

Earthquakes Rock East Tip of Hawaii

PAHOA, Hawaii, March 3 (AP)—Earthquakes rocked the stricken eastern tip of Hawaii last night and early today and lava from a new, mile-long fissure exploded 200 feet into the air.

Dr. Gordon A. MacDonald, Hawaii volcanologist, declared that: "Those who can should leave until we know what is happening."

Another 100 persons were added to the 400 villagers removed from their homes when a long dormant volcanic area began erupting Monday five miles east of Pahoa.

Egypt, Syria Sian Agreement

CAIRO, Egypt, March 3 (AP)—Egypt threatened today to hit back in force against Israel if border clashes between the two countries continued.

In Damascus, Egyptian and Syrian officials announced the signing of a new Arab defense pact aimed at the Jewish state. Then the Egyptian delegation, headed by National Guidance Minister Salah Salem, moved on to Amman with hopes of adding Jordan as a third partner. All three countries are Israel's neighbors.

These developments came on the eve of an emergency session of the United Nations Security Council in New York tomorrow to discuss Egypt's charges of aggression by Israel.

Egypt charges Israeli forces made two attacks on Egyptian troops Monday night on the outskirts of Gaza, Egyptian-held city about two miles on the Egyptian side of the armistice-fixed border in southwest Palestine.

The Egyptians reported 36 of their soldiers and 2 civilians were killed in the clash and 31 wounded. In Jerusalem, an Israeli army spokesman tonight put Israeli casualties at 8 soldiers killed and 13 wounded.

BENSON, Vt. (AP)—Franklin B. Kellogg, 80, was re-elected yesterday to his 58th term as town clerk in this community of 573 persons.

U.S. Will Aid Britain in War

LONDON, March 3 (AP)—Prime Minister Churchill said today a sneak hydrogen bomb raid on Britain might bring a retaliatory punch "almost immediately" from American bombers.

The 80-year-old statesman rather testily told the House of Commons in answer to questions: "I suppose an immediate destructive, surprise and treacherous attack by the hydrogen bomb upon this island might possibly be acted upon by our allies in the U.S.A., almost immediately, without further prior consultation."

Legislators accepted Churchill's remarks as a warning to Russia against attempting a surprise strike before Britain's strategic bomber force is ready for action and its hydrogen bomb comes off the production line.

Churchill spoke after Laborite Kenneth Robinson asked assurances that U.S. bombers, based in Britain, would not strike against an enemy without getting London's prior okay.

The Prime Minister said his March 1952 agreement with President Eisenhower on the use of the American nuclear bomb force in this country still holds good. This provides that the U.S. jet fleet and bases—manned by some 30,000 American airmen—would be used in an emergency after joint decision by the British and American governments.

Senate Approval Due On Court Nomination

WASHINGTON, March 3 (AP)—The Senate Judiciary Committee today set next Wednesday for a showdown vote on President Eisenhower's nomination of John Marshall Harlan to be a Supreme Court justice.

Chairman Kilgore (D-Va.) said after a closed-door meeting that Wednesday was the first day on which a majority of the 15-member committee could agree to be present.

The new fissure, which opened with shattering suddenness yesterday and almost engulfed 12 plantation workers, lies farther east of the old eruption area, which has begun to quiet down.

The fissure, from which lava is spouting, is only a mile and a half north of the abandoned village of Kappoho, which is near the coast at the eastern tip of Hawaii.

The situation was tense. Police Chief Anthony Paul of Pahoa stopped all but official cars from moving out east. But scattered bands of sightseers still were seen in the forbidden area.

There was a report that lava was flowing through Kapoho, which would put it little more than a mile from the sea.

By night, the whole end of the island was lighted by the fiery glare. Fingers of lava spread out both north and south of the fissure. Choking sulphur fumes filled the air.

Van Zandt Asks for Loans

WASHINGTON, March 3 (AP)—Rep. James E. Van Zandt, (R-Pa.) asked Congress today to authorize loans to be made by the Small Business Administration to municipalities having a substantial labor surplus.

The purpose of the legislation would be to promote new industries in the area.

Priest Expelled By Soviet Police

MOSCOW, March 3 (AP)—The Rev. Georges Bissonnette, American Roman Catholic priest ordered expelled by Saturday, devoted hours today to hearing confessions of his saddened Western diplomatic parishioners.

Soviet police lifted his passport yesterday without giving a reason. Today they acceded to the young priest's plea for as much additional time as possible and granted him permission to leave the country by plane instead of by train.

The 33-year-old clergyman from Central Falls, R.I., will fly from Moscow Saturday to Helsinki, Finland.

Leader Against Tax

HARRISBURG, March 3 (AP)—Gov. George M. Leader today took a stand against a head tax but said he is "not closing the door on anything" that may solve Pennsylvania's tax problem.

Dulles—

(Continued from page one) which the United States guarantees to defend Formosa and the nearby Pescadores from Red attack.

He has said previously the United States would not defend the off-shore islands "as such" but would watch closely for any Communist attempt to use them as stepping stones to an attack on Formosa.

In his airport statement, Dulles skirted the question of the off-shore islands, which block the ports of Amoy and Foochow which the Communists might use for an invasion of Formosa.

CIO Rules on Testifying

WASHINGTON, March 3 (AP)—The executive board of the CIO Steelworkers union said today that refusal of any of its members to testify about communism will not alone be sufficient to strip the worker of union membership or job protection.

CLASSIFIEDS
