

# Voluntary Plan Sought For Polio Vaccine Shots

WASHINGTON, May 16 (AP)—The administration recommended today reliance on a voluntary plan for distributing polio vaccine and called for a \$28 million appropriation to help pay for shots for poorer children.

A report approved by President Eisenhower also called for precautions against black marketing of vaccine and for the hiring of more federal inspectors and technicians for testing the product "for safety and potency." This would require another two million dollars from Congress.

# Dulles Returns From European Conferences

WASHINGTON, May 16 (AP)—Secretary of State John Foster Dulles, returning from historic conferences in Europe, declared today he sees "some promise of constructive accomplishment" in the Big Four meeting he helped arrange for President Eisenhower to attend.

Setting up this meeting of top government leaders was listed by Dulles as one of several "great events" during an eventful week in Europe.

"Much good work has been done," he told an airport audience.

Dulles went immediately to the White House and conferred for some time with President Eisenhower, who has taken a cautious attitude toward the Big Four session expected to be held some time in July.

Arrangements have been made for Dulles to make a half-hour report to the nation by radio and television tomorrow night from 6-6:30 p.m. The broadcast will go "live" from the President's office over the American, Columbia, Dumont and NBC television networks. Radio rebroadcasts will follow this schedule: American 7 p.m., Mutual 8:30 p.m., National and Columbia 9:30 p.m.

He had gone to Paris in the first place to attend a NATO meeting. Over the weekend he went to Vienna to sign the Austrian independence treaty and wrap up the Big Four meeting with Soviet Foreign Minister V. M. Molotov, British Foreign Minister Harold Macmillan and French Foreign Minister Antoine Pinay.

In his airport talk, Dulles listed what may turn out to be an outline of his report to the nation tomorrow night.

# U.S. Urged To Build Atom Powered Ship

WASHINGTON, May 16 (AP)—The chairman of the House Merchant Marine Committee urged today that the United States build a "practical" atomic-powered merchant ship as well as the "Mississippi River showboat" proposed by President Eisenhower.

Rep. Herbert C. Bonner (D-N.C.) and other members of the committee did not come out against Eisenhower's plan to build an A-ship and send it around the world as a demonstration of how atomic energy can be put to peaceful uses.

But Bonner said the group is more interested in an experimental vessel which would be economically feasible and "actually carry some freight."

What the President apparently has in mind, Bonner said, would be some kind of an "international sideshow, carnival or Mississippi River showboat."

He announced he would introduce a bill for the construction of a second ship. He was backed at once by two Republicans: Rep. Thor C. Tollefson of Washington, senior GOP member of the committee, and Rep. Elford A. Cederberg of Michigan. Eisenhower hasn't yet asked Congress for the funds to carry out his idea, outlined in a speech three weeks ago.

The committee received a report today from Dr. W. Kenneth Davis, director of the Atomic Energy Commission's reactor division, on the prospects of developing atomic power plants for merchant vessels.

Davis said the plan proposed for the Eisenhower ship would be almost the same as the one in-

## Inoculation Plan

The administration plan, submitted to Eisenhower by Secretary of Welfare Hobby contemplates inoculations for all children through age 19 by the end of next year. First priority would be given through 5 to 9—the most susceptible age group.

Under the plan, the National Foundation for Infantile Paralysis would continue its present program of free vaccinations for all first and second grade school children.

## Supply Split

After that, Mrs. Hobby would split the supply among the states on the basis of the number of children aged 5 and 9 and each state would supervise distribution within its own boundaries. Additional priority groups would be announced from time to time on the basis of recommendations of the National Advisory Committee on polio vaccine.

Mrs. Hobby said all the licensed vaccine manufacturers, doctors, and most governors have promised to go along with the voluntary method. Furthermore, she said, it would take time to set up a federal organization to control distribution completely and this would "result in prolonged delay in getting the vaccine to the children."

## Program Resumes

The nationwide, mass vaccination program for school children gradually is starting up again. It was suspended temporarily a week ago, for rechecking production processes and standards, after some vaccinated children contracted polio. The Public Health Service has stressed all along that there has been no finding that these polio cases were caused by the vaccine.

The health service said today that 73 confirmed cases have been reported so far among children injected with Salk vaccine and 65 were of the paralytic type.

# Georgetown Coed Achieves First Varsity Letter

WASHINGTON, May 16 (AP)—It took Georgetown University nearly 200 years to get around to it, but the nation's oldest Catholic College is at last handing out a big "G" to a girl.

The girl is Kathleen White, a pretty little blonde who is about as thrilled as any sophomore could be at winning a varsity letter.

Kathleen is a member of the Georgetown sailing team and as such she will be one of 38 students to be awarded major varsity letters at ceremonies on Wednesday.

"The boys were always kidding me about winning a letter," Kathleen said today. "But I never believed them—not until the university announced it officially."

"I guess," she added with a smile, "I'm kind of a pioneer."

# 'Crooner' Ray Plans to Marry

BIRMINGHAM, England, May 16 (AP)—Crooner Johnny Ray said today he plans to marry a 21-year-old blue-eyed, blonde he met in England six weeks ago. She is Sylvia Drew, an English singer with the band accompanying Ray on his current tour of Britain.

Ray told newsmen they are "unofficially engaged" but no wedding date has been set.

"We have been inseparable for the past three weeks and are very much in love," Ray said. "But she has a career ahead of her as a singer, and I'm going to give her a chance to become a star herself before we marry."

