STATE COLLEGE, PA., WEDNESDAY MORNING, JANUARY 12, 1955

FIVE CENTS

State Farm Show Praised by Prexy

President Milton S. Eisenhower said of the State Farm Show yesterday, "It's the greatest show on earth and this year it's the best ever."

"Everywhere I go I see Penn State and I like that," he added.

Also commenting on the farm show was the present Secretary of Agriculture, W. S. Hagar, who said, "Without doubt this is the best we have ever held."

Aide Says Dag Made Progress

UNITED NATIONS, N.Y., Jan. 11 (AP)—One of Dag Hammarskjöld's top aides declared today the UN secretary general has made progress toward freeing 11 American airmen imprisoned as spies in Red China.

"Give it a little time," he advised.

Meanwhile, an Iron Curtain country diplomat was reported to be telling other UN delegates he had information that the fliers would be released soon. He said to have told one colleague that the men probably would be released in two groups, "first those considered to be secondary figures in the alleged espionage, and later those regarded as the leaders."

Commenting on reports that Hammarskjöld's carefully planned mission had failed, the UN official, a spokesman for Hammarskjöld, said:

"The secretary general has not failed. He has made progress toward the goal set for him by the General Assembly. He was asked by the General Assembly to make, by the means most appropriate in his judgment, continuing and unremitting effort, for the release of the 11 fliers and other United Nations Command personnel still detained."

"The talks in Peiping were 'useful' toward this end. They established a basis upon which further progress can be made."

The spokesman made the statement with the understanding his name would not be used. He said his statement was based upon the communique issued yesterday by Hammarskjöld and Red China's Chou En-lai, at the end of their talks, and upon additional confidential information received from the secretary-general.

Atom Reactor Dedication Set For February

Plans are being made to dedicate the nuclear reactor on Feb. 22, Eric A. Walker, dean of the College of Engineering and Architecture, said yesterday.

Plans for the ceremony are incomplete, but Walker said the main speaker will be "one of the top men in the field of atomic energy in Washington."

Groundbreaking for the All-Faith Chapel will also be held Feb. 22. In line with the two ceremonies, Walker and the Rev. Luther H. Harshbarger, University chaplain, are planning a discussion between a religious leader and a scientist on the significance of dedicating a chapel and a nuclear reactor.

The discussion will be held the evening of Feb. 21. Speaking for science will be Hugh Dryers, head of the national advisory committee on aviation.

The name of the speaker from the field of religion was not available yesterday.

Walter H. Wiegand, head of the physical plant, said yesterday that work on the reactor was progressing. He said workmen are completing all the jobs which must be done prior to opening a building.

The exposition was formally dedicated Monday evening by Governor John S. Fine, to a standing crowd of more than 10,000.

From the University's founding in 1855, then known as the Farmers' High School, was portrayed up until the present time with music and costumes. Governor Fine cited the University for helping to make Pennsylvania "first in agriculture, first in industry, first in turnpike systems and first in promotion of our farmers."

Century of Progress
The University featured a display showing the ways it has contributed to the Commonwealth in its century of progress.

Old methods of dairying were contrasted with the present-day practices. The exposition contrasts life on Pennsylvania farms a century ago with the modern \$2.5 billion extravaganza it is today.

The exhibit is manned by specialists from the University, who are available to explain the state's vast farm empire.

Sixteen foreign students from the University are taking in the farm show as guests of the Pennsylvania Farmer, an agriculture magazine.

University faculty members who are speaking at the farm show include: E. J. Anderson, professor of apiculture; Dr. L. L. Huber, professor of agronomy; Howard W. Higbee, professor of agronomy; Paul L. Edinger, assistant director of agriculture and extension; and Dr. Howard B. Sprague, head of the agronomy department.

Other Representatives
Also representing the University was Nancy Van Tries, Miss Penn State, who marked the University's century by pitching some hay with an old fashioned pitch fork. In reference to pitching the hay, Miss Van Tries said, "This is fun, but give me the modern methods."

It was estimated by officials of the farm show that more than 140,000 visitors toured the 13 acres of buildings yesterday to see the displays depicting the University. This crowd tied the number of people attending opening days in 1952 and 1953.

More than 1000 men and women from rural and church organizations all over the state honored Penn State in a pageant entitled "Song of a Century."

Proving that people who attended the farm show like to eat was the fact that they devoured more than 10,000 baked potatoes, the

Carol Smith
To Sing Tonight

Contralto To Perform At Concert

Contralto Carol Smith will open the Community Concert program at 8:30 tonight in Schwab Auditorium with "Strike the Viol" and "Man Is for the Woman Made" by Henry Purcell. She will also sing "Let Me Wander Not Unseen" (Handel) and "You Who Know" from "Marriage of Figaro," (Mozart) in her first group.

Opening the second part of the program will be "Serenade" and "Whither," (Schubert) followed by "The Gardener," "Night's Glory," and "I Have One Lover in Penna," all by Hugo Wolf.

Miss Smith will also sing in aria, "Love Come Aid My Weakness" from "Samson et Dalila," (Camille Saint-Saens).

Brahms, Chopin
Rhapsody, Opus 79, No. 2 and Intermezzo, Opus 116, No. 4 by Brahms and Waltz in E minor by Chopin are included in Miss Smith's program.

Concluding the concert, she will sing "When I Bring to You Colored Toys" (Carpenter); "The Bird and the Beast" (Dougherty); "By a Lonely Forest Pathway" (Griffes); and "The Hawk" (Gunion).

Miss Smith appeared last season with the Pittsburgh Symphony which will play here on Feb. 6.

On a sold-out concert tour of 71 engagements during the 1952-53 season, Miss Smith made three New York appearances, gave 12 solo performances with eight major symphony orchestras, and appeared in opera and on television.

