

# Price Cut Possible for FMA Group

Fraternity Marketing Association members will probably receive a larger gross discount next semester than non-member fraternities buying from the same dealers who service FMA.

Harold W. Perkins, assistant dean of men, said yesterday that replies to bid letters sent to various food vendors indicated that the vendors who service FMA and non-FMA fraternities will give an extra 2 per cent gross discount to FMA fraternities.

Perkins said the various bid replies would be discussed at the FMA board of trustees meeting at 8 p.m. Monday at 142 McAllister street.

FMA has had trouble in the past because vendors gave FMA members the same discount as they gave to nonmembers. After FMA subtracted its 1 1/2 per cent service charge, a non-member house received a larger discount than a member house.

Also scheduled to be discussed at the board meeting is the possibility of obtaining new FMA members. Present FMA membership totals 27, approximately half of the fraternities at the University. Perkins said the board would hear reports of board members who have personally contacted non-member houses.

# Battle of Sexes—

(Continued from page one) fluence for the rise of juvenile delinquency, the increasing rate of suicides among American men, the turning of American men to foreign women, and for taking jobs away from men.

American women don't "put it forward" like foreign women, such as Gina Lollobrigida, Saperstein said.

**Just 'Partners in Marriage'**  
He said he would like "to see women as they were meant to be—a partner in marriage."

Miss Zimick, in the negative constructive speech, said the "correct definition for women's influence is the female's ability to keep the man from making mistakes."

Drawing from this definition, she said: "From the world today, it appears the women do not have too much influence."

"We agree that women have influence, but they deserve it because men have surrendered it to them."

In order to better understand the influence of women in earlier times, she said, the negative debaters searched for a descendant of Uglug, the tree-dweller. They found him at the University of Pittsburgh, Miss Zimick said.

"Yes, Mom Uglug exerted much influence on Papa Uglug. Mom Uglug pushed Papa Uglug out of the tree and into a bed of violets," she said.

She claimed that on Thanksgiving Day, Americans honor the

the brave men who came over on the Mayflower in 1620 and forget about the brave women who landed at Jamestown, Va., in 1619.

"You never hear of them because egotistical males have written the history books," she said.

She further claimed that 68 per cent of all articles lost on trains are lost by men, that Alcohol Anonymous has more male members than females, and that women control 80 per cent of the national income, but "men control the national debt."

**Admits Mother's Influence**  
In cross-examination, Saperstein admitted to Miss O'Connor that he did not resent his mother's influence and that he would rather have a female nurse than a male nurse.

Miss O'Connor pointed out that she "was sorry" American men won't acknowledge the "wonderful influence of their mothers" when such men as Abraham Lincoln and Franklin D. Roosevelt did.

Van Deusen, who is married and the father of a six-month-old daughter, pointed out some influencing women — Axis Sally, Cleopatra, Eve, and Tokyo Rose.

He said that women do not know how to use the little influence they have, and pleaded: "Dominated men of the world, unite—you have nothing to lose but your ball and chain."

The all-for-fun debate was refereed by Harold J. O'Brien, instructor in speech at the University.

Who won? Who always wins?

## Concert

# 2d Program Will Present Chamber Music

A program of chamber music by some of the world's most famous composers will be presented by the Virtuosi di Roma at 8:30 p.m. Monday in Schwab Auditorium as the second program in the Community Concert Series.

The Virtuosi di Roma is a group of 14 musicians who are soloists in their own right. The group has been organized and directed by Renato Fasano. Six violins, two violas, two cellos, a contrabass, a flute, and a piano are in the ensemble.

In Europe the Virtuosi di Roma is known as the Collegium Musicum, a Latin name given to groups of musical amateurs in the 17th and 18th centuries in Germany, Sweden, and Switzerland. These groups sang the concerted music of the time, when modern concerts were unknown.

The group has adopted the name Virtuosi di Roma for its fourth United States tour since 1950.

Fasano, the youngest director of a national conservatory, was born in Naples, and attended the National Conservatory San Pietro of Majella. He is internationally known as a conductor, pianist, and composer. Between 1944 and 1947 he was director of the National Academy of St. Cecilia in

## ChemEng Professor To Speak at Meeting

Dr. James H. Boyd, adjunct professor of chemical engineering at Columbia University, will speak on "Cost Estimates in Project Evaluation" at a meeting of the Central Pennsylvania section, American Chemical Society, at 8 p.m. Tuesday in 119 Osmond.

The meeting is open to the public.

## Chorus Picture Scheduled

The Women's Chorus will have its picture taken for LaVie at 7:30 p.m. Tuesday at the Penn State Photo Shop.
