Feb. 22 Birthday Party Is Not First of Its Kind

Although the Centennial celebration which the University has lined up for Feb. 22 will probably be the biggest and most gala yet, it is not the first such celebration to mark a birthday of the University.

The University celebrated its first big birthday party in 1905, when it was half a hundred years old. But the party

Hi kids, here we are again, back to 8 o'clocks, hurried lunches, cramming, and coffee hours (just gave a resume of one's 4-year college stint). These TV classrooms are great—but it takes so long for the kids to get poised for the close-up shots. Off hours find future Dick Buttons and Barb Scotts gliding over glass-like ice—let's confine it to the skating rink—not the whole campus. While you're gliding around — why not zip into ETHELS for that Valentine greeting before you wind up in the doghouse!

Dan Cupid wasn't stupid

when he left yea high stacks of valentines in front of ETH-EL'S door. I think he aimed right for the funny bone, the nostalgic without the ham and the tender without the trite, when he let his arrow fly. Even Dan Magoo couldn't miss his mark with these lively bits of romance in a cute 'n sassy manner. Flippish and a bit flamboyant—they're bound to get SOME reaction,

Let's not forget to remember those people we call honey and sweetheart-even though they will be your wife some-day—romance is still here for the young at heart. And ETH-EL'S has such a nice way of saying Be My Valentine (even for the bashful types where?) Just arrived—artistic and unusual copper-enameled earrings, beau tiful spring jewelry in pastels and summer white to keynote that new spring outfit she'll be charging to dad any day now! And if she didn't bring her wall safe to school with her—some very lovely Farrington jewelry boxes-all sizes and prizes—to stow the family jewels. So don't forget guys—Monday is your deadline and we do so hate to see young men hanging from flagpoles! See you at ETH-ELS later ...
