

# Tribunal Recommends Probation for Junior

Tribunal recommended Tuesday that a junior in business administration charged with conduct unbecoming a University student be placed on disciplinary probation until his eighth semester.

The student was apprehended by borough police following an incident in which he reportedly resisted arrest and was uncooperative. Police said the student had been drinking.

# Six Freshmen Given Parking Permissions

The dean of men's office has granted special parking permits to six freshmen at the recommendation of the Association of Independent Men's freshman car interviewing committee.

David Cummings, chairman of the committee, said that thus far the committee has screened approximately 20 applications for permits. Twelve of these, he said, were screened by the committee and sent to the dean's office for approval, six with the committee's recommendation.

Dean of Men Frank J. Simes said that in five of the six cases his office followed the recommendation of the committee. All six students granted permits were veterans, he said.

Simes added that applications are still being accepted at the Hetzel Union desk. He said that it is likely that the committee would be a year-round one and would function at any time needed since emergencies can arise at any time which may necessitate a freshman having a car on campus.

Simes also said that when the emergency at home is concluded the permits will be revoked.

# Griffiths Named To MI Position

Dr. John C. Griffiths, professor of petrography, has been named head of the department of mineralogy at the University, succeeding Dr. Paul D. Krynine.

Dr. Krynine has been head of the department for 10 years.

A member of the University faculty for seven years, Dr. Griffiths received his bachelor of science, master of science, and doctor of philosophy degrees at University College, Swansea, Wales.

Dr. Krynine, on the faculty since 1937, is a graduate of the University of Moscow and the University of California. He received his doctorate from Yale University.

# Jewelers to Address Home Economics Club

Samuel Crabtree, Jr. and Allen Crabtree, local jewelers, will speak at a meeting of the Home Economics Club at 7:30 p.m. tomorrow in Simmons Lounge.

The brothers will speak on glassware and china.

The recent trip to the province workshop at Drexel Institute of Technology will be discussed, and plans will begin to have the workshop at the University next year.

Members are asked to bring their dues to the meeting.

When apprehended, the student would not give his name or address. He reportedly knocked off one patrolman's hat, kicked, screamed, and used abusive language. He was finally subdued by two officers and handcuffed.

He was then taken to the borough jail, where he continued to cause a disturbance. The student admitted to being seated in a car which did not belong to him prior to his arrest, playing the radio, and turning on the lights.

Had Been Drinking  
The student claimed he had been at a house-warming party at the home of a friend, where alcoholic refreshments were being served. He said he could not remember anything concerning the circumstances of his actions in the car or at Borough Hall.

After pleading guilty the student was fined \$25 plus \$11.50 costs and warned that any further occurrence of such action would result in a maximum fine of \$100.

Disciplinary Probation  
Disciplinary probation entails that the offense be placed on the student's permanent record, and that he be restricted from participating in all extra-curricular activities.

The student may appeal the sentence. The case would then be heard by the Senate committee on discipline. Tribunal stipulated that he may also petition to have the incident removed from his record during his eighth semester. The case has now been referred to the committee on discipline.

Holloman to Speak At Grad Lecture  
Dr. John H. Holloman, manager of metallurgy for General Electric Research Laboratories, will speak on "Future Material Research and Development" at 7:30 p.m. tomorrow in the Mineral Sciences Auditorium.

The talk will be the sixth and last of the Graduate School Centennial Lecture Series.

Dr. Holloman received his B.S. and Ph.D. degrees from the Massachusetts Institute of Technology. He was an instructor in the Harvard University Graduate School of Engineering from 1941-42. He served in the U.S. Army from 1942 to 1946, and was discharged with the rank of major.

Young Demos to Hold Discussion Hour Tonight  
The Young Democrats Club will sponsor a "Discussion Hour" tonight in 209 Hetzel Union.

Members will be given an opportunity to discuss any topic from Sunday movies to international affairs.

All students may attend.

Philosophy Club Meeting  
The Philosophy Club will meet at 7:30 tonight in 218 Hetzel Union.

Henry W. Johnstone Jr., assistant professor of philosophy, will speak.

# Senate to Air Winter Course In Agriculture

The University Senate today will hear a recommendation that "winter course programs in agriculture" be added to the College of Agriculture.

The primary objective of the program would be to provide practical type instruction in agriculture and related fields for those who do not choose to enroll for a two- or four-year course.

The Senate also will hear a request for a change of admission requirements for the two-year curriculums in electrical technology and drafting, and design technology.

