

Art

Exhibition To Include Symposium

Leading authorities in the field of American art will participate in the symposium on "The Arts in Pennsylvania" to be held next Saturday morning and afternoon in connection with the opening of the Centennial exhibition of "Pennsylvania Painters" at the University.

Four personalities of the art world will discuss various phases of Pennsylvania art at the two sessions, which will be held in 119 Osmond. They are Edgar P. Richardson, director of the Detroit Institute of Arts; Dorothy Grafly of Philadelphia, art writer and critic; Lloyd Goodrich, associate director of the Whitney Museum of American Art; and Benton Spruance, Philadelphia painter and lithographer.

Richardson is editor of "The Art Quarterly" in addition to his duties as director of the Detroit Institute of Art. He has published many works in the art field. His books include "The Way of Western Art," "American Romantic Painting," and "Washington Allston."

Daughter of the noted American sculptor, Charles Grafly, Miss Grafly was born in Paris and was graduated from Wellesley College. She is editor of "Art in Focus" magazine, and has worked as a free-lance writer and lecturer on art subjects.

Goodrich has long been active in American art circles. He is a trustee of the American Federation of Art and a director of the American Art Research Council. His books include biographical and critical studies of Thomas Eakins, Winslow Homer, John Sloan, and other late 19th and 20th century American painters. Spruance, a well-known lithographer, is a professor of fine arts at Beaver College, Jenkin-

CLASSIFIEDS

Catholic Biblical Association of England, an associate member of the Society for Old Testament study (England), and the American Schools of Oriental Research. He translated the Book of Deuteronomy for the Confraternity Edition of the Old Testament.

He has taken part in various radio and television programs, including the Catholic Hour, the Christian in Action, the Church of the Air, and Lamp Unto My Feet.

He was named a Monsignor last October.

town, and a member of the Philadelphia Art Commission. In connection with the Centennial exhibition, he will have a showing of 33 prints at the Hetzel Union Building for three weeks, beginning Oct. 8.

The symposium is open to the public.

Chapel...

DeWire to Speak

Dr. Harry DeWire, professor of psychology and education at United Theological Seminary, Dayton, Ohio, will speak at chapel services at 10:55 a.m. tomorrow in Schwab Auditorium.

His topic will be: "If the Foundations Are Destroyed."

A native of Pennsylvania, Dr. DeWire graduated from the public school of Milton. He received his B.A. degree from John Hopkins University, his B.D. degree from the Evangelical School of Theology, and his Ph.D. from Boston University.

He has served pastorates in Pennsylvania, Maryland, and Massachusetts.

Teaches at Seminary

Since 1948 Dr. DeWire has been professor of psychology and edu-

cation at United Theological Seminary, and since 1954, the chairman of the department of practical theology.

He has written for professional journals and for the educational curriculum of the Evangelical United Brethren Church. He is a member of the Board of Christian Education and of the Board of Directors in his church, and editor and publisher of the professional papers of the Association of Seminary Professors in the Practical Fields.

Music Included

Included in the chapel service program will be "Kyrie Eleison" (Durante), sung by the Choir; the prelude, Prelude in F minor, and the postlude, Fugue in F minor (both by Handel) played by George E. Ceiga, organist.

Comedy--

(Continued from page five)
Animal." He studied drama under the late Dr. Arthur C. Cloettingh, former head of the drama department at the University, and later served with the drama department of the Army Special Service during World War II.

The performance is a benefit with all proceeds going to the State College Area Joint Community Fund. Twelve agencies in the State College area will receive aid from the Community Fund, which has \$26,000 as its goal.

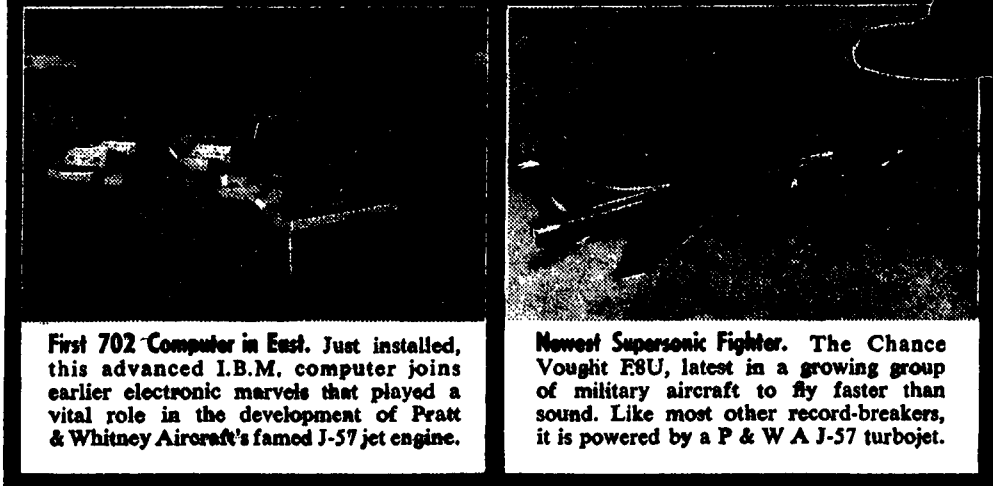

Tickets for tonight's performance will be available at the high school auditorium.

Model Railroad Club

The Penn State Scale Model Railroad Club will meet at 7 p.m. Monday in 19 Hetzel Union.

What's doing

at Pratt & Whitney Aircraft

Here's something unique in education.

Near the Pratt & Whitney Aircraft plant in East Hartford, Conn., a full-fledged graduate center was established this fall by Rensselaer Polytechnic Institute. Located 115 miles from R.P.I.'s home campus in upper New York State, the new graduate facilities will enable working engineers from Pratt & Whitney Aircraft and other companies in the Hartford area to continue their studies. Without interrupting normal employment, it will be possible for students to obtain advanced degrees in specialized fields from the nation's oldest engineering college.

Designed to raise the level of knowledge and to broaden the base from which advanced research can be approached, this entire program will simultaneously lead enrolled engineers to greater achievement in their careers.

First 702 Computer in East. Just installed, this advanced I.B.M. computer joins earlier electronic marvels that played a vital role in the development of Pratt & Whitney Aircraft's famed J-57 jet engine.

Newest Supersonic Fighter. The Chance Vought F8U, latest in a growing group of military aircraft to fly faster than sound. Like most other record-breakers, it is powered by a P & W A J-57 turbojet.

Last Wasp Major, most powerful piston engine ever developed, is shipped by P&WA. This marks the end of an era as turbojets take over as the source of power for heavy bombers, transports and tankers.

PRATT & WHITNEY AIRCRAFT
