ike's Atom Program

UNITED NATIONS, N.Y., Nov. 12 (AP)—Russia's Andrei Y. Vishinsky said today Moscow would like to take part in President Eisenhower's atoms-for-peace program—but on conditions so far fought by the West.

The Soviet Deputy Foreign Minister told the UN Assembly's political committee that the proposed international atomic agency suggested by the United States and its atomic Allies should be inside the United Nations and subject to the Security Council.

The Eisenhower plan, as endorsed by Britain, France, Canada, Belgium, South Africa and Australia, envisions the creation of the international agency as a specialized agency of the UN, with a loose tie to the world organization.

Henry Cabot Lodge Jr., chief American delegate, replied briefly to Vishinsky. For the first time, he told the committee that the United States never has said the agency should not be linked to the Security Council. He stressed, however, that the United States was anxious to avoid getting the atomic agency tangled up in the veto.

The tone of the one hour and 45 minute speech by Vishinsky and Lodge's brief reply showed that both sides are jockeying for the best position in the closed-door negotiations which appear to be in the offing.

Lodge replied that the Disarmament Commission has been ordered to study methods of eliminating the atomic weapon from the world's war chests. He contends that the Eisenhower program is not a disarmament question.

TODAY'S WEATHER:
CLOUDY AND COLD

By DICK McDOWELL
High flying Penn State, out to continue a well-gear'd touch-down party that began two weeks ago, bows out to local football fans today when it meets Rutgers University at Beaver Field.

Kickoff is 1:30 p.m.
The Lions, who have scored 72 points in games with Penn and Holy Cross, will be after win number six this afternoon, and are an odds-on favorite to win again with comparative ease.

Lions Heavy Favorites
Coach Harvey Harman's New Jersey team, although it has shown new life in its last two games, is a 20-point underdog in this, the sixth game in a rivalry that has been completely dominated by Penn State since 1950.

Rutgers only win in the series came in 1918. Then in 1950 the two teams began a yearly meeting and the Scarlet hasn't been able to break into the victory column.

Yet veteran observers keep a watchful eye on this game, annually scheduled a week before the important Pitt encounter. Despite a heavy underdog's role Rutgers has always been able to make a game of it. Two years ago the Lions were top-heavy favorites but just squeezed by, 7-6, and last season, the Nittanians won 54-26, but had to come from behind to do it.

Race Tomorrow To Test Drivers' Skill, Safety

Automobile drivers will test their skill around the Centre County countryside at 2 p.m. tomorrow in a novel race. Drivers of any type car will be eligible to win cash prizes up to \$20.

The drive will start on lot 70, west of Hort Woods, and will tour the borough. Skill and safety will be the main prerequisites. Drivers will be given road-outlines and will attempt to return to lot 70 in a time set by race officials.

The contest is sponsored by the Penn State Pacers' Club.

It is open to students and townspeople. An entry fee of \$1.25 will be charged. Profits realized from the skill-driving test will be handed over to a local charity, John Gilbert, Pacers' Club member and course checker said. Entrants may sign up between 1:30 and 2:30 p.m. tomorrow at the starting line on lot 70.

The Daily Collegian

FOR A BETTER PENN STATE

VOL. 55, No. 43 STATE COLLEGE, PA., SATURDAY MORNING, NOVEMBER 13, 1954 FIVE CENTS

Goal Set at \$7250 For Campus Chest

The goal for the 1954 Campus Chest drive to be held Dec. 1 to 3, has been set at \$7250, according to Ellsworth Smith, general chairman.

John Robinson, solicitations chairman, said a tentative goal has been set at \$1 per student.

Campus Chest is set up to emphasize the responsibilities of the students toward the charities and organizations benefiting from the fund.

Those organizations receiving a percentage of the total money collected are United Cerebral Palsy, 3 per cent; Damon Runyon Cancer Fund, 3 per cent; American Cancer Society, 3 per cent; American Heart Society, 3 per cent; American Red Cross, 3 per cent; Salvation Army, 3 per cent; Centre County Heart Association, 3 per cent; World University Service, 20 per cent; Penn State Student Scholarship Fund, 8 per cent; Women's Student Government Association, 2 per cent; National Scholarship Society for Negro Students, 7 per cent; State College Welfare Fund, 2 per cent; University Christian, Newman Club, and Hillel, 35 per cent.

Religion Groups

Money will be allotted to the three religion groups according to the percentages indicated by the religious preference cards filled out at registration.

Centre County Heart Association and National Scholarship Society for Negro Students were the only two organizations in this year's campaign which were not included last year. The percentages allotted to some groups have been altered.