# Construction to Start On Atomic Power Plant

PITTSBURGH, May 16 (AP)—Actual construction work on the nation's first full-scale atomic power plant is close at hand.

Duquesne Light Co., which will build the generator portion of the plant, announced today that bids will be received May 24 for construction of a concrete foundation to support vapor containers surrounding the reactor portion of the plant.

# Bao Dai's Guards Abolished by Diem

DALAT, South Viet Nam, May 16 (AP)—Chief of State Bao Dai lost his imperial guard today and his crown lands were transferred formally to control of the free Viet Nam government.

Premier Ngo Dinh Diem traveled to Dalat from Saigon for the ceremonies merging the guardsmen with the national army and giving his administration title to the mountain territories formerly ruled solely by Bao Dai, the ex-Empress of Annam.

It was the first time since the beginning of the political-military crisis in mid-March that Diem had left the capital.

## Crowds Gather

A crowd of thousands gathered before the absentee Bao Dai's summer palace shouted "Down with Bao Dai! Down with the Viet-minh! Long live Ngo Dinh Diem!" as the Premier administered the oath of loyalty to several thousand officers and men of the imperial guard.

The guardsmen had voted last Friday to ask that their status be changed. Yesterday Diem signed an order incorporating them into the army. This act eliminated the last important independent military force in South Viet Nam.

Private armies of the Hoa Hao and Cao Dai religious sects and the Binh Xuyen society have been reduced and scattered since the Binh Xuyen launched its rebellion last month. Many units of the sect armies now are in the national army.

## Lands Relinquished

The crown lands actually were relinquished by Bao Dai to a French administrator some time ago. They were signed over to the Vietnamese government a little more than a month ago, but today brought ceremonial observance of the transfer and ended the last bit of French administration.

The last of the French garrison, at Haiphong, port of Hanoi, sailed for Saigon last night, leaving the Communist Vietminh complete control of the northern half of Viet Nam.

At the same time, the last of the Vietminh troops remaining in the South when the Geneva armistice agreement was signed, about 30,000 men, departed for the north by sea.

This completes the regrouping of the former belligerents specified in the armistice agreement.

# Chou En-lai Renews Offer To Negotiate

TOKYO, Tuesday, May 17 (AP)—Premier Chou En-lai of Red China has renewed his offer to negotiate over the touchy Formosa issue but charged that the United States is taking an "evasive and equivocal stand," Peiping radio said today.

The Communist leader said nations and peoples who are concerned about world peace are urging the negotiations.

President Eisenhower said at a news conference on April 27 that the United States would be glad to meet and talk with the Chinese communists about a Formosa cease-fire.

Chou repeated the proposal—first made at the height of the Asian-African conference last month at Bandung—in a report on the meeting to Red China's National Congress.

He made the report Friday. The broadcast, heard in Tokyo, said: "To ease tension in the Taiwan Formosa area, the Chinese government is willing to sit down and enter into negotiations with the United States government."

Chou said, however, that "at no time" would Red China agree to sit down with the Nationalist government of Chiang Kai-Shek.

The Red China Premier also repeated that any talks with the United States on the Formosa issue would not affect Red China's claim to the area.

"The Chinese people are willing to strive for the liberation of Taiwan by peaceful means as far as possible," Chou said.

# Red Jets Storm Matsus

TAIPEI, Formosa, May 16 (AP)—Red China today sent two of its fast MIG jets down to the Matsus area for the second straight day, following off a dog fight, the air force reported.

For 11 minutes, the two MIGs and two Nationalist propeller planes exchanged fire high over the sea 20 miles north of the Matsus, said a communique. There was no mention of damage on either side.

It was the closest approach the MIGs have yet made to Matsus. It also was the third pass made by MIGs this month in the area of the Matsus, at the north end of Formosa Strait 120 miles northwest of Formosa.

Sunda, four MIGs tangled with four Nationalist Thunderjets 70 miles north of the Matsus. It was the first time Nationalist jets had fought MIGs. MIGs appeared near the Matsus for the first time May 4 when four of them clashed.

A communique said in today's engagement, two MIGs flying at 12,000 feet were met by two Na-

tionalist planes 20 miles north of Matsus.

The MIGs made three passes in which the Nationalists returned the fire, the communique said. Pilots reported one exchange was at point-blank range of only 500 feet. Despite this, the slow Nationalist planes returned unscathed, the communique asserted.

The MIGs in all cases probably came from Lukiao, new and big Red air base 220 miles north of Formosa. The Interior Ministry's Tataro news agency said the Communists now had stored there enough jet fuel for 5000 individual

flights or sorties.

Nationalist quarters speculated that the appearance of the MIGs was designed to create fresh concern abroad about the situation in Formosa Strait. This would also strengthen Russia's hand at the projected top-level Big Four conference.

## Nautilus Takes Cruise

SAN JUAN, P.R., May 16 (AP)—The atomic powered submarine Nautilus arrived today at San Juan, the first stop on a six-week shakedown cruise from her base at Groton, Conn.

## Germany Protests--

(Continued from page one) and Schaefer about the German claims. Raab said finally that no decision had been made to have bilateral talks between Austria and West Germany to settle differences, but he thought such talks might be held in the future.

## German Presentation

The German show, "Jagen, Streiten, Sigen," will be given at 8 p.m., today, in the Little Theatre, Old Main. Students in German will produce the show in conjunction with the German classes of the State College High School. The production is free and open to the public.
