

AIM Draws West Dorm Placements

Room assignment numbers for 318 men were drawn by representatives of the Association of Independent Men yesterday in the room assignment office.

Richard Calupca, sixth semester civil engineering major with a 1.82 All-University average, was the first senior name drawn and will be placed at the top of the waiting list.

Robert Detisch, 2.64, was the first junior; and Joseph Frank, 2.36, was the first sophomore. Both are at centers at present.

Frank J. Simes, dean of men; James W. Dean, assistant to the dean of men in charge of independent affairs; Otto E. Mueller, director of housing; and Francis H. Gordon, room assignment officer, were present to supervise the drawing.

Four Draw Names

Thomas Beitkiewicz, second semester aeronautical engineering major; Harry Martini, third semester liberal arts major; James Kennedy, eighth semester chemistry major; and William Johnson, fourth semester pre-medical major, drew the names as AIM representatives for students.

After each number was drawn the corresponding name was given a waiting list number for the correct year. Each of the names will be placed on the list in the order in which they were drawn.

318 File Applications

Applications were filed by 318 men of whom 19 were disqualified because they did not have the scholastic average required, Gordon announced yesterday. All the applications were screened by the room assignment office, he said.

West Dorms will house 240 upperclassmen and 870 freshmen next year, according to Gordon. He said he would probably be able to assign all of the students with the required scholastic averages who have applied to the West Dorms before next fall.

Ad Firm President To Speak at Smoker

Charles Eyles, president of the Richard A. Foley Advertising Agency, will speak at the semi-annual Alpha Delta Sigma smoker at Delta Chi 7 a.m. Sunday.

Alpha Delta Sigma is a national professional advertising fraternity for men and has chapters throughout the United States.

Eyles will also present the annual \$100 Eyles Award to the ADS member who has done the most for the fraternity this year.

March 'Engineer' On Sale Today

The March issue of the Penn State Engineer will be on sale today at the Hetzel Union desk. Included in the issue are articles by department heads in the College of Engineering and Architecture explaining the functions of departments of the college. The issue will be distributed to high school seniors to give them a clearer understanding of the functions of the college.

Lucille Buck, fourth semester business administration major, is the Engineer girl of the month.

Faculty Luncheon Club

Dr. L. L. Huber, professor of agronomy, will address the Faculty Luncheon Club at noon Monday at the Hotel State College. His subject will be "Corn Breeding Is a Game."

6 to Participate In Conference

Four students and two faculty members will participate in an eastern Pennsylvania conference on preparing college men and women for politics at the University of Pennsylvania today and tomorrow.

The students participating are John Ball, seventh semester arts and letters major; Jack Cohen, fourth semester business administration major; Michael Durkin, eighth semester arts and letters major; and Gary Fox, fifth semester business administration major.

The faculty members attending are Lee E. Corter, assistant professor of political science; and F. J. Sorauf, instructor in political science.

Included in the program will be addresses by Senators Clifford P. Case of New Jersey and Richard L. Neuberger of Oregon.

IFC-Panhel Tryouts Will Be Held Tonight

Final tryouts for the Interfraternity Council-Panhellenic Council sing will be held at 7 tonight in 110 Electrical Engineering.

Twenty-two groups will compete tonight. At the conclusion of tonight's sing, the four fraternity finalists and four sorority finalists will be announced.

Colder Weather Seen

Today is forecast by the University weather station to be partly cloudy and colder.

Today's temperatures are expected to range between 35 and 45 degrees. Yesterday's high mercury reading was 54, and the low was 48 degrees.

Finals will be held at 7 p.m. Sunday at State College High.

Bell Aircraft, a world leader in aviation, is also an outstanding leader in electronics. From our engineering laboratories have come some of the newest concepts in control systems of all types. Servomechanisms and electronic systems are now designed and produced by Bell for its own products and those of other aircraft and guided missile manufacturers. An unequalled opportunity is presented to graduating electronic engineers who can apply their know-how to our projects in this challenging field.