Under the new system, two units of high school mathematics would be required in the 15 Carnegie units necessary for graduation from an accredited secondary school.

In other business, the committee on academic standards will recommend a change in its membership. Presently, the committee is made up of one person from each of the undergraduate colleges.

# Officers Chosen By Sigma Tau

George Dougherty, senior in chemical engineering from Bellmore, N.Y., has been elected president of Sigma Tau, national engineering honorary society.

Other officers are Albert Smith, senior in engineering science from Philadelphia, vice president; Gerald Calkins, senior in electrical engineering from Mansfield, treasurer; William Shelly, senior in engineering science from Avondale, corresponding secretary; John Misoda, senior in mechanical engineering from Nesquehoning, historian; and David Myers, senior in electrical engineering from State College, student council representative.

# Cloudy Weather, Showers Expected

Today will be cloudy with a light rain changing to showers by afternoon, according to the department of meteorology.

The showers will continue throughout the afternoon and evening, with falling temperatures tomorrow morning.

The temperature yesterday reached a high of 60 degrees, with a low of 40. Today's high will be approximately 50 degrees, with a low of 40 tonight.

# Student Wage Issue Referred to Cabinet

The matter of paying cash to student employees of the Food Service in the Hetzel Union building was referred to the All-University Cabinet Foods Committee for investigation last night by the Association of Independent Men's Board of Governors.

Presently all Food Service employees are paid by means of meal tickets.

Phillip Levine, who originally presented the matter to AIM, initially suggested sending the matter to the AIM Foods Committee but further discussion revealed that since both fraternity and independent men worked for the Food Service, it would fall under the jurisdiction of Cabinet.

Levine said that in a conference with Food Service officials, he learned that when the HUB was opened the students who worked for the catering service were paid cash and the others were paid meal tickets. Late last spring, he said, the other employees were given the choice of whether or not they wanted to be paid cash or meal tickets. At that time about half voted to accept cash payment. This year, however, the entire group of employees were changed to the meal ticket system.

Levine said he brought the matter before the board of governors because he wished to point out the fact that Food Service is paying its student employees in meal tickets, and is restricting the students as to where they eat their meals.

Under the system now in effect, the student meal tickets are honored only in the Terrace Room of the HUB. One exception to this (Continued on page three)

# TIM to Select Representative To AIM Board

Town Independent Men will select a seventh Association of Independent Men Board of Governors representative-at-large at next week's meeting.

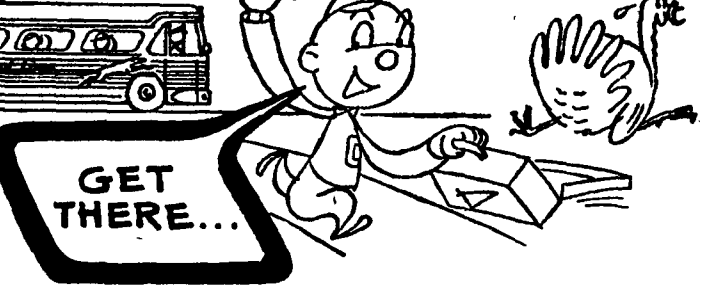

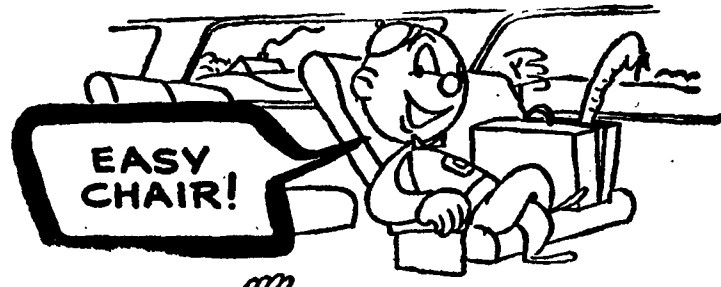

TIM president Robert Cole announced yesterday that town independent men now number 3455. The figure represents an increase of approximately 500, he said.

TIM currently has six representatives on the board. One representative is appointed for each 500 men and another for a fraction over that total.

Cole said that William Norman, senior in psychology from Shickshinny, will act as the seventh representative at the next AIM meeting.

TIM's office in 120 Waring Hall is now open from 9 a.m. to noon and from 1 to 4 p.m. Monday through Friday, and from 9 a.m. to noon on Saturday, Cole said.

A suggestion box has been placed in the office for any student comments.
