# Workmen Clear Site The Datily (Inllegian For Test Borings For All-Faith Chapel

Physical plant workmen are clearing the site of the proposed All-Faith chapel in preparation for test borings which are expected to begin soon.

The test borings must be taken to determine the formation of the rock strata under the foundation.

# Candidates Sought for Haller Post

A committee is being appointed to recommend qualified candi-dates for the post formerly held by Dr. George L. Haller, President Milton S. Eisenhower has an-nounced.

Haller left his position as dean of the College of Chemistry and Physics at the University to manage the laboratories department o General Electric Company's Electronics Division.

The laboratories department is comprised of research and develcornell, and Stanford Universi-ties. Haller has served for two years as a consultant to this department. The Electronics Laboratory's

prime function is advanced devel-opment in civilian and military electronics. Its projects cover such

opment in civilian and military electronics. Its projects cover such fields as transistors, radar, color television, video tape recording and automatic assembly machines. Haller was born in Pittsburgh and graduated from Mercersburg Academy. He received degrees of bachelor of science, electrical engi-neer, master of science and doctor of philosophy at the University. Haller was an engineer for Westinghouse Electric in Pitts-burgh before returning to the University as a graduate assistant. He was a radio engineer for the war Department at Wright Field and during World War 2, he served in the Air Corps, complet-ing his active service with the rank of colonel. Named assistant dean of the

### **Applications Available**

For PSC Talent Show Students interested in entering the Penn State Club Talent Show may obtain applications at the Student Union desk in Old Main, and may sign ut for tryouts to be held from 1 to 4 p.m. Saturday and Sunday and Sunday. The annual show will be held

on Feb. 25 in Schwab Auditorium. duties as associate professors of The winner will receive a prize agricultural and biological chem-of \$25. Second and third prizes istry Saturday. of \$15 and \$10 will also be Dr. Benson was assistant direc-

Bids for the drilling are expected to go out soon, according to Walter H. Wiegand, director of

the physical plant. Bids After Drillings After the drillings have been completed, bids can be released for the actual construction.

University officials are hoping to break ground for the chapel on Feb. 22, the date of the Cen-tennial birthday party. The chapel is to be built in Hort Woods on the north side of Curtin Road.

Originally the chapel was to be built on the library side of Curtin Road, but the University Board

of Trustees changed the location at a meeting last June.

University architects are now working on final plans for the chapel. Preliminary plans were approved at last spring's meeting of the trustees.

Plans for the chapel have been under consideration for more than a year. Several styles of architec ture including modern were cor sidered before a Georgian style was finally approved. Three Units

The chapel will be built in three units: a small meditation chapel the main chapel, and a connecting

## **Centennial Cancellation**

THE PERINSYLVANIA UNIVERSITY THIS STAMP CANCELLATION design honoring the University's 100th birthday is now being used to cancel all outgoing mail from the State College postoffice. The centennial postmark was first used Saturday morning to start off the new year. More than 250 letters from out-of-town persons and over 200 from State College residents were sent to the post office requesting that they be post-marked New Year's day with the new cancellation. The use of the cancellation was almost delayed but the roller for the cancellation machine arrived late Friday in time for use Jan. 1. The postmark was designed by Milton S. Osborne, professor of architecture, and was approved by Assistant Postmaster General Norman R. Abrams. Previously, the opening date for the use of the cancellation was set for Dec. 15 but the design was not approved in time. THIS STAMP CANCELLATION design honoring the University's

Four in Collision

While returning to campus, four students were involved in an au-tomobile collision Sunday night.

Six members of the University faculty will assist the administration of Governor-elect George M. Leader-one as secretary of agriculture and the others as members of an advisory committee which will assist in transferring the state government to the incoming Democratic administration.

Dr. William L. Henning, head of the department of animal husbandry, was named secretary of agriculture by Leader on Dec. 16. President Milton

S.Eisenhowerhas granted Henning anindefinite leave of absence so that he may accept the posi-tion. He will as-sume his duties Jan. 18.

Henning was awarded the cabinet post on the basis of more than 30 years of

actual and tech-Dr. William Henning

After making the appointment Leader described Henning as "one of, the nation's foremost authori-ties on animal husbandry and other phases of farm and agri-cultural life."

In accepting the post, Henning said the appointment is a "great challenge" challenge.

He emphasized the importance of agriculture to the state's economy and said that Pennsylvanians had a "wonderful opportunity Year's Day for Gerald H. Cohen, profit from its farm and allied products because of its location.
