

# 'Useful' World Talks On The Way—Dulles

WASHINGTON, March 29 (AP)—Secretary of State Dulles said today that with Western unity now "an irreversible reality" the time is approaching for what could be "useful" discussions between the free world powers and Russia.

Dulles did not predict just when the United States and its major Allies might get together with the Soviet Union. He said any such top-level meeting requires infinite planning and is certainly months away.

World disarmament and German reunification might well be on the agenda for any Big Four conference, he added. Both questions have been prime topics of Communist propaganda, if not action.

Dulles told the Senate Foreign Relations Committee that Russia seems ready to adjust to the reality of Western unity after failing to block it. Russian opposition in this sphere, he said, resulted in "the greatest failure in Soviet diplomacy that has yet occurred."

Of the Paris accords to rearm West Germany within the North Atlantic Treaty Organization, Dulles said:

"The Soviet Union exhausted every means at its command short of open war to try to prevent the result now before you. They have failed."

Dulles urged the committee to approve promptly the two treaties before it.

Dulles told the Senate Foreign Relations Committee that Russia seems ready to adjust to the reality of Western unity after failing to block it.

Meany told a news conference the guaranteed wage campaign "is the auto workers' baby, and I think they're blazing a trail." He said the principle of the guaranteed annual wage plan is "very much in the tradition of the labor movement."

Meany, slated to head a merged AFL-CIO organization, said a joint strike fund "could be a possibility" in the future, but not immediately.

## Knowland Policy Wrong On Formosa-Fulbright

HEMPSTEAD, N.Y., March 29 (AP)—Sen. J. William Fulbright (D-Ark.), said today Senate Republican Leader William Knowland's approach to the Formosa problem "may lead to war unnecessarily."

"I don't like the Knowland approach," Fulbright said. "It's a dangerous situation. I don't think he has a sound understanding of the facts of life in that area."

## Ike Initiates Poppy Day

WASHINGTON, March 29 (AP)—President Eisenhower bought the first Buddy Poppy of the Veterans of Foreign War, 1955 sale today from 6-year-old Ruth Ann Lilley.

The President exchanged a \$5 bill for the poppy which the brown-haired, blue-eyed youngster affixed to his lapel.

### Hiroshima Report

LOS ANGELES, March 29 (AP)—A report on the long-range effects of the atom bomb on Hiroshima disclosed tonight that there have been a few cases of latent damage to survivors. But no significant indications of unfavorable hereditary effects on their offspring.

## 2 Atom Blasts Break Record

LAS VEGAS, Nev., March 29 (AP)—For the first time, two atomic devices were exploded in one day today. One was a whopper heard "like thunder" 170 miles away, the other a pink-tinted shot dropped from a plane five hours later.

The nuclear double feature roared its opening when a device estimated to equal 20,000 tons of TNT reduced its 500-foot tower to stubs of twisted metal.

It gave Las Vegas a mild jolt and appeared similar in force to the other major test of the spring series, held last March 7. But because of overcast skies it was less spectacular, being seen in only five states. The previous spectacle was seen border to border throughout the West.

Six hundred soldiers crouched in trenches 3500 yards away on the Yucca Flat test site. Then they went in to look at the large amount of military equipment exposed to it.

# Western Interest Shown In Malenkov's Absence

STOCKHOLM, Sweden, March 29 (AP)—The Russians kept mum today on a topic of sudden interest in the West: Has something happened to ex-Premier Georgi Malenkov?

Rumors eddied this side of the Iron Curtain that the pudgy little man who resigned the premiership Feb. 8 with a confession of failure has disappeared or been executed.

Though such things have happened before in Russia, the basis for the rumors appeared slight. And you couldn't prove them by the Moscow radio or other Soviet propaganda mouthpieces. They said not a word about Malenkov.

However, a Swedish power delegation newly returned from a 17-day tour of the Soviet Union reported it received no information which would lead it to believe he has been liquidated.

Malenkov was made minister of Soviet power stations the day after his fall from the premiership and, as such, was technically the Swedes' host. But they never saw him.

Bo G. Rathsmann, leader of the delegation, explains:

"At the airport, Soviet Deputy Minister Alexi Pavlenko told us his boss, Georgi Malenkov, sent his regrets that he was not able to meet us since he was away from Moscow inspecting a power station. Pavlenko did not say at all where it was."

Rathsmann, head of the Swedish Waterfall Administration, said the

## Martino Proposes Western Conference

WASHINGTON, March 29 (AP)—Foreign Minister Gaetano Martino of Italy proposed today that nine Western nations meet in Paris during May to lay groundwork for a disarmament conference with Russia.

After talking to Secretary of State John F. Dulles, Martino told a reporter that Dulles found the proposal "very interesting" and indicated he would support it.

The nine nations suggested as participants in the proposed Paris meeting are the seven members of the Western European Union—Britain, France, West Germany, Italy, Belgium, the Netherlands and Luxembourg—plus the United States and Canada.

group saw Malenkov's nameplate on a door in the Power Station's Ministry. He reported all the Russians the group met were pleasant and cooperative. Pavlenko was power minister until Malenkov took over the job.
