STATE COLLEGE, PA., TUESDAY MORNING, NOVEMBER 29, 1955

FIVE CENTS

Freshman Killed in Accident

Christie Indicted In Accident Case

A grand jury sitting in Bellefonte yesterday morning returned a true bill in the case of Alexander Christie, freshman in civil engineering from Philadelphia.

Christie is facing charges of involuntary manslaughter as a result of the automobile death of William McGarvey, freshman in chemistry from Philadelphia.

Teams Earn Honors at Stock Show

Two University judging teams took high honors in the intercollegiate meet of the Eastern National Livestock Show last week at Timonium, Md.

The meat judging team placed second in the meet, losing to the University of Wisconsin by twelve points.

Larry Hilgendorf, senior in animal husbandry from Reading, received individual honors as the high scorer for the entire contest. In addition, Hilgendorf placed first in pork judging and second in lamb grading.

The team took first place in pork judging and third in the lamb judging contest. William Stappenbeck, junior in animal husbandry from Rochester, N.Y., tied for sixth high individual scorer in the meet.

The livestock judging team placed fourth among the 11 colleges and universities competing in the meet.

The team took second place in the beef judging contest. Donald Hutzel, junior in animal husbandry from Cincinnati, Ohio, was fifth highest individual scorer in the meet. Ned Sitler, senior in animal husbandry from East Prospect, tied for sixth place in the individual judging.

Other members of the team include William Watkins, junior in animal husbandry from Bellefonte, Ohio; John Sink, senior in animal husbandry from Homer City; and David Morrow, senior in dairy science from Tyrone.

Smoking Policy Is Inaugurated For Library

Smoking will be permitted in the reserved book room of the Pattee Library, Ralph W. McComb, University librarian, announced.

The new policy will continue for a trial period and its continuance will depend on student acceptance of the plan. Ashtrays will be provided for the study tables.

If the floor gets littered with cigarette butts and burns are found on the tables, the policy will be discontinued, according to McComb.

McComb said that there has been the problem at the library of students congregating in the lobby and the halls to smoke, disturbing the students who are studying.

The new plan is intended to eliminate extra noise and congestion. However, because smoking will now be permitted in the reading room, it is expected that students will not make this a "social center," according to McComb. If the location does not prove suitable, it will be changed.

Signs will be put up in various parts of the library announcing the permission of smoking in the reading room.

New Road Is Planned By Borough

State College borough council is planning a new parkway to run from the east end of campus to Easterly Parkway and over to Route 322.

The road will be designed to collect campus-bound traffic from the fast-growing residential areas and divert it from downtown, where crowded conditions at noon and evening hours have created a traffic problem.

After the road is completed, students traveling south and returning during holidays will be able to bypass the business sections.

The borough council has just received a proposal for the parkway from the planning commission, which recommended a \$3500 appropriation to study the proposal.

The council will have to include the appropriation recommendation in its next budget early next year.

The money will be used for topographic surveys, preparation of new deeds, replotting of land, and engineering and legal work.

After such preparations are made, the borough will advertise for bids for the general contract, the contract will be let, and actual construction will then start.

Present plans are not advanced far enough to include an estimate of the starting and completion dates for construction of the parkway.

Temperature Drops to 13

The mercury dipped to 13 degrees above zero yesterday, marking the coldest day of the season thus far.

Today is expected to be even colder, according to students in the department of meteorology. The weather will be moderately cloudy, with occasional light snow flurries. The maximum temperature will reach approximately 20 degrees; the low will be 10 above zero.

Tomorrow's weather will remain the same, with possible relief from the cold blast forecast.

The warmest temperature of the holiday weekend was 43 degrees, recorded at the University weather station Sunday afternoon.

Hall Predicts Ike Will Run If Able

GETTYSBURG, Pa., Nov. 28 (AP)—Republican National Chairman Leonard W. Hall came out of a 45-minute political huddle with President Eisenhower today with the prediction Eisenhower will run "if he feels he is able."

Hall gave that to newsmen as his personal opinion.

He said he and Eisenhower didn't discuss the President's second term plans as a specific question, but Hall reported he felt "very much encouraged" and would continue making campaign plans on the prospect that Eisenhower will run again for President in 1956.

He said he felt more optimistic about the chances of Eisenhower running than he did when they last met, in Denver two weeks before Eisenhower's Sept. 24 heart attack.

"Insofar as I am concerned," the GOP leader said, "there is no other candidate."

Hall said it was his personal opinion that Eisenhower's decision will be based on the findings of his physicians when he undergoes what Hall called a "final examination" at the end of January.

Hall reported the President told him he was "feeling good."

Their conference, to which Hall drove from Washington, took place in Eisenhower's offices in the Post Office building.

