

# Red Attack May Start China 'Vest Pocket' War

TAIPEH, Formosa, Nov. 16 (AP)—An intensified vest pocket war today seemed likely as the Nationalists pledged the severest blows possible for the sinking of a destroyer escort by Red torpedo boats. The pledge was made in the Defense Ministry's communique. It confirmed that 28 of the 180 officers and men of the 1800-ton Taipint perished Sunday in the engagement off the Tachen Islands, 215 miles north of Formosa.

# Victory Seen In Stalemate With Russians

WASHINGTON, Nov. 15 (AP)—Senate Republican Leader William Knowland of California told the Senate today that "coexistence and atomic stalemate" with Russia "will result in an ultimate Communist victory."

He called for a congressional review of United States foreign policy, an idea which was promptly endorsed by Democratic Leader Lyndon Johnson of Texas.

"I'm afraid today that we are weaker than we should be," Johnson said.

Knowland did not concede their point that the armed forces had been weakened, but he agreed with the Democrats that this count must be able to negotiate with the Russians "from a position of strength."

He said emphatically that he was not advocating that the United States attack Russia to prevent an atomic stalemate.

Russia is pushing the idea of "peaceful coexistence" to gain time to achieve the stalemate and the nibbling away of more nations, Knowland said.

He added that the Soviet target date probably is between 1957 and 1960.

The Senate GOP chief called for congressional committees to summon State and Defense department officials to inquire fully into present foreign and defense policy and determine "whether this clear and present danger which appears to me to exist is such a basic change in the direction of our policy is warranted."

# Lindbergh Back to Duty

WASHINGTON, Nov. 15 (AP)—Brig. Gen. Charles A. Lindbergh donned the Air Force uniform for the first time today and reported for temporary active duty with the Air Force.

Lindbergh will serve for at least three weeks as a special assistant for research and development with Air Force Secretary Harold Talbott.

# Negros OK Year Wait On Schools

WASHINGTON, Nov. 15 (AP)—Attorneys for Negro parents told the Supreme Court today they would accept a slight delay in the wiping out of racially segregated public schools, but only until next September, the start of the next school year.

However, six Southern states told the court an abrupt switch would be dangerous and would disrupt their educational systems. The gravest concern was expressed by North Carolina, which said integration of the races might bring "bloody race riots."

A suggestion that the actual racial integration of the schools be handled by federal district courts in the states was made by Texas, Maryland, Virginia, Delaware, the school board of Clarendon County, S.C., and the attorneys for Negro parents who are principals in the segregation cases before the high court.

The states urged that the lower courts be given broad discretion to direct the integration to meet local conditions.

# Duff Reports Talk With Ike Success

WASHINGTON, Nov. 15 (AP)—Sen. James H. Duff (R-Pa.) said today he had a "very satisfactory" talk with President Eisenhower about "what I think is necessary to rejuvenate the Republican party in Pennsylvania."

Duff told reporters at the White House he could not discuss further his conversation with the President.

Republicans lost three house seats to Democrats in Pennsylvania in the recent election. And they also lost the governorship for the first time in 20 years. Duff indicated that he expected some changes in the Republican set-up in Pennsylvania.

# West Urged to Ignore Russian Demands—Eden

LONDON, Nov. 15 (AP)—Foreign Secretary Sir Anthony Eden urged the West today to ignore Russian overtures for a European security conference until after a rearmament West Germany takes her place in the Western defense lineup.

After that diplomatic goal has been reached, Eden told the House of Commons, the situation of the Western Powers "would not exclude the possibility of further discussions" with Russia.

The Foreign Secretary said the West must not be thrown off its course toward ratification of the Paris accords by Moscow's proposal Saturday for a 24-nation conference Nov. 29 in Moscow or Paris on "the creation of a system of collective security in Europe." Clement Attlee, leader of the Laborite opposition, agreed that ratification should go forward.

In Bonn, a similar view was expressed by Chancellor Konrad Adenauer's Christian Democratic party CDU. Describing the Soviet bid as "nothing more than an effort to disturb Western plans," the party said acceptance now would be a decisive mistake.

"No one will reject such a conference if it is held at the proper

time," the party said in a statement. "But without the necessary preparations such a conference could only lead to failure."

The West German Socialists, however, criticized the Western Powers for what they called a lack of initiative and said: "The Soviet Union is trying to maneuver the West into a corner. The only practical answer to the latest Soviet proposal is to accept it."

# Nasser Accuses Naguib

CAIRO, Egypt, Nov. 15 (AP)—The Revolution Council charged tonight that Maj. Gen. Mohamed Naguib, newly ousted from the presidency, had cooperated with Communists and Moslem Brotherhood fanatics in an effort to overthrow Premier Gamal Abdel Nasser's government.
