

# Senate May Alter Coed Drinking Rule

By INEZ ALTHOUSE

Women's Student Government Association Senate last night discussed modifications in the drinking rule and possible student enforcement of any such rule.

Under modification proposed by Senate last fall, drinking was disapproved and cases of excess would be punished.

The original WSGA rule concerning drinking provided that: "Drinking by women students is forbidden by the College and WSGA which reserves the right to refer cases to the Judicial Committee and the College administration."

Senate felt student opinion should be obtained before a definite step was taken, and a committee was set up to consider a questionnaire concerning the modified rule and possible student enforcement.

The questionnaire would be distributed to all women students. Results from this poll would be considered in future discussions and recommendations for a concrete rule.

**Discuss Checker System**  
Discussion centered around the possibility of a system of checkers to enforce the rule. No agreement was reached on who these checkers would be or where the power of enforcement would lie.

From the questionnaire Senate will attempt to learn student opinion on the rule and whether they would favor student enforcement.

Joyce Shusman and Patricia McLaughlin are co-chairmen of the committee. Others on the committee are Carolyn Cunningham, Patricia Lehr, Patricia Dickinson, and Patricia Ellis.

**Convocation to Be Held**  
WSGA Convocation will be held at 7 p.m. Monday in McElwain lounge. Helen Schleman, dean of women at Purdue University, will be guest speaker. A dinner for old and new Senate members will be held at 5:30 p.m. Monday in McElwain Hall. A short reception will follow the Convocation.

Senate passed a rule stating that any student may turn in another for line-jumping in Thompson Hall, and that the violator will receive a blackmark for the offense. Two students, however, must sign the slip reporting the violation, and the slip will be given to the hostess in charge, who will give the blackmark. This rule was recommended by Freshman Council, and will apply only to Thompson Hall, since it was felt that the line-jumping problem existed there only.

Joyce Shusman, chairman of Judicial, reported that members of Judicial will be chosen by a screening board after applications on printed forms have been submitted by interested students. This system will follow that used to select candidates for WSGA

# 'Danny Grads' Aid Religious Programs

By SHIRLEY CALKINS

Each year a group of college women, not more than one from each state, are selected by the Danforth Foundation to receive Danforth Fellowships for religious work at colleges and universities throughout the country.

The Foundation chooses women who have shown qualifications for aiding the religious lives of students. During the summer they receive a five-week training period at Camp Miniwanca in Muskegon, Mich.

### Attends College

In September the foundation sends the graduates to college and university campuses throughout the nation and supports them for one year. The graduate is sent to a campus at least 1000 miles from her home. At the end of the year she is under no obligations to the foundation and may choose whatever position she desires.

Before a Danforth graduate is placed in a college or university, the institution must show a definite need for the graduate, and the Foundation must feel that the graduate will be welcomed and can be of service to the school and the students. A particular school usually has a graduate for only two consecutive years.

### Allen Chosen

Carolyn Allen is the University's "Danny grad" this year. She graduated from the University of Minnesota with a degree in music in 1954. Her work on campus is associated with the University Christian Association. She lives in McAllister hall and counsels there and in her UCA office.

Miss Allen plans the UCA square dance each week and is working with the church vocations' conference to be held April 30.

Last year's University "Danny grad," Elizabeth McCain, a graduate of the Texas Technological College, is now teaching in the Episcopal Boys Academy in Hawaii.

## Marriages

### Flanagan-Newell

Dr. and Mrs. Bernard A. Newell of Riverside announce the marriage of their daughter Eliza to Mr. John Flanagan.

Mrs. Flanagan was graduated from the University in 1954 and is a member of Kappa Delta. She was society editor of the Daily Collegian.

Mr. Flanagan also was graduated from the University last June. He is a member of Sigma Chi.

oooooooooooooooooooo

To quote the much quoted expression which should be quoted at this time—"Lightning never strikes twice in the same place." However, I would like to disagree and remind you of a movie title—"The Postman always Rings Twice" (very good movie).

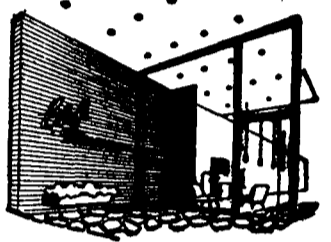

In the case at Simon's . . . lightning or the postman is ringing or striking or something twice. Simon's is having an Anniversary Sale! If you missed our last sale, now is the chance and you're the one!

## Thru the Looking Glass

with Gabbi

Looks like the only ill wind that blows no good is not just contained in an alto sax—any upright student can now tell you that—from an oblique position, of course. We're not just hanging on to our hats, but our steel-tipped ball point multi-colored pens—cause you can hardly get them no more! But there's always something to get at ETHEL'S and today it's a Susannette.

### And away we go!

Not layette, coquette or Antoinette, but Susannette; a kind of whittled down version of those revolving serving trays that lets everyone get their fingers in at one time. But this is a flat, 8" diameter and makes any tray a lazy susan, revolves a radio for clearer reception (or if it's a clock job, keeps you farther away from the alarm), heatproof, scratchproof—it's a great boon to scrabblers (saving on words) who can't read upside down. All this, and 2 tickets to next week's performance for \$1.50.

### Take the guess out of bidding

with the bidder's digest that's a rock and salvation to anyone who's ever gotten kicked in the shins under the card table by one's bridge partner. Neatly indexed are opening bids and responses that will ultimately lead to a better game (and less daggers across the table), makes a nice gift or give yourself a present—aw, come on, you deserve it, after studying a whole hour for a Soc B.B.

### Be good to the Bride-to-Be

and give her a natural-colored linen toaster and mixer set—gayly painted with Swedish prints, and there are tea towels to match, if your bank account is bulging, you can really do it up in style. They are rather unique and a bit more interesting than plastic. Gee, wish someone would think of ways to spend my money like I do yours. See you at ETHEL'S.
