Membership Fight Brewing in UN

UNITED NATIONS, N.Y., Dec. 9 (A)—Nationalist China demanded today that the UN Security Council give first priority to its resolutions opening UN doors to 13 non-Communist candidates. It

The Western powers, meanwhile, were in almost constant consultation on the best way to tackle the ticklish membership problem at an open meeting of the Council tomorrow. The Soviet Union held aloof, reiterating its determination to veto all Western candidates if its favorites are not admitted.

Decision by January

He recalled he had said after his meeting with the President that the Eisenhower decision should be made clear "in mid-January" before the end of filings for state primaries.

The logic of events, he said, will "require a statement at that time" by the President.
