Ray Farabee, vice president of the student government branch of the National Student Association, will discuss NSA at a special meeting of All-University Cabinet at 7:30 p.m. tomorrow in the assembly room of the Hetzel Union Building. The meeting is open to the public.

Journ Forum To Hear Boyle Speak Monday

Hal Boyle, nationally-known Associated Press columnist, will address the Journalism Forum at 11 a.m. Monday in 121 Sparks. The lecture will be open to the public.

Boyle, in 1945, was awarded the Pulitzer prize for excellence in war coverage. A native of Kansas City, Mo., Boyle began his newspaper career as Associated Press correspondent in Columbia, Mo., while an undergraduate in journalism in the University of Missouri. He received his bachelor of arts degree from that university.

After graduation Boyle became an AP office boy, then a reporter and rewrite man and finally moved to the New York office, where he was made night city editor on the New York bureau desk.

At the outbreak of World War II he immediately volunteered for overseas duty and covered the invasion of North Africa and the European war until V-E day. He was then sent to the Pacific where he stayed until after V-J day. Boyle went back into war coverage during the Korean war.

Besides the Pulitzer prize Boyle has also been awarded the First Omar Bradley Award and an Overseas Press Club Award. He is a member of the Overseas Press Club and of Sigma Delta Chi, men's professional journalism fraternity.

motion to delete the paragraph, allowing the complete section to remain in the report.

A section on improving relationships between freshmen and the faculty and administration was referred to the Orientation Week Committee. Also referred by Cabinet was a suggestion that official Cabinet observers sit in on Senate subcommittee meetings—to the senate subcommittee on student relations—and a suggestion students and faculty develop better relationships, which was referred to the Inter-Collegiate Council Board.

Reading and acceptance of the second Encampment report on student organizations and their functions went rapidly. Included in the report were suggestions that a committee composed of the Hat Society Council investigate the method of selection into hat societies; that the present system of counseling freshman men be maintained; and that Cabinet consider having organizations use Associated Student Activities as an agency to handle their financial matters.

Cabinet Table: Motion

Cabinet members voted Thursday night to postpone debate until next Thursday on whether the University should resume membership into NSA. The motion was made by Douglas Moorhead, president of the student Athletic Association, after heated debate.

The majority of students involved in the debate indicated they would approve of the University resuming its membership.

Moorhead and John Seastone, president of the College of Home Economics Student Council, recommended that Cabinet members become better acquainted with NSA and its functions so they may intelligently discuss the question.

Several Spoke Favorably

Speaking favorably of resumption of membership in the debate were Bruce Lieske, president of the Association of Independent Men; Robert Bahrenburg, junior class president; Carolyn Cunningham, president of Women's Student Government Association; Patricia Farrell, Women's Recreation Association president; Samuel Wolcott, sophomore class president; and Philip Beard, All-University secretary-treasurer.

Lieske, Wolcott, and Beard were delegates to the national NSA convention last August.

Opposition was voiced by Robert Bullock, president of Interfraternity Council, and Norman Miller, acting chairman of the Board of Publications.

Parties OK'd At Pi Lambda

Pi Lambda fraternity has been given permission to hold social affairs by the dean of men's office, O. Edward Pollock, assistant dean of men, said yesterday.

Pi Lambda was reactivated last year and is now serving the required year probationary period. During this period the fraternity is prohibited from holding social affairs.

However, Pollock said, the dean of men's office decided to liberalize the law in order to give fraternities serving probationary periods a better chance of surviving.

Under the new law, Pi Lambda must end social functions at midnight, Pollock said.
