

Nixon Charts Plans In Ike's Absence

WASHINGTON, Sept. 26 (AP)—Vice President Richard Nixon conferred at the White House for nearly three hours with top aides to President Eisenhower today charting plans for keeping the wheels of government turning in the absence of the stricken chief executive.

An announcement issued after the meeting, which also was attended by Acting Atty.

GOP Plans Unchanged Says Hall

NEW YORK, Sept. 26 (AP)—Republican National Chairman Leonard W. Hall said today the party's preparations for the 1956 campaign have not been altered by President Eisenhower's illness.

Plans are proceeding with no change in strategy or organization, Hall said.

He said he was convinced at his last meeting with Eisenhower a few weeks ago that the President would run for re-election. Hall added he was not speculating on that subject now. But he added: "We're all thinking in terms of a quick recovery."

Questioned by reporters after he addressed a Union League Club luncheon, Hall was asked if Eisenhower's condition had changed the outlook in planning for the next election.

"No!" he said emphatically. Asked his opinion of other possible GOP candidates, he declared: "So far as I'm concerned, we are proceeding the same way with no change."

He said, under further questioning on his return to Washington by plane, that he believed the Republican platform and program will be the same regardless of who the candidate is.

He refused to comment on a statement by Dr. Paul Dudley White in Denver that barring complications Eisenhower should be physically able to serve a second term should he desire to seek it.

State Cigarette Price To Go Up One Cent

PHILADELPHIA, Sept. 26 (AP)—Cigarettes go up a penny a pack in Pennsylvania Saturday. If you think the smoker is unhappy, you should hear the complaints of the owners of the thousands of vending machines across the state.

"This tax is burdensome and discriminatory," John F. Gillespie, spokesman for 300 wholesale distributors of tobacco in the state, said today.

The money is to be used to help pay for damage caused by last month's serious floods in north-eastern Pennsylvania.

Deer Permits on Sale

HARRISBURG, Sept. 26 (AP)—Some 240,000 special permits to hunt antlerless deer Dec. 12-13 in Pennsylvania went on sale today in county treasurers' offices throughout the state, dependent on mail delivery of the tags.

Gen. William P. Rogers, said the National Security Council will meet Thursday and the Cabinet Friday—both to take up matters of a normal routine nature.

The luncheon conference began just as word came from a leading heart specialist in Denver that, barring complications, Eisenhower's chances of recovery from Saturday's heart attack are reasonably good.

Nixon, 42, would become President if the office should fall vacant or if Eisenhower should be unable to fulfill his official duties.

A more immediate question—and one that obviously was threshed out in part at today's White House meeting—was how much presidential authority can be delegated to Nixon and others while the chief executive is incapacitated.

Taking part in the conference, which lasted from 12:30 p.m. until 3:15 p.m., in addition to Nixon and Rogers were Sherman Adams, Eisenhower's chief assistant, and presidential aides Wilton B. Persons and Gerald Morgan.

Rogers represented Atty. Gen. Herbert Brownell, Jr., who started home by plane from a vacation in Spain. Just before leaving Madrid, Brownell promised quick action on the problem of delegating authority while the President is incapacitated—perhaps for a few weeks, possibly longer.

"We'll give it urgent attention, you may be sure," Brownell said. Nixon declined to answer reporters' questions after the White House meeting, beyond saying he has no immediate plans to visit the ailing President in Denver.

"I will be here in Washington all week," he said. Thursday's National Security Council session had been decided upon before today's meeting but there had been no previous word on whether the Cabinet would meet this week. Nixon will preside at both meetings.

Eddie, Debbie Are Married In Catskills

GROSSINGER, N.Y., Sept. 26 (AP)—Singer Eddie Fisher and actress Debbie Reynolds were married tonight in this Catskill Mountain resort where Eddie began his career six years ago.

Sullivan County Judge Lawrence Cooke performed the civil ceremony attended by the newlyweds' relatives and a group of friends.

Following the reception at the Hotel Grossinger, the couple left for a one-day honeymoon, "somewhere nearby" in the Catskills. The newlyweds said they expected to be in New York City for the opening game of the World Series Wednesday.

Objections Halt Peron's Voyage

BUENOS AIRES, Sept. 26 (AP)—The snag that has halted Juan D. Peron's voyage into exile is an objection from the new government to his plans to live just across the Argentine-Paraguayan border in Asuncion, a high diplomatic source said tonight.

This source said Provisional President Eduardo Lonardi's regime has demanded that the deposed dictator make his new home in some nation farther away.

Peron is now waiting aboard a Paraguayan gunboat bobbing three miles off Buenos Aires port for the papers that will permit him to sail to Asuncion.

The government promised Peron a safe conduct, but the source said it is now insisting that he be permitted to stay only a limited time in Asuncion and then be obliged to move further away from Argentina.

