

Russia Expected to Sell 'Cut Rate' Arms to Egypt

WASHINGTON, Oct. 13 (AP)—Russia is expected to move quickly in getting arms to Egypt, possibly at cut-rate prices, and thereby hastening Middle East tensions toward a crisis.

An explosion of the Palestine truce into Arab-Israeli war was seen as a definite possibility whenever Red Czechoslovakia starts delivery on its cannon-for-cotton deal with Egypt.

Ike to Meet With Staff On Monday

DENVER, Oct. 13 (AP)—President Eisenhower recovered sufficiently for the Denver White House to announce he will confer here Monday with Secretary of Defense Wilson and Adm. Arthur W. Radford, chairman of the Joint Chiefs of Staff.

The decision to see Wilson and Radford, for a talk on defense and security, was announced by White House news secretary James Hagerty after a long distance telephone talk with Sherman Adams, the President's chief deputy, who was in Washington for tomorrow's Cabinet meeting.

Wilson's visit will follow a conference the President will have Saturday with Secretary of the Treasury Humphrey.

All in all, it appeared to be one of the best days the President has had in the nearly three weeks he has been climbing back toward what his doctors say can be complete recovery from a heart attack.

Benson Concerned Over Farm Prices

WASHINGTON, Oct. 13 (AP)—Secretary of Agriculture Ezra T. Benson said today he is "concerned" about sagging farm prices but that he doesn't find "anything in the picture to cause panic."

Benson denied reports that President Eisenhower's Cabinet is split over the switch from price supports at 90 per cent of parity to a more flexible system. The change is expected to be a big issue in the battle for farm votes next year.

American officials made no bones today about their fear of the results of the Soviet's military and economic trade incursions into the area. Nor did they play down apprehension over what Israel might do as a counter to Arab purchases of Red arms.

The National Security Council, top policy-making body in the U.S. government, took up the question at its secret session today.

Vice President Nixon presided in the absence of President Eisenhower.

The United States, Britain and France, it was learned, will press Russia informally at the Oct. 27 foreign ministers meeting in Geneva on the Middle East arms question. This would follow up an approach to Soviet Foreign Minister Molotov at New York two weeks ago.

Molotov is understood to have told his Western colleagues then he knew nothing about Egypt's deal to swap cotton for Czech artillery, tanks, naval vessels and jet planes. He promised to look into it.

Despite Molotov's professions of ignorance, however, U.S. officials look for swift Soviet action to get the war goods into Egyptian hands. There was speculation, too, that Russia might abandon its old rule of charging premium prices for war goods, letting Egypt and other Arab states—indeed, Israel, too, if interested—have the arms at a nominal price.

Court Refuses Appeal Of Puerto Ricans

WASHINGTON, Oct. 13 (AP)—Four Puerto Rican fanatics who received long prison terms for a wild pistol attack on the House of Representatives, had a fair trial, the U.S. Court of Appeals ruled today.

"Their guilt was clear, and their convictions must stand," the court said in unanimously rejecting the terrorists' appeal.

Judge May Face Impeachment On Jury Snooping

WASHINGTON, Oct. 13 (AP)—Two investigating senators tonight made what looked like a move toward possible impeachment proceedings against U. S. District Judge Delmas Hill of Wichita, Kans., for permitting secret tape recordings to be made of jury deliberations.

Sens. James O. Eastland (D-Miss.), chairman of the Senate Internal Security subcommittee, and Sens. William E. Jenner (R-Ind.) referred the case to the House Judiciary Committee for possible further action. It is that committee which looks into complaints against federal judges to determine whether impeachment proceedings are warranted.

The Senate subcommittee had heard testimony that Judge Hill let a University of Chicago research team listen in with a planted microphone to what went on in a jury room in his court. It was part of a broad study of the workings of the jury system.

Eastland and Jenner, in referring the case to the House group, explained only that their own committee, being part of the Senate, "could not properly inquire into the official conduct of any federal judge."

Any impeachment proceedings must originate in the House. Impeachment is the calling to account of a public official for alleged misconduct in office. The House votes on whether to impeach the accused, and the Senate sits in trial if an impeachment is voted. It could remove the official if it deemed him guilty.

Soviets Irked by Moves Against Poland in UN

UNITED NATIONS, N.Y., Oct. 13 (AP)—The Soviet Union declared today attempts by the United States to keep Communist Poland from winning a seat on the UN Security Council are damaging the spirit of Geneva and putting a stumbling block in the path of international cooperation.

But Vladimir V. Kuznetsov, the chief Soviet delegate to the UN, at a news conference where he outlined his country's position, dismissed as "not pertinent" a question as to whether the Soviet Union would continue to cooperate with the Council and other agencies in event of a Polish defeat.

The 60-nation General Assembly will elect three nonpermanent members to the 11-nation Council tomorrow. The only contest is between Poland and the Philippines, and both sides are claiming enough support to win on the first ballot.

A two-thirds majority is required and balloting continues until a nation receives that margin of victory.

Cuba and Australia are regarded as virtually certain to win the other two seats on the Council—the high-level body charged by the UN with the task of maintaining international peace and security.

The United States is leading the campaign to elect the Philippines to the seat being vacated by Turkey. Cuba is the candidate for the seat being vacated by Brazil and Australia for New Zealand's.

Nonpermanent members of the Council are elected for two-year terms. Those with terms still to serve are Belgium, Iran and Peru. The permanent members are the United States, the Soviet Union, Nationalist China, Britain and France.

Probers Demand Power Data

WASHINGTON, Oct. 13 (AP)—Democrats on a House investigating group demanded today that the White House divulge details of several executive conferences on public power policy in Georgia, a lively political issue.

Rep. Earl R. Chudoff (D-Pa.) said the group he heads has evidence that the Interior Department "has made every attempt to evade" a Justice Department ruling that Georgia's rural electric cooperatives have first call on federal power produced at the Clark Hill Dam on the Savannah River.

Chudoff dispatched a telegram to Sherman Adams, President Eisenhower's chief aide, calling for information on the number of power policy meetings held at the White House, when they were held and who was there.

Rep. William Dawson (D-Ill.) chairman of the full Government Operations Committee, backed Chudoff and said the hearings already had shown "that there's a studied purpose to keep these cops from getting the power they are entitled to."
