

WD Council To Elect President

Nomination and election for West Dorm Council president will be held Monday, the Council decided last night.

President Stanley Juras had announced last semester that he would resign as soon as a replacement could be elected.

During the one-hour session, the Council set up the following qualifications for nomination and election:

1.0 Average Needed

1. Candidates must be in good standing with the University and have a 1.0 All-University average, besides living in the West Dorms.
2. Candidates will nominate themselves, but council members must approve the nominees.
3. Candidate must agree to give nomination and acceptance speeches.

4. There will be no maximum number of nominations, but a minimum of 2 has been set.

Council Will Vote

5. Only members of Council will vote. Voting will be done by secret balloting.
6. The new president will accept his post Feb. 21.

The council also decided to hold a series of mixed dinners in the Waring Dining Halls. The first of the dinners is planned for Feb. 18, with one being held every other week for the next six weeks.

Poor Coed Attendance

Council also discussed the poor attendance of the women students at these dinners. It was noted that only 68 per cent of the coeds attended the last coed dinner.

Council discussed the need for a small lounge to be open to women students on weekends. The West Dorm TV lounges were suggested. Action was tabled until the next meeting.

24-Hour Calling Sought

Also, a committee of one was set up to explore the possibilities of 24-hour calling within the dorms. At present, no calls can be made within the dorms after noon.

The following items were tabled until the next meeting: the securing of soap for washrooms, the awarding of trophies to outstanding students of the West Dorms; and the purchasing of first aid kits for dormitory units.

Because of election, the Council will meet at 7 p.m. Monday in McKee Lounge.

Outing Club to Meet

The Field and Stream Division of the Penn State Outing Club will meet at 7:30 p.m. tomorrow in 317 Willard.

Plans for a forthcoming canoe trip will be discussed, along with other special events on the semester agenda, including the building of a rifle range.

Accidents --

(Continued from page one)

The driver and one other student was uninjured. They were Dale Meder, second semester aeronautical engineering major, driver, and Lynn Montague, fourth semester home economics major.

The accident occurred between Philipsburg and Port Matilda. Miss Parks, who was pinned beneath the auto was taken to Philipsburg Hospital. Damage was estimated by Meder at \$200.

Slippery Road

2. An auto containing four University students skidded on a slippery road outside Lewistown on Tuesday and nearly demolished another auto, slightly injuring two of the students.

Margaret Gysling, sixth semester education major, suffered a cut above her eye, and John Lenarets, third semester chemical engineering major, received a cut mouth.

Driver of the car was John Keyes, second semester electrical engineering major, who said he skidded to one side of the road and ran headlong into the car of Mrs. Jay Fultz, Belleview.

3. Samuel Lewis, fourth semester education major, crashed his auto into a milk truck five miles west of Dushore on Rt. 87 on Wednesday, causing the truck to tip over, blocking the highway with milk cans.

Neither Lewis nor another student in his car, Ursula Leunis, fourth semester home economics

major, were injured in the accident which inflicted \$2000 damage to the truck and \$200 to Lewis' car.

Two Cars Damaged

4. Two cars operated by William Hartman, fifth semester electrical engineering major, and Mrs. Floyd Weaver of Rt. 1, State College, failed to stop for stop signs on the corner of Pollock road and Shortlidge road on Thursday.

Both cars were damaged, according to Capt. Philip A. Mark of the Campus Patrol, although no one was injured.

5. Richard McDonough, graduate student in speech, was injured in an auto accident about two weeks ago near Lewistown. No information has been received as to whether his skull was fractured in the accident, as originally feared.

Three-Car Accident

6. Frank Heavner, a graduate student in engineering, was involved in a three car accident on Jan. 28 in State College.

Heavner's car was hit by Austin Kendall of Troy when the Kendall machine skidded on the ice.

Heavner's car was pushed into a car operated by John Gresh of Bellefonte RD 1. Total damage was estimated at \$100.

7. James Barkley, first semester business administration student, was involved in an auto accident on January 25, in State College.

The Barkley auto collided with a car driven by Roy Fogleman of Lemont. Damage to the machines was estimated at \$40.

\$44,290 in Grants Given to University

Five scholarships totaling \$44,290 have been presented to the University. A sixth scholarship for a foreign student to study at the University has also been given.

Perle Mesta of Washington, D.C., a former envoy and minister to Luxembourg, has provided a scholarship for foreign students which will pay the transportation costs of the student, his living expenses at the University, and his books and other incidentals. The University will not require the student to pay fees.

A \$100 hotel administration scholarship has been established by the Shuck Hotels to encourage students in the field. The scholarship is for juniors and seniors and will be awarded on the basis of scholarship, potential leadership and financial need.

A freshman or sophomore may be given the award in cases of unusual merit or need.

Two fellowships in the fields of chemistry and chemical engineering have been established by the Shell Companies Foundation, Inc. The \$1500 fellowship was established to encourage graduate studies in these fields.

Shares of stock totaling \$28,000 have been added to the Edwin L. Drake Memorial Scholarship Fund, by John P. Herrick of Olean, New York, who is an oil producer, author, and a member of

the Penn Grade Crude Oil Association.

To qualify for the scholarships which pay \$223 a year to Pennsylvania students and \$443 to non-residents of Pennsylvania, students must be enrolled in the College of Mineral Industries and must be interested in the study of either geology, mineralogy, or petroleum engineering. Financial need will also be taken into consideration.

A scholarship valued at \$8,390 has been presented to the University by George T. Deike of Pittsburgh, a 1903 graduate of the University and vice president of the Board of Trustees.

Requirements for the scholarship, which was established by Mr. Deike in memory of his son, a 1930 graduate of the University who died in 1939, are based on financial need, character, qualities of leadership, scholastic ability, (Continued on page fourteen)