The nation's new leaders apparently fear Peron's presence on the border would be a continual threat to Argentina's tranquility. Asuncion is just across the Para-

guay River from Argentine territory and it is easy to slip back and forth.

Paraguayan Ambassador Juan Chaves called at the Foreign Ministry today, presumably seeking the safe conduct papers for the 900-mile voyage upriver to Asuncion. There was no indication what he was told.

As these negotiations continued, President Lonardi picked Mari Amadeo to fill the vacant Foreign Ministry spot in his Cabinet. A lawyer and diplomat, Amadeo openly called on the army last month to rise up against Peron.

Lonardi then swore in Amadeo and three other ministers. The Government House ceremony was held following marathon conferences among the new ministers. The majority of the Cabinet members took their oaths Saturday.

Additional foreign recognition bolstered the new regime. The governments of Ireland and Guatemala extended theirs today. Sixteen other nations, including the United States, Britain and France have already taken the step.

State Republicans Turn Tail On Recess Pact for Assembly

HARRISBURG, Sept. 26 (AP)—House Republicans flip-flopped today on an agreement with Democrats for a two-month legislative recess starting next week—and triggered a full-scale political hassle.

Rep. Albert S. Readinger, House Democratic leader, said the GOP was attempting to make "political capital" out of his plan for a recess because of a hotel room shortage compounded by the prolonged tax impasse.

But Miles Horst, Republican state chairman, said it was "unthinkable" that the lawmakers should go home without providing the money for state aid to schools and hospitals.

The upshot of thousands of words or debate in both the House and Senate during the day is that no one really knows what will happen when the motions are

War Criminal Released From German Prison

BERLIN, Sept. 26 (AP)—Erich Raeder, the grand admiral who helped Hitler build his navy into a terror of the Atlantic, was released from Spandau Prison today.

Greying and stoop-shouldered, Raeder was serving a life term. He was released under a four-power agreement because of his "advanced age and the state of his health." He is 79.

made Wednesday to adjourn to some other date.

Readinger announced last week that more than 300 bills already have been passed by the House with no sign that the Republican-controlled Senate was doing anything about acting on the bulk of them.

A House recess until Dec. 5, he said, would give the Senate an opportunity to catch up with the Senate pace. He said, if necessary, the House would meet in token sessions in that period.

Although neither house can recess for more than three days without permission of the other chamber, it was Readinger's plan to have a token handful of members in town to keep the House technically in session.

Molotov Urges UN Disarmament Action

UNITED NATIONS, N.Y., Sept. 26 (AP)—Soviet Foreign Minister V. M. Molotov has informed Western delegates and others that the 10th UN Assembly must take positive decisions on disarmament. He wants as much of Moscow's peace plan approved as he can get through the Assembly.

This was disclosed by diplomatic informants today as UN delegates privately expressed concern for disarmament in view of the illness of President Eisenhower. Paul Martin

of Canada, opened his policy speech with an expression of hope for the speedy recovery of the President.

Some of the delegates said the President's plan for an exchange of aerial inspection between the United States and Russia was bold and far-reaching but they did not know how far it would get without his personal prodding.

Molotov has been holding a series of talks and dinners with delegates. His central theme is the necessity for some action by this Assembly on disarmament. Moscow's plan of May 10 is aimed at the eventual prohibition of nuclear weapons.

Molotov and Secretary of State Dulles may discuss the disarmament situation tomorrow night when the Russian attends a dinner Dulles is giving for the foreign ministers of the Big Four powers. Molotov and Dulles got off to a bad start when Dulles accused Molotov of misquoting him on disarmament but Molotov tried to fix that with a quick talk last Friday.

The United States is pressing for an Assembly endorsement of President Eisenhower's proposal.

Disarmament played a central role in discussions by a number of medium and small countries during the day's debate.

Big 3 Meet To Prepare For Geneva

NEW YORK, Sept. 26 (AP)—Western Big Three foreign ministers tomorrow begin strategy talks to prepare for the Big Four foreign ministers meeting in Geneva Oct. 27.

Their tentative schedule calls for them to be joined by Soviet Foreign Minister V. M. Molotov at dinners tomorrow night and Thursday.

Big Three sessions will be held tomorrow attended by Secretary of State John Foster Dulles, British Foreign Secretary Harold Macmillan and French Foreign Minister Antoine Pinay.

Thursday they will be joined by West Germany's Foreign Minister Heinrich von Brentano. These talks will deal with West German Chancellor Adenauer's recent mission to Moscow, his talks on German reunification and the role Germany will play in the Atlantic Alliance in the face of new disarmament demands by the Soviet Union.

The Western meetings will have before them general agreements worked out by lower-level diplomats in Washington.
