

Youths Get Life Sentence In Simcisko Murder Trial

Two youths are on their way to Western Penitentiary at Pittsburgh today sentenced to serve "a term of their natural lives." The two were found guilty Tuesday night of the murder of Michael Simcisko, a miner found slain near Clarence in September.

The youths, Leonard Chambers, and John Salvanish, were sentenced by Judge Ivan Walker in Centre County Court in Bellefonte.

First Degree Murder

The jury returned a verdict of first degree murder and named life imprisonment as the penalty after deliberating three hours. It was up to the jury to decide whether the sentence would be the death penalty or life imprisonment.

The motive for the murder was

money, according to confessions signed by the two youths. Chambers claimed that Salvanish had the idea of the robbery first while the latter claimed it was Chambers who thought of the crime.

Witnesses

Tuesday's witnesses included Mrs. Nellie Soltis, mother of Chambers, and neighbors of the two youths. Mrs. Soltis said that she had never been able to devote much time to her children. She related how she was required at times to look for work out of town.

A neighbor of Salvanish said that his family was very poor and that the father spent a limited time with the boy. Another witness said that Salvanish had trouble getting work after he came back from reform school.

S-D Day Records Low Death Toll

Safe Driving Day, a 24-hour period of safety of the roadways, ended at midnight yesterday and was termed a success by National Safety Council officials. At 10 p.m. yesterday, 27 deaths were reported on the nation's highways.

A year ago yesterday there was a total of 60 deaths and 1807 injuries in 4907 accidents throughout the nation.

The goal set for the day was no traffic deaths and no auto accidents.

The first mishap in Centre County came at 5:40 a.m. when a truck and trailer combination driven by a Baltimore, Md., resident went out of control near Milesburg.

At Weaver Crossing the truck ran off the road, knocking over several guard rails, and finally came to rest across the railroad tracks. The driver was not injured. Damage was reported at \$500.

Six hours after the nation began Safe Driving Day, Pennsylvania had its first highway fatality. A 48-year-old Philadelphia railroad fireman, Joseph Donnelly, was killed when his car struck a truck parked on U.S. 122 near Orwigsburg, Schuylkill County.

WDFM to Give Christmas Drama

A special Christmas drama, "The Other Wise Man" will be broadcast at 9:30 tonight over campus radio station WDFM.

The drama, adapted for radio from a short story by Henry Van Dyke, concerns the quest of the fourth wise man for the Infant Savior. The leading role will be played by Robert Reifsnieder and Myron Cole will narrate the play. The play is produced by John Citron and Morton Slakoff and directed by John Brooks.

Music from "White Christmas" will be heard tomorrow night on Marquee Memories as a special Christmas program.

Three Groups Win Prizes For Displays

Judging for the Association of Independent Men-Leonides Christmas window decoration contest was completed last night, with first prize going to 139 Thompson Hall. Alice Wood and Sandra Trexler, both third semester pre-veterinary majors, will receive \$17.50 for their display featuring an illuminated nativity scene placed inside a replica of Old Main.

Second prize of \$10 went to Pollock 6, and third prize of \$5 was awarded to 125 McKee Hall. Three Honorable Mentions of \$2.-50 each were awarded to Nittany 39, and Pollock 1 and 2.

The displays were judged on the basis of originality, neatness, and apparent time and effort taken.

AIM donated \$25 and Leonides \$15 to comprise the \$40 total awarded.

Five members of AIM and Leonides judged the contest. They were Jacqueline Mulcey, Stephanie Sills, Robert Forest, Phillip Lohmann and Arthur Simm, chairman.

Winners in the Nittany area dormitory display contest were first prize, dorm 34, \$10; second prize, dorm 44, \$5.

would get 320 points and 140 in the two credit course, giving him a total of 460 points.

This figure would be divided by the total number of credits, (12) giving the student a grade average of approximately 76.

It was the opinion of the Cabinet that no formal action could be taken on the matter until it could be determined what has been done and what is being done at present to equalize possible grading defects. Lutter will make a report of his findings to Cabinet at some future date.

**HUGHES
COOPERATIVE
FELLOWSHIP
PROGRAM**

*for
Master of
Science
Degrees*

HOW TO APPLY

A program to assist outstanding individuals in studying for the Master of Science Degree while employed in industry and making contributions to important military work. Open to students who will receive the B.S. degree in Electrical Engineering, Physics or Mechanical Engineering during the coming year, and to members of the Armed Services honorably discharged and holding such B.S. degrees. As many as 100 Fellowships will be awarded each year.

Candidates must meet entrance requirements for advanced study at the University of California at Los Angeles or the University of Southern California. Participants will work full time during the summer in the Hughes Laboratories and 25 hours per week while pursuing a half-time schedule of graduate study at the university.

Salary is commensurate with the individual's ability and experience. Tuition, admission fees and books for university attendance are provided. Provision is made to assist in paying travel and moving expenses from outside Southern California.

**THE
HOWARD
HUGHES
FELLOWSHIPS**

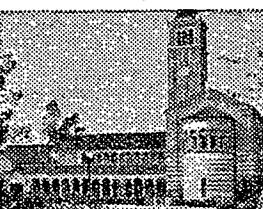

*in
Science
and
Engineering*

HOW TO APPLY

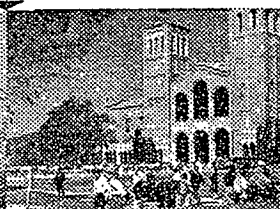

Eligible for these Fellowships are those who have completed one year of graduate study in physics or engineering. Successful candidates must qualify for graduate standing at the California Institute of Technology for study toward the degree of Doctor of Philosophy or post-doctoral work. Fellows may pursue graduate research in the fields of physics or engineering. During summers they will work full time in the Hughes Laboratories in association with scientists and engineers in their fields.

Each appointment is for twelve months and provides a cash award of not less than \$2,000, a salary of not less than \$2,500, and \$1,500 for tuition and research expenses. A suitable adjustment is made when financial responsibilities of the Fellow might otherwise preclude participation in the program. For those coming from outside the Southern California area provision is made for moving and transportation expenses.
