

Bulganin Replaces Malenkov

MOSCOW, Feb. 8 (AP)—Defense Minister Nicolai Bulganin, an army marshal, replaced Georgi M. Malenkov as premier of the Soviet Union today. The change was coupled with a statement of foreign policy criticizing the United States as an aggressor, upholding Communist China's claims to Formosa and presenting a picture of possible hydrogen bomb warfare which communism alone would survive.

While Bulganin became premier, the drama that unfolded before the Supreme Soviet turned the spotlight on Nikita S. Khrushchev, head of the Soviet Communist party. It very strongly underscored Soviet concentration on heavy industry arms production for which Khrushchev has been the chief advocate.

Malenkov

Malenkov resigned at a morning session of the Parliament, confessing himself a failure in the field of agriculture and an inexperienced hand in the affairs of government.

Bulganin was nominated for the premiership at the afternoon session by Khrushchev, who received a significant standing ovation. Shortly thereafter Foreign Minister V. M. Molotov went to the rostrum in the great Kremlin Palace, and while diplomats listened in the packed and tense galleries, grimly outlined the Soviet idea of what would come from a hydrogen-bomb war.

Molotov declared the Soviet Union has developed hydrogen bombs with "such success that the United States could appear backward."

He said a comparison of the true strength of the United States and the Soviet Union would show this nation is not the weaker party. He declared the Soviet Union wants to compete with the United States in atomic matters only "in using atomic energy for peaceful aims."

He warned: "In case of eventual war, world civilization will not perish but what will be destroyed is the rotten social system with its blood-saturated imperialism which is being rejected by oppressed peoples."

In view of the tenor of Molotov's (Continued on page eight)

Plans Approved For Parking Area

Plans have been approved for enlarging parking area 23, north of the Temporary Building, to accommodate 77 more cars. Work on the addition will not be started until spring.

A cindered area is being provided for vehicles in the vicinity of the ice skating rink.

Work has started on the construction of a parking area behind Woman's Building. The new parking area will accommodate 36 cars.

Enrollment Totals 11,325

Enrollment on campus for the spring semester reached 11,325 yesterday. C. O. Williams, dean of admissions and registrar, has reported.

This figure, although not complete, is already larger than the final enrollment figure of a year ago when 11,084 were registered for the spring semester.

FOR A BETTER PENN STATE

VOL. 55, No. 77

STATE COLLEGE, PA., WEDNESDAY MORNING, FEBRUARY 9, 1955

FIVE CENTS

Officials to Attend Party

Gov. George M. Leader Will participate in University's birthday celebration.

Adm. Lewis L. Strauss

Leader, Strauss to Attend Centennial Ceremonies

Gov. George M. Leader and Admiral Lewis Strauss of the Atomic Energy Commission have accepted invitations to the University's birthday celebration Feb. 22 in the Hetzel Union Building.

The dinner at 6 p.m. in the HUB will climax a day in which ground-breaking ceremonies for the new All-Faith Chapel will be held at 11 a.m., and dedication of the nuclear reactor facility at 3 p.m.

On the eve of the birthday, Monday night, Feb. 21, a symposium on the responsible uses of power will be held in Schwab Auditorium. Dr. Hugh L. Dryden, national advisory committee for aeronautics, Washington D.C., and Dr. Nels Ferre, professor of philosophical theology, School of Religion, Vanderbilt University, will speak.

Cake-Cutting

Following the birthday dinner approximately 600 guests will gather in the ballroom of the HUB where the formal ceremonies will begin with a cake-cutting ceremony at 7:15 p.m.

The Glee Club will entertain for about 15 minutes and then a limited number of introductions will begin about 7:45 p.m. The governor, alumni spokesmen, representatives from other colleges, universities, land grant institutions, and students, faculty, and borough officials will extend greetings.

Judge to Speak

Judge James Milholland, recently re-elected chairman of the Board of Trustees, will speak briefly, and then President Milton S. Eisenhower will deliver the main address. The formal program will end about 9 p.m., after which the guests will be free to tour the building and attend a premiere of the University's centennial movie.

The ground-breaking activities for the new chapel in the morning will be at the southwest corner of Hort Woods, near the Library. Dr. Eisenhower, the Rev. Luther H. Harshbarger, University chaplain, and Milholland will speak.

Strauss will be the only speaker at the dedication of the recently completed reactor. Attendance will be by invitation only. The reactor, which initially will be operated at a power level of 100 kilowatts, is one of two presently approved for a college campus.

Although the events in the HUB will admit only those bearing invitations, the program will be broadcast locally and transmitted to similar birthday dinners in other cities via a special telephone "network."

Aspaturian Foresees Soviet Dictatorship

By ROG BEIDLER

The sudden resignation of Georgi Malenkov as Russian premier signifies the breakdown of collective rule and the resurrection of one-man dictatorship in Russia, Vernon V. Aspaturian, assistant professor of political science, told The Daily Collegian last night.