RCA-Victor Recording Artist
She sang the role of Lola in RCA-Victor's recording of "Cavalleria Rusticana," with Metropolitan Opera stars Zinka Milanov and Jussi Bjorling.

Following her high school graduation, Miss Smith studied at the American Conservatory of Music and the Goodman Theatre of Dra-

Tickets Available For Gym Show

Five hundred additional standing-room-only tickets for the Swedish gymnastic exhibition at Recreation Hall Saturday night will go on sale at the Rec Hall ticket office at 6 p.m. Saturday.

The exhibition will get underway at 7:00 p.m.

Doors will open at 5:30 p.m. to accommodate early arrivals

who have already purchased tickets for the event. Music, provided by George E. Ceiga, University organist, and the Penn State Blue Band, will begin at 6:30 p.m.

The 500 tickets to be purchased Saturday are for the track encircling the balcony only.

Well over 5000 tickets, including 2422 for balcony reserved seats, were sold during the first week of December. The additional 500 should bring Saturday's attendance to nearly 6000 to equal last year's record set by the Swedes on their first American tour.

Will Arrive Friday

The Swedes, this year including both male and female teams, will arrive in State College Friday afternoon after a Thursday night show at the University of West Virginia.

Gene Wettstone, gym coach and the brains behind the tour, viewed the Swedes at their Patterson, N.J. stop Friday, and was quoted as saying, "The show is much better than last year."

Ten Events

The two-hour exhibition will include ten individual events, preceded by the entrance march, during which the Swedish national anthem (Du Gamla Du Fria) and the Star Spangled Banner will be played.

The events include group free standing exercises, lightning speed tumbling, balance beam and uneven parallel bar routines, new synchronized calisthenics, jumping and vaulting, apparatus routines, a novelty number, individual free standing exercises, team ball composition, and high table jumping.

Presented Ling Award

Following last year's exhibition, Henry Allard, member of the Swedish parliament and team guide, presented Wettstone the Ling Award, a symbolic medallion expressing superiority in the field of gymnastics.

The royal Swedish award has been given outside of Sweden only three times, and that was the first time an American ever received the honor.

The Swedes have been proclaimed the finest group of amateur gymnasts ever to appear in the United States. The group will visit clubs, colleges and cities throughout the nation, comprising a total of 32 appearances.

Crawford To Resign AIM Post

Forrest Crawford will submit his resignation as secretary of the Association of Independent Men to the AIM Board of Governors tonight.

The board will meet at 7:30 p.m. in 108 Willard.

Crawford, a third semester physics major, recently pledged Tau Kappa Epsilon. At the time he became affiliated with the fraternity he said he would wait until the last meeting of the semester to resign.

Nominations for his replacement as AIM secretary will be opened tonight.

Bruce Lieske, chairman of the AIM freshman handbook committee, will submit a cost estimate for the booklet to the board tonight.

The board deferred giving approval to the handbook idea at its last meeting because no estimate of expenses was available. The handbook, as described by Lieske at that meeting, would be printed on a glossy or semi-glossy paper with a large number of pictures. It would be sent to all male students before they arrived on campus.

James McDowell, chairman of the "Farewell Party" for the Temporary Union Building, will bring up the matter under old business. Discussion arose at the last meeting when it was learned that the party is planned for Feb. 4, the same date as an Orientation Mixer for students who will enter the University second semester. It was suggested at that time that some method be found to resolve the conflict between the two dance dates.

Other matters scheduled to come up on the agenda include reports from the constitutional revisions and elections committees.

Hutzel Wins Judging Tests

Donald Hutzel, fourth semester animal husbandry major, won three first places, one in the professional student judging class, and tied for another first in the individual class placings of the professional judging division of the Livestock Judging Contest, sponsored by the Block and Bridle Club Saturday.

The first place winners in the individual class placings of professionals were Hutzel and Robert Hartley (tie), beef cattle; Hutzel, horses; John Sink, sheep; and Hutzel, swine.

The first 10 in the amateur and professional judging divisions were as follows: Amateur division, Donald McCreight, Leslie Firth, Vernon Hazlett, Richard McFeely, Roy Romberger, John Fleming, Thomas Blase, Arthur Tennyson, and Kermit Yearick and Hall Kennedy (tie). Professional division, Hutzel, Karl Hellerick and Henry Gruber (tie), Ned Siler, Robert Hartley, Ann Howard, Albert Celecki and Franklin Balliet (tie), David Morrow, and Charles Stanislaw.

Weather to Be Fair

The weather today will be good with nearly clear skies although they will begin to cloud up by night, the University weather station has reported.

3c Centennial Stamp Gets Approval

The three-cent postage stamp celebrating the 100th birthday of the University and Michigan State College has been approved by Postmaster General Arthur E. Summerfield.

The stamp, which honors the first land grant institutions established in the United States, will be placed on sale at the State College post office Feb. 22. This marks the 100th birthday of the University.

The stamp will first be placed on sale at Michigan State in the East Lansing post office Feb. 12, the birthday of Michigan State. President Milton S. Eisenhower will be the main speaker at services honoring the birthday of that school.

The central subject of the stamp is an open book with an arrangement of super-imposed symbols representing agriculture, mining, chemistry and engineering, depicting several of the leading subjects taught at the two schools. The stamp was designed by the federal post office department in cooperation with representatives from both institutions. The main color of the stamp is green. The stamp will be printed in sheets of 50 and the printing of 110 million has been authorized.

The first request for a Centennial stamp was made by Sen. Edward Martin (R-Pa.) at the request of the Board of Trustees but was turned down by the post office department. A second request was made and was granted by the department in October.
