

Romulo to Talk On U.S. in Asia

"America's Stake in Asia" is the topic to be discussed by Community Forum speaker General Carlos P. Romulo at 8 p.m., Thursday in Schwab Auditorium.

General Romulo who, since 1945, has been co-chairman of the Philippine delegation to the United Nations, has been active in all major conferences of the United Nations concerning the problems of the Far East. In 1949 and 1950 he was president of the fourth General Assembly of the United Nations.

4 Nominated For WSGA Town Senator

Four nominations for town senator were made at the Women's Student Government Association meeting Monday night.

Nominated were Elinor Ehman, seventh semester business administration major; Barbara Butler, third semester education major; Joanne Montgomery, fifth semester arts and letters major; and Rose Marie Mazza, fifth semester arts and letters major.

Senate will appoint one of these women at the next meeting. Nancy VanTries, who is the present town senator, will be graduated at the end of the semester.

WSGA President Patricia Ellis read a report on the regional National Student Association convention which was held Dec. 10 to 12 at Rosemont College, Philadelphia. The report was submitted by Carole Hite, WSGA's representative at the convention.

Carolyn Cunningham, junior senator, reported that the WSGA room in the Hetzel Union Building cannot be scheduled for meetings until after the building opens.

4 Church Groups To Meet Tonight

Two worship services and two socials will be held by student church groups tonight.

Rabbi Benjamin M. Kahn will speak on "Kedushah—Jewish Concept of Holiness," during Sabbath Eve services at 8 tonight at Hillel Foundation. Members of Phi Sigma Delta will serve as hosts for the evening.

Inter-Varsity Christian Fellowship will hear a talk by the Rev. John Reisinger of the Congregational Christian Church of Lewisburg at 7:30 tonight in 405 Old Main.

The Lutheran Student Association will hold a social at 7:30 tonight at the student center.

Wesley Foundation of the Methodist Church will hold open house tonight and tomorrow night beginning at 7:30.

Students May Submit Photographs to LaVie

Students who have snapshots showing informal campus scenes, and who are interested in displaying the photographs in the Campus Life section of the 1955 LaVie, may submit them to the Student Union desk in Old Main.

The prints should be sharp, glossy, and of good quality, according to David Carvey, editor of the yearbook. Pictures will be returned to the students in February.

Engagements

McHenry-Nein

Mr. and Mrs. H. Robert Nein of Westfield, N.J., announce the engagement of their daughter Dorothy to James McHenry, son of Mrs. Herbert McHenry and the late Mr. McHenry of Indiana, Pa.

Miss Nein is a seventh semester elementary education major and a member of Alpha Xi Delta.

Mr. McHenry attended the University and is a member of Sigma Pi.

Kleinstub-Felman

Mr. William Felman of Pittsburgh announces the engagement of his daughter Marsha to Mr. Bernard Kleinstub, son of Mr. and Mrs. Abe Kleinstub of Johnstown.

Miss Felman is a fourth semester education major. Mr. Kleinstub is a seventh semester commerce major and a member of Phi Sigma Delta.

During World War II he served as Gen. Douglas MacArthur's aide-camp on Bataan and Corregidor and was with Philippine president Manuel Quezon at the time of his evacuation from Australia. In 1944, after having served as liaison officer to the Philippine government and the war department, he returned to General MacArthur's staff and led the forces in the invasion of Leyte and the later capture of Manila.

Has Many Decorations

General Romulo has received many decorations for his activities during the war including the Philippine Congressional Gold Medal, the Distinguished Service Star of the Philippines, the Gold Cross, the Silver Star, the Presidential Unit Citation with two Oak Leaf Clusters, the Philippine Legion of Honor, the Grand Cross of the Order of the Phoenix from the Greek Government, and the United States Legion of Merit.

As an author General Romulo has written the following books: "I Saw the Fall of the Philippines," "Mother America," "My Brother Americans," and "I See the Philippines Rise." In 1942 he won the Pulitzer Prize in journalism for a series of articles written on a trip through the Far East just before the war.

Nobel Nominee

In 1952 and 1953 he was nominated for the Nobel Peace Prize, and has received many awards for his efforts to promote peace, including the Gold Medal Award given by the Woodrow Wilson Memorial Foundation of Princeton University.