Monetary Goal Set

Last year the goal was to get 100 percent participation, but a monetary goal was set this year because the group had last year's drive on which to base its estimate.

Campus Chest strives to combine all fund raising activities into one big drive for the purpose of minimizing duplicate effort.

Religion groups on campus will solicit the faculty this year for themselves and the World University Service, thus making a faculty drive separate from Campus Chest. Last year the faculty members and students were both included in the Chest drive.

Procedure Change Passed by Cabinet

Appointments of committee chairmen and those to compensated positions must now be revealed the Tuesday before they are to be acted upon by All-University Cabinet.

This change in Cabinet's procedure resulted from an amendment passed unanimously Thursday night by a roll-call vote.

The amendment was proposed by Richard Favro, president of the Business Administration Student Council.

Another amendment proposed at Cabinet concerned substitutes for regular Cabinet members. Robert Dennis, president of the Association of Independent Men, proposed that Cabinet shall consist of the regular members or their duly appointed substitutes. Dennis explained that this was a stop-gap measure until the constitution is revised. His amendment must be read at two more meetings of Cabinet before it will be voted on.

Styles Committee

Cabinet also accepted a recommendation from John Thalmer, junior class president, that a Styles Committee be established as a Cabinet standing committee.

The purpose of this committee is to review motions specifically committed to it and to recommend to Cabinet such revisions as it deems necessary to clarify the content and intent of the original motion.

Cases of Conflict

This committee shall also point out to Cabinet cases of conflict between the All-University Constitution and motions.

The committee will be composed of the All-University vice president as chairman and three other members of Cabinet.

Eugene Wettstone, associate professor of physical education, outlined to Cabinet the plans for the Swedish men and women gymnasts who will appear in Recreation Hall Jan. 15. A Cabinet committee will be appointed to work with Wettstone on the event.

NSA Motion Heard

A motion to take \$300 from the 1954-55 National Student Association budget for expenses incurred at a conference held during the past summer was put before Cabinet by Dennis on behalf of Janice Holm, NSA coordinator. Cabinet will vote again on the motion at the next meeting because it must approve expenditures exceeding \$200 at two meetings.

Jesse Arnelle, All-University president, read a letter to Cabinet from Ralph Bunche expressing appreciation to the student body for the Lion statuette which was presented to him when he spoke on campus.

Below Grades Due

Mid-semester below grades are due today at the offices of the deans of the nine colleges.

Geophysical Charter OK'd

The Senate Committee on Student Affairs has approved the charter of the Pennsylvania State University Geophysical Society.

The group's purpose, according to its constitution, is to promote interest in the science of geophysics. President of the group is Donald A. Smith, seventh semester geochemistry and geophysics major.

In other action, the committee referred the encampment centennial committee report to the University centennial committee. The part of the report dealing with Spring Week was referred to Harold W. Perkins, Spring Week adviser, for his recommendations.

The committee also discussed the encampment report an academic honesty.

Tickets Still Available

Approximately 300 tickets for the Pittsburgh-Penn State football game next Saturday are still available at the ticket office in Recreation Hall.

Ice Skating Rink to Open First Week in December

Opening of the ice skating rink has been postponed until the first week in December, according to John Miller, chief draftsman for the physical plant.

Miller said the opening has been postponed because work on the installation of the freezing equipment is proceeding slower than expected. The rink was originally to open Monday.

When the rink is opened, it is expected that skating will be allowed from Nov. 15 to March 15 each year.

Miller explained that even though the air temperature is above freezing, the refrigeration equipment will keep the ice in skating condition. "As long as the air temperature does not go above 45 degrees and there is no more than a four-mile-an-hour wind, the rink will be open," he said.

He said that the freezing unit keeps the temperature of the ice at the freezing point, thus keeping the air directly above the ice cool. This blanket of cold air will maintain the skating surface of the ice. However, when the wind blows at more than four miles an hour it will remove the blanket of cold air and the ice will begin to melt.

On a perfectly still day, Miller said, the air temperature could probably go far above the 45 de-

gree mark without melting the ice.

A seven-foot asbestos-board fence is being built around the rink to keep the wind from blowing across the ice. "In this way," Miller said, "we can control the weather to some degree."

Workmen are now installing more than 12 miles of pipe on the rink floor, which will carry fluid to freeze the ice. The rink will have a skating surface approximately 100 by 200 feet, which will accommodate 600 to 800 skaters. It will be one of the largest artificially frozen rinks in the country.

On the western edge of the rink, near Nittany dormitory 44, a lounge building 32 by 44 feet has been constructed. The building is built of brown sandstone and redwood, with large glass windows looking out on the ice. Skaters will enter through this building.