He said they discussed foreign affairs and the farm issue.

The President indicated "awareness" of the farm issue as well as "concern," he said.

In essence, the farm issue has arisen because farm prices and farm income have been dropping while other elements of the population are enjoying gains. The Democrats are doing their best to make political hay from the situation.

Hall took a swing at Democratic Gov. Averell Harriman of New York, saying it seemed to be

Lindes Dies in Crash Near Quakertown Friday

Winston Lindes, freshman in mechanical engineering from Quakertown, was killed last Friday morning on the Quakertown-Doylestown highway, Route 313.

He is the second fatal automobile accident victim during the fall semester.

Lindes, 18, was killed just south of the Quakertown

Winston Lindes Jr.
Crash Victim

borough line when the car he was driving crashed head-on with a northbound vehicle.

On Oct. 22, William McGarvey, 24, freshman in chemistry from Philadelphia, died when the car in which he was a passenger ran off a highway leading to University Park and crashed.

Home For Holiday

Lindes, who was home for the Thanksgiving holiday, was driving a new car that his father had just bought.

State troopers reported that the northbound car, operated by Albert Steinhauer, 23, of Sellersville, ran off the highway onto the shoulder of Route 313. Steinhauer lost control of the wheel, ran into a ditch and then returned to the road.

At that moment, the Lindes car, was traveling in the southbound lane. The head-on collision occurred in the southbound lane after Steinhauer's vehicle swerved out of control. Steinhauer received head injuries and multiple cuts.

Troopers reported that Steinhauer will be charged with reckless driving.

Was Football Player

Lindes was an honor student at Quakertown Community High School and an outstanding guard on the school football team. As a senior, he was a member of the team that won the Blux-Mont championship, defeating Penn-Tide last Thanksgiving Day.

At the University, Lindes was a member of the Penn State Camera Club, the Outing Club, and the Jazz Club.

He was the son of Mr. and Mrs. Winston W. Lindes, Sr., 321 E. Broad street, Quakertown. In addition to his parents, he is survived by a brother and a sister.

Heilig In Accident

Ralph Heilig, sophomore in forestry from Chester, was returning to the University Sunday night when his car ran into the rear of a vehicle owned by Arthur J. Roan, Bellefonte.

Both cars were traveling north on Route 322. The accident occurred at the intersection of S. Pugh and S. Atherton streets. Damage was estimated at \$200. local businessman, died yesterday in Philipsburg State Hospital as a result of an automobile accident on Sunday.

Vinson, owner of Kaye's Korner at S. Allen street and Beaver avenue, and father of Kaye Vinson Jr., a graduate of the University, was driving in his 1955 Lincoln Capri on Presueisle street in Philipsburg when he sideswiped a truck traveling in the opposite direction.

The car hit a tree and caught fire. It took 20 minutes before Vinson, and his wife, who is reported as a patient at the hospital, were removed from the car.

Veterans' Paychecks Due on December 16

The Veterans' Administration will begin to pay veterans eligible under public law 550 on Dec. 16 instead of Dec. 20.

Eligible veterans can sign their monthly certification of training forms beginning Wednesday, Nov. 30, instead of Dec. 1, in the basement of Old Main.

Columnist Predicts Prexy Won't Run For '56 Nomination

A Philadelphia columnist recently discounted any possibility of Dr. Milton S. Eisenhower, president of the University, becoming a 1956 presidential candidate.

Frank Brookhouser, of The Evening Bulletin, said he had "secret but reliable information" which "indicates" that Dr. Eisenhower would not accept the nomination even if it were offered him.

Several nationally known columnists, including Roscoe Drummond, have speculated that Dr. Eisenhower could be the traditional "dark-horse" candidate at the Republican national convention. And a Washington, D.C. couple has formed a club to promote him for the nomination.

Brookhouser based his opinion that Dr. Eisenhower would refuse the nomination on the speculation that he has his hands full with his present duties and, the columnist continued, "it therefore does not seem to follow that he would make himself available to a position."
(Continued on page eight)

"pretty dangerous and certainly not in the best interests of the country to be talking the way candidate-for-president Harriman is speaking today."

He said the President did not mention either Harriman or Adlai Stevenson, who has announced he will try again for the Democratic presidential nomination.

If the President does run again, Hall said he expected Richard M. Nixon would again be on the ticket for vice president.

Arnelle Quits Trotters; Joins Fort Wayne

Jesse Arnelle, former Lion basketball great, has joined the Fort Wayne Pistons in the National Basketball Association after asking for and receiving his release from the Harlem Globetrotters.

Arnelle told Lion Coach John Egli by phone Saturday that he had left the Globetrotters and had already played in the game against Rochester last Thursday.
