

Power-Packed Lehigh Biggest Mat Threat

By ROY WILLIAMS

Penn State's once-beaten wrestlers, who registered their fourth win over Army, 28-8 Saturday at Rec Hall, should seriously study their next opponent—Lehigh University—which will be the Lions' last home season mat opponent Saturday at Rec Hall.

Lehigh has swept through six of its seven opponents with such devastating power that only one—Pitt—has even been in contention for victory. Lehigh's most recent 32-0 shutout against Syracuse last weekend gives an indication of what the Lions' will be tampering with come Saturday.

Besides an unbeaten team record to date, the Engineers include four of their matmen in the undefeated category. Dave Bates, sophomore 137 pounder, who wrestled one bout in the heavier division; Ken Faust, captain, who won bouts at 137, 147, and 157 pounds; and Ed Eichelberger, 147 and 157, and Werner Seel, heavy-weight.

Eichelberger has notched the most notable individual win this season with his defeat of Syracuse 157 pound Eastern champ, Ed Rooney.

If Penn State, however, can muster a similar amount of mat strength that it showed against Army Saturday night when it scored five pins in winning six of eight bouts then Lehigh will have its hands full.

Sid Nodland, Captain Bob Homan, and Larry Fornicola remained undefeated. After Nodland, 123-pound sophomore, and Homan registered ten points for

the Lions with two straight pins, Fornicola stepped up and dropped cocky Pete Fikaris, 5-1. Fikaris defeated Fornicola last year at Army, 12-5.

Lion 147-pounder Dave Adams pushed the Lions' lead to 18 points when he pinned Russ Harris with a cradle at 2:11.

Army picked up eight points by earning a three-point decision win at 157 pounds and five points at 167 pounds when Len McNeal was pinned. Dale Ward, however, had to go the distance with Joe Humphreys to finally get the 4-3 decisions, and McNeal gamely fought off Tebben, Army's Captain, for more than six minutes.

The Lions' final ten points were picked up by Joe Krufka, 177 pounder who pinned John Nicholson in 7:13 with a three-quarter nelson, and heavy Bill Oberly. Oberly's five-pointer came at 4:09 when he caught Freeman Cross with a double arm bar and a cross body.

Fresh Cagers to Meet Altoona Five Tonight

Penn State's freshman basketball team rolls into action after a three-week layoff with the Altoona Center five at Altoona tonight.

Coach Don Swegan will be minus the services of three of his first stringers who were declared ineligible at the end of the first semester because of scholastic difficulties.

Freshman Lacrosse

John McHugh, freshman lacrosse coach, has requested that all frosh interested in the sport should report to him between 4 p.m. and 5:30 p.m. on Monday and Tuesday in the water tower. Experience is not needed, McHugh said.

16 Lions to Compete In IC4A Title Meet

Lion track coach Chick Werner yesterday named his lineup for Saturday's IC4A championships, hoping that his 16-man squad will be able to cop its first indoor title since 1942.

An injury to ace hurdler Rod Perry could prove to be a damaging blow to the Lions' championship hopes. Perry is currently in the University Hospital with a bruised heel, and if he competes in the IC4A run for the roses he will be doing so without having had any practice for two weeks.

Bill Youkers and Gary Seybert will round out the Nittany trio of hurdlers for the title meet.

Art Pollard, Jack Morin, and Harry Mitchell will be used by Werner in the dash events. Last season Pollard upset defending sprint champion Bob Keegan of Seton Hall but finished a close second to Penn's Johnny Haines in the 60-yard run.

Morin Shows Promise
Morin showed a lot of promise in the Feb. 12 quadrangular meet at East Lansing, Mich., leading Pollard for the first 200 yards of the 300-yard race.

Werner has selected Doug Moorhead to run the mile, and has named Skip Slocum and Dave Leatham for the 600. Bruce Austin and Bob Matz will run on the mile relay team, with the final two to be chosen from among Pol-

lard, Morin, Leatham, and Slocum.

Two Shotputters

Rosey Grier and Charlie Blockson will represent the Lions in the shot put. Last season Grier placed fourth with a 50' 10 1/4" effort and Blockson finished third on the strength of a 51' 3 1/2" heave. Blockson's throw set a new Penn State indoor shot put mark. But in the quadrangular meet with Michigan State, Missouri, and Ohio State the record was sent tumbling by Grier's 51' 10 1/4" toss.

Harry Fuehrer, sophomore pole vaulter, may be able to pick up some valuable points in the star-studded pole vaulting field that includes last year's titlist, Bruce Hescocock of Boston University.

Herb Hollowell and Ron Johnson will be put to the test in the broad jump.

Gymnasts --

(Continued from page six)
been in the EIGA only one year they intend to be troublesome. The Panthers are only in their second year of intercollegiate competition.

Navy, who lost to Penn State, romped over the Panthers 72-24. Scores do not count when the Lions and the Panthers tangle, however, for competition between these two clubs is probably more fierce than any other two teams in the East.

The gym team returns home this weekend to play host to the Temple Owls on Saturday afternoon. In last year's meet with the Owls, the Lions' victory netted them the Eastern Championship. Saturday's meet will be the final home appearance for the gymnastic team.

College graduates getting ahead... growing with UNION CARBIDE

"I'm a chemical engineer, Class of '52, and a Technical Representative for Carbide and Carbon Chemicals Company. I work through one of Carbide's 23 Sales Offices, calling on all the process industries in my area. My job is to open up markets for new products and find new uses for old products. I try to be a valued technical consultant to my customers."

"I'm a metallurgical engineer, Class of '51. I wanted to get into development work, so I started with Electro Metallurgical Company in their Metals Research Laboratories in Niagara Falls. Three years' research work in steels and titanium gave me the technical groundwork I needed. Now I'm rounding out my first year in my chosen field—development."

"I'm a mechanical engineer, Class of '49. I started in the Tonawanda, N. Y., laboratories of Linde Air Products Company. In a few months I was doing research in low-temperature rectification and heat transfer equipment. Now I'm a Section Engineer, responsible for a group of research and development engineers—a member of LINDE's management team."

"I'm a chemical engineer, Class of '50. I started with Bakelite Company, in their training program for production. Now I'm Assistant Department Head at the main plant in Bound Brook, N. J. The group I direct handles resin quality control and technical service. BAKELITE gave me the chance to rise to a significant position in management."

Quick, Joe, bring the eyedropper—another little car needs gas!