Approved Fraternities

Forty-eight fraternities have been approved for the entertainment of women guests tonight and tomorrow night, the Dean of Men's Office announced yesterday.

They are:

Acacia, Alpha Chi Rho, Alpha Chi Sigma, Alpha Epsilon Pi, Alpha Gamma Rho, Alpha Phi Delta, Alpha Sigma Phi, Alpha Tau Omega, Alpha Zeta, Beaver House, Beta Sigma Rho, Beta Theta Pi, Chi Phi, Delta Chi.

Delta Tau Delta, Delta Theta Sigma, Delta Upsilon, Kappa Delta Rho, Kappa Sigma, Lambda Chi Alpha, Omega Psi Phi, Phi Delta Theta, Phi Epsilon Pi, Phi Gamma Delta, Phi Kappa, Phi Kappa Psi, Phi Kappa Sigma, Phi Kappa Tau.

Phi Mu Delta, Phi Sigma Delta, Phi Sigma Kappa, Pi Kappa Alpha, Pi Kappa Phi, Sigma Alpha Epsilon, Sigma Alpha Mu, Sigma Chi, Sigma Nu, Sigma Phi Alpha, Sigma Phi Epsilon, Sigma Pi, Tau Kappa Epsilon, Tau Phi Delta, Theta Chi, Theta Delta Chi, Theta Kappa Phi, Theta Xi, Triangle, and Zeta Beta Tau.

Installation Held For Angel Flight

Members of Angel Flight, Women's Air Force auxiliary, were formally installed Wednesday night at the Autoport.

Dana H. McKinley, assistant dean of the College of Business Administration, spoke.

A tea for Angel Flight members will be held at 7:30 p.m. Tuesday in the Home Economics living center. The tea is being given by the co-sponsors of the Angel Flight, Mrs. Daniel Riva, wife of the commanding officer of the Air Force unit on campus, and Mrs. Josephine Groesbeck, secretary to President Milton S. Eisenhower.

49,348 Lessons Graded by Mail

A total of 49,348 lessons were received, corrected, graded, and returned to the students by the office personnel of the correspondence courses in agriculture and home economics at the University during 1954.

County Agent L. H. Bull reports that this is an increase of 10,305 over the previous year and that this marks the sixty-second year of operation for the office.

International Students To See Foreign Slides

Slides from foreign countries will be shown at the Graduates International Fireside at 7:30 p.m. Monday in 304 Old Main.

The group will also discuss future programs, possibly including a study and analysis of communism from a Christian viewpoint, forums, and cabin parties.

The meeting is open to American and foreign graduate students.

Free courses by correspondence in agriculture were first offered by the University in 1892. During the 62-year period a total of 966,813 lessons have been processed from 106,120 students.

Fifty-six Courses

Fifty-six courses in agriculture and home economics are offered by the University. The lessons are prepared by the resident teaching faculty and extension staff and are written for men and women looking for practical information.

Correspondence courses in agriculture and home economics are one of the services of the University Agriculture and Home Economics Service. The courses are free to residents of the state but carry no honor points.

However, a study point value is assigned to the different courses and a student is able to earn a certificate by taking courses carrying a total of 60 or more credit points.

Flowers Popular

During the past year the flower arrangement course was the most popular with 5011 lessons processed.

Next in order were poultry keeping (3345), home floriculture (3303), propagation of plants (2177), remodeling and landscaping (1881), plant life (1784), and home vegetable gardening (1687). Eight other courses had more than 1000 lessons sent in for grading.

Of the 4402 new students sending in lessons, all but 196 were from Pennsylvania.

Food Service Gets Favorable Report

Elizabeth Kraabel, member of the All-University Food Committee, said last night in a report to the Women's Student Government Association House of Representatives that she feels Mildred Baker, director of the University Food Service, is willing to listen to student suggestions and try to help solve any problems arising in Food Service.

Miss Kraabel said the food committee had been requested by Miss Baker as a go-between for the students and food service.

In reporting on a tour of the foods building by the committee, Miss Kraabel said that all food used in the dining halls is of top grade and nothing except bottled milk and some ice cream is purchased from the University. She said Miss Baker told the committee that the University does not produce a large enough quantity of food for the dining halls and that some of it is not of the highest quality.

