Henderson Faculty Luncheon

By JO WOHLEBER

Grace M. Henderson, dean of the College of Home Economics, addressed the Faculty Luncheon Club yesterday on the education of women.

Dean Henderson pointed out that the education of women is necessarily different from that of men, because of the three-fold role as home maker, bread winner, and citizen that most women play. Education should aid a woman to become what society and the community demand of her,

that home economics is designed as an area through which the home life of the country can be improved just as the industry, health and agriculture of the nation have been improved. Home and family life concerns both men and women. Accordingly, 26 per cent of all home economic

women in the United States.

Over 90 per cent of the women are married by 35 years of age and 80 per cent of them have children. Consequently, a woman's education must prepare for her role as a homemaker, wife and mother.

Judith Pendleton, social chairman, announced that mixers will be held in the women's dormitories Friday night. Miss Pendleton said that the individual units

Lastly, Dean Henderson explained the role demanded of all women, that of citizen and community leader. She said community programs call for women munity programs call for women speaker at a mixer for all journalof wide perspective, clear judg-ment and creatively.

Prepare For Three Roles Most women need to prepare women's journalism fraternity, for all three roles, she said. They need the courage to attack new problems. A liberal education, no problems. A liberal education, no Scott has just returned from a scott when it is found contained.

Dean Henderson feels that present educational practices are not adequate to help women meet the problems they must face.

Ed Honorary to Send Delegate to UN Tour

Phi Delta Kappa, education fraternity, will send a delegate on a tour of the United Nations Dec. 2-5. The tour will be sponsored by the University Christian Associ-ation and the departments of ed-
