

Stevenson Reveals Plans To Run for Presidency

CHICAGO, Nov. 15 (AP)—Confident and beaming, Adlai E. Stevenson announced today what almost everybody already knew—that he will be a candidate for the 1956 Democratic presidential nomination.

Stevenson, the 1952 nominee who was defeated by President Eisenhower, struck a "prosperity and peace" theme in a 349-word announcement his aides handed reporters.

He said he will do all he can to persuade his party to let him lead it in a race where he may be opposed by a new Republican nominee instead of the President because:

"First, I believe it is important for the Democratic party to resume the executive direction of our national affairs.

Welcomed by Many
"Second, I am assured that my candidacy would be welcomed by representative people in and out of my party throughout the country.

"Third, I believe any citizen should make whatever contribution he can to the search for a safer, saner world."

On this point Stevenson made a bold bid to wrest from the Republicans the "peace-prosperity-progress" slogan they have built up for the 1956 campaign. Said he: "The task for the Democratic party is to make 'prosperity and peace' not a political slogan but an active search for a better America and a better world."

First to Run
As the first candidate officially in the race in either party, Stevenson said his aides exuded confidence that he not only can win the nomination but will be able to dispose of Republican opposition in next year's election.

Friends said Stevenson's decision to run actually was made months ago before President Eisenhower was stricken with a heart attack.

Single Vaccine Shots May Prevent Epidemics

KANSAS CITY, Nov. 15 (AP)—Single shots of Salk polio vaccine for many millions of children might "prevent epidemics next year"—because the vaccine works so well, a government scientist said today.

Twice as many children could get protection if each received one rather than two shots from available supplies of vaccine, he said. The latest official government report said single shots had reduced paralytic polio by 50 to 80 per cent or better this year.

Tax Proposals Blasted

HARRISBURG, Nov. 15 (AP)—Sen. Mahany, leader of the Republican controlled Senate, today described the new tax proposals reportedly backed by the government as a "hydra-headed monster."

UN Council To Consider 18 Applicants

UNITED NATIONS, N.Y., Nov. 15 (AP)—The United States today called for an early meeting of the UN Security Council to consider applications for UN membership from 18 countries, including controversial Outer Mongolia.

This sudden move came as nearly two-thirds of the 60 UN members lined up behind a Canadian resolution urging admission of all 18 applicants. Diplomats said 35 members were committed and they expected more than the two-thirds to pass the Assembly.

Henry Cabot Lodge Jr., chief U.S. delegate, maintained a public hands-off policy on Outer Mongolia as he requested the council to meet. A U.S. spokesman said the United States will abstain in the council vote on the five Soviet satellites, including Outer Mongolia, and will not vote them. He said Lodge believes Outer Mongolia cannot muster the seven votes needed to pass the council and the 40 needed to go over the Assembly hurdle.

Laborers Boycott Peron Followers In Union Strike

BUENOS AIRES, Nov. 15 (AP)—Provisional President Pedro Aramburu's "get tough" policy with Argentine labor shook the foundations of the once all-powerful General Confederation of Labor (CGT) today and stopped a threatened nationwide strike dead in its tracks.

The CGT's Peronista bosses rallied thousands of workers for walkouts in major meat-packing, glassworks, rubber, tire and shoe manufacturing industries but tens of thousands of anti-Peronista laborers boycotted the strike.

An atmosphere of business as usual prevailed in downtown Buenos Aires and other major cities. Public transportation rolled uninterrupted, public utilities functioned normally, newspapers continued to publish and shops and restaurants remained open.

Radio Free Europe

ISTANBUL, Turkey, Nov. 15 (AP)—Radio Free Europe, after more than two years of negotiations, has dropped plans to build a powerful station in Turkey.

President Plans To Resume Conferences

GETTYSBURG, Pa., Nov. 15 (AP)—President Dwight D. Eisenhower plans to hold early next week his first meetings with the National Security Council and Cabinet in more than three months.

The chief executive also will confer Thursday and Friday with Secretary of State John F. Dulles, who is flying back from the Geneva foreign ministers conference.

The setting up of the series of meetings were part of the official business Eisenhower got in today as he combined a little work with some leisurely physical exercises.

In the role of country squire, Eisenhower walked around his farm this morning for about an hour and a half. And in the afternoon he got in a few putts on a newly installed green near his country home.

Big Three Report To Blame Russia

GENEVA, Nov. 15 (AP)—The Western Big Three are completing a declaration that will blame Russia for the failure of this Geneva parley to bring a German settlement nearer, diplomatic sources reported today.

They said the American-British-French declaration will be addressed primarily to the German people.

The Western intention is to issue it at the close of the conference of Big Four foreign ministers due tomorrow night.

Nonscheduled Airlines

WASHINGTON, Nov. 15 (AP)—The Civil Aeronautics Board today authorized nonscheduled airlines to operate up to 10 flights monthly or regular schedules.

By a 3-2 decision, the board overrode the objections airlines and some railroads in handing down an interim decision in the hotly disputed, four-year-old case. The action affects 49 irregular, "non-sked" air carriers. The order takes effect Jan. 1, but is subject to review and later modification.

Colorado Will Ask Death For Graham

DENVER, Nov. 15 (AP)—The State of Colorado today took over prosecution of John Gilbert Graham and Denver Dist. Bert M. Keating said he would ask death in the gas chamber

for the man charged with sabotage of a United Air Lines plane which killed 44 persons.

The federal government asked the state to handle the case after it was found there was no federal statute of murder applicable.

Graham, 23, baby-faced playboy and forger, was arrested by the FBI Monday on a charge of placing a dynamite bomb aboard the plane in the luggage of his mother, Mrs. Daisie King, who died in the crash near here Nov. 1.

Took Out Insurance
Graham, father of two young children, took out a \$37,500 insurance policy on his mother just before she boarded the plane for a visit with her daughter in Anchorage, Alaska. He also was an heir to his mother's estate valued at around \$150,000.

Keating said Graham would be tried first on a charge of murdering his mother but he would hold over Graham's head, for use if necessary, 43 other potential murder charges in one of the worst cases of mass killing on record.

Other Plane Crash
At the same time, a federal hearing into another United Air Lines crash took a bizarre turn when a witness testified the crew of the plane which smashed into Medicine Bow Peak Oct. 6 may have been mysteriously incapacitated.

U.S. Bars Archbishop On 'Rights' Grounds

WASHINGTON, Nov. 15 (AP)—The United States has canceled a visa granted 11 days ago to Russian Archbishop Boris. He is being barred on the grounds he wants more rights than those permitted an American priest in Moscow.

The unexpected State Department action, disclosed at a news conference today, makes it likely Russia will retaliate by revoking a visa granted Father Louis Dion who was set to leave for Russia about Dec. 1.

Scholarships to Be Available

PITTSBURGH, Nov. 15 (AP)—Jones & Laughlin Steel Corp., the nation's fourth largest steel producer will provide six college scholarships and fellowships.