In commenting on Malenkov's resignation and his replacement by Marshall Nikolai Bulganin, Aspaturian stated that the "real power is not Bulganin, the new premier, but Communist party boss Nikita S. Khrushchev whose records indicate that he is making the supreme bid for absolute power."

When Malenkov resigned at a joint session of the Supreme Soviet Parliament, confessing failure through inexperience, Khrushchev immediately nominated Bulganin as premier, and he got the post by acclamation.

"It was Khrushchev who fulfilled Bulganin's appointment and was probably the man behind the arrest and execution of secret chief Beria," Aspaturian revealed.

Aspaturian is a specialist in Soviet affairs. He teaches Soviet foreign policy. He was recalled to active duty during the Korean War as chief of the Russian desk at the Intelligence Division of the Psychological Warfare Section of the UN and U.S. headquarters in Tokyo. His job was to evaluate Communist techniques and policies and to give advice to UN

Two Students Leave Hospital

Two students who received injuries in an accident when their auto skidded on a road near the Centre County Hospital Sunday were released from the hospital Monday.

Police said the students, Robert Shrope, fourth semester chemical engineering major, and William Fabis, second semester business education major, were going south from Bellefonte when their car skidded and hit a utility pole to the left of the road.

Shrope, driver of the car, suffered lacerations of the upper lip and the right side of his face. Fabis received small lacerations of the face and forehead and brush burns of the body.

The car was believed damaged beyond repair.

Home Ec Conclave

The College of Home Economics will hold a convocation at 4:30 p.m. today in Schwab Auditorium.

Television Teaching Gets Underway; 580 Students Schedule TV Courses

Teaching by television at the University got underway on schedule with the beginning of the spring semester Monday.

One section of psychology 2 and two sections of chemistry 2 are being taught by television as part of a study to attempt to solve the problems which will be created with the expected increase in college enrollment within the next few years.

Approximately 330 students registered for the psychology course and approximately 250 registered for the chemistry course.

Student Enthusiasm

Both Dr. W. Conrad Fernelius, head of the department of chemistry, and Dr. Clarence R. Car-

penter reported high student enthusiasm for the project.

No actual teaching by television has been done as yet. The first class period was spent assigning students to the various rooms. Classes with the use of television will get underway today in both chemistry and psychology.

Students Divided

Students have been divided into three groups: One group watches the lecture in the room from which it is being televised, another group watches in other rooms over television receivers, and a third group attends classes taught without the use of television. At the time they registered, students did not know into which group they would be placed.

Classes are televised from two rooms: psychology classes from 10

Sparks and chemistry classes from 119 Osmond. Television equipment was installed in these rooms over the weekend.

Equipment Installed

The equipment was supposed to have been installed at the end of classes last semester, but it was discovered that the light level was not high enough in either of the rooms to transmit a good picture. As a consequence, additional lights had to be installed.

The rooms were turned over to the engineers to install the equipment Friday afternoon. Ten men worked day and night over the weekend to get ready for Monday morning.

Tests Run

Short tests were run during the class periods Monday, which

Bond OK'd For Party Violations

The All-University Elections Committee last night proposed that a \$10 bond be set for each party, which will be forfeited for party violations during elections.

Earnest Famous, chairman of the elections committee, will bring this proposal before All-University Cabinet next week as an amendment to the All-University Elections Code. Last fall penalties for violations were docking candidates votes.

The elections committee may require the party to forfeit the bond, and may dock candidates votes as it sees fit, if the proposal is approved by Cabinet.

Earnest Famous, chairman of the elections committee, announced that the dates of Spring elections will be March 30 and 31, rather than March 29 and 30, as erroneously reported by the Daily Collegian.

The amount of bond, tentatively set at \$10, will be added to the party budget. Each party must have the bond deposited before elections.

The committee also decided to stamp matriculation cards for clique meetings, rather than compile membership lists. Each party will be responsible for its own membership lists. Matriculation cards will be stamped by members of election committee and tickets distributed for the final clique meetings.

It was decided at the meeting that Sunday's Lion and Campus Party clique meetings will be open. It had been considered to use membership lists from the fall and spring elections.

AIM Will Elect Secretary Tonight

The Association of Independent Men Board of Governors will elect a new secretary at 7:30 tonight in 108 Willard.

The post was left vacant when Forrest Crawford, former secretary, pledged Tau Kappa Epsilon. Crawford submitted his resignation Jan. 12.

David Boucher, first semester physics major, has already been nominated for the post. Additional nominations may be made from the floor.

The revised AIM constitution will also be read.

Grad Student Wins \$100 Mining Award

Peter H. Cooper, graduate student in mining, has been awarded a \$100 national prize in a competition on student papers, sponsored by the American Institute of Mining and Metallurgical Engineers.

The paper, "The Control of Stresses Around Underground Openings," was written while he was at the Colorado School of Mines.

Cooper is a graduate of the University of Birmingham and is a native of Birmingham, England.