Miss Kraabel also pointed out that the food service is a non-profit organization, and said that Miss Baker emphasized that all money students spend for food is used for food. Next week Miss Kraabel will report on the meal ticket situation.

Alletta Manbeck, chairman of the House clothing drive, reported that approximately 275 pounds of clothing was collected and turned over to the State College Society of Friends for distribution in foreign countries.

Anne Beebe, vice chairman of the House appointed three May Day committees. They are: May Day teas, Carole Hite; past queens and WSGA presidents, Karla Dodholdt, and properties, Barbara Lederer.

Melon Given Bronze Medal

The University recently produced an all-American melon. The melon, named "Pennsweet," won a bronze medal in the 1955 selections, Dr. Russell E. Larson, head of the horticulture department at the University, announced yesterday.

Dr. Larson developed the melon several years ago.

"Pennsweet" was found to be a good producer in several states, including Pennsylvania. It is early to fruit, produces vines that are fairly vigorous with several melons 1 1/2 to 2 pounds in weight. The principal outstanding feature of the fruit is its thick, sweet flesh, which has 11 to 15 per cent sugar content.

Sufficient seed has been produced so that most seed catalogs will offer "Pennsweet" in the 1955 listings, Dr. Larson said.

Marriages

Babson-Wasson

Mr. and Mrs. E. Glenn Wasson of State College announce the marriage of their daughter Betty Jane to Mr. Roger Babson, son of the late Mr. and Mrs. David Babson.

Mrs. Babson attended the University and is now employed as a secretary to the department of philosophy. Mr. Babson is stationed with the U.S. Army Medical Corps at Camp Kilmer, N.J.

Wolfe-Sames

Mr. and Mrs. Chester Sames of Bethlehem announce the marriage of their daughter Janet to Mr. Robert Wolfe Jr., son of Mr. and Mrs. Robert C. Wolfe of Bethlehem.

Mrs. Wolfe is a seventh semester education major. Mr. Wolfe attended the University and is now serving with the U.S. Army in Chicago.

Social Gazette

Center Stage, "The Corn Is Green," 8 tonight, Temporary Union Building.

Basketball, Penn State vs. Syracuse, 8 tomorrow night, recreation Hall.

Chapel, The Rev. William E. Kroll, speaker, 10:55 a.m., Sunday, Schwab Auditorium.

University Symphony Orchestra, Winter Concert, 3 p.m. Sunday, at Schwab Auditorium.

Chemists Seek Uses For Sugar

University chemists are breaking up the sugar molecule in an effort to find more uses for this natural material.

Dr. Philip S. Skell, assistant professor of chemistry, who is studying the complicated molecule explained, "We're tackling the problem by splitting up the molecules and converting their parts into what are known as amines."

"Sugar is one of the cheapest and most plentiful of our organic chemical raw materials. Depending on its degree of purity and where it was obtained, it costs only about four to nine cents per pound."

"Sugar is also in oversupply today, and many industries would be interested in finding commercial applications for such a raw material."

In Dr. Skell's laboratory, sugar is placed in steel vessels with walls one-half inch thick. Ammonia, hydrogen and a catalyst to speed up the reaction are added, and the container is sealed. It is then subjected to high temperatures and shaken. This process breaks down the sugar molecule into fragments which combine with the ammonia and hydrogen to produce amines.

"The chemistry of these amines—piperazines—has been studied sparsely up to this time," according to Dr. Skell. One piperazine derivative is being used as an anti-histamine.

Applications Available For KKG Fellowship

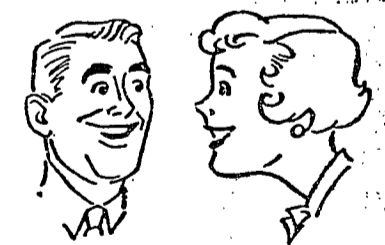

Applications for the annual Kappa Kappa Gamma \$500 fellowships for beginning graduate study are available in the offices of the dean of women.

The awards are given to women who have graduated or will receive a degree in June of 1955 on any campus where there is a chapter of the sorority.

Also available are scholarships to foreign students who are enrolled on a campus where the sorority has a chapter.

Transparency of high grade optical glass is 99 per cent, as compared with 85 to 90 per cent for ordinary window glass.
