

Men Debaters Will Attend Regional Meet

The Men's Debate Team will attend the West Point Regional Debate Tournament at St. Peter's College in Jersey City, N.J., this weekend.

The team will debate the national intercollegiate debate topic, Resolved: That the United States should extend recognition to the Communist government of China.

The event will be a switch team tournament. The team taking the affirmative in the first round will debate the negative in the second round. The first affirmative and first negative debater for the University will be David Meckler, eighth semester pre-medical major. Benjamin Sinclair, eighth semester arts and letters major, will take the second affirmative and second negative.

There will be six rounds of debate, from which five teams will be chosen to represent Region 7 at the West Point National Tournament on April 22 and 23. Each round will be decided by two judges, making a total of 12 decisions.

Fraternity Publications

The Greek Week Booklet will be distributed today and Toga Tales tomorrow morning, according to Norman Miller, editor of the Interfraternity Council-Panhellenic Council publications.

Hospital Wings Work Started

Work preliminary to construction is underway on the two new wings to be added to the University hospital.

The area is being cleared and leveled by bulldozers and power shovels. The starting date for construction has not been set.

The addition to the present building will include two wings and an ambulance garage to the rear of the building. Each wing will include three floors, and will be built of red brick to match the present building.

AIM Code--

(Continued from page one) power into the constitution.

Henry Simm, projects chairman, and William Johnson, Nittany Council president, were elected to attend the National Independent Student Association convention in April at Colorado A and M.

Nominations for AIM offices will be April 20; elections will be April 27.

Candidates for all-University and class offices from the Campus and State parties attended the meeting last night.

James W. Dean, assistant to the dean of men, announced that selection of upperclassmen to live in the West Hall area would be held at 8:30 this morning in Nittany 20. Kennedy, Johnson, and

Compensation--

(Continued from page one) tied 9-9 on the allocation. The action by Cabinet came two weeks after Cabinet had approved a \$.25 general fee to defray and expand the activities of the college councils.

The board heard Sylvia Grube, a representative of Mortar Board, senior women's hat society, report on the need for a central tutoring system on campus besides the Division of Intermediate Registration system.

Miss Grube said that students who seek special aid in studies have no place to turn because the individual student advisers are so busy trying to take care of the present needs of the students, and also because DIR has its hands full.

She stressed the need for a system in which there would be some one to whom students could go on their accord for tutoring.

It was agreed that the best way to establish such a system would be through the honorary groups within the various colleges.

The members of the board agreed to contact the honoraries in their respective colleges and inquire about the possibilities of the plan. The matter will be brought before the board at a further date.

Martinni, campus council president, were requested to attend the selection meeting.

Council Approves AIM Constitution

Pollock Council last night in a special session approved the newly amended constitution of the Association of Independent Men.

Robert Dennis, president of AIM, attended the session to explain the constitution and to answer any questions that council members had concerning it.

The only conflict over the constitution arose from the veto power which will be given to the president. Several council members felt that the veto would give the president too much power.

Pollock Council was the last of the four councils to vote on the constitution. Nittany, West Dorm, and Town Independent Men councils have approved the constitution.

Relief From Cold Seen

Cloudy and warmer weather is forecast for today by the University weather station.

The high mercury reading for today is expected to be 55, and the low is predicted for 35 degrees.

Yesterday's high was 48 and the low was 25 degrees.

Cabinet--

(Continued from page one) mittee would be a liaison between the town and town students, and would make reports on town affairs to interested groups.

The committee, to be composed of a member of AIM, Interfraternity Council, TIM, Women's Student Government Association, Cabinet, and an adviser from the Dean of Men's office, would not have legislative powers.

The joint committee would handle matters of student concern in relation to the town, if the matter concerns two or more of the groups represented.

Dennis will also propose that each College set up a Student-Faculty Board, which would hear grievances and problems of the students. These problems or suggestions would then go to the College's student council, and could therefore be brought before Cabinet.

Let your vacation start at the station!

—more fun, more friends on the train!

Take the train for a fun-filled trip back home... with your friends along and room to roam. No tough driving to do, and no waiting for weather to clear.

Costs less, too... you and two more traveling together can each save 25% of regular round-trip coach fares on most trips of 100 miles or more by using GROUP ECONOMY FARES.* Or, gather 25 or more heading home at the same time in same direction and you each save 28%, even if you return separately.

*Except for local travel between New York-Washington and points east of Lancaster, Pa.
