

# Economic Battle Must Be Won—Ike

WASHINGTON, Jan. 11 (AP)—President Dwight D. Eisenhower exhorted all America today to "wake up" to the urgent need of a free world victory in the economic struggle with the Communists.

"Defeat in this contest could be as disastrous as defeat in an armaments race," said a statement which the President

# French Set Tight Rule In Algeria

PARIS, Jan. 11 (AP)—The French Cabinet today clamped a tight one-man rule over the mountainous coastal region of Algeria in an attempt to stamp out rebel terrorism. In the past 24 hours, 36 persons have been killed in scattered Algerian violence.

The unified command, which merges civil and military powers, was ordered for the Kabylie area, which stretches along the coast for 150 miles east of Algiers and includes rugged mountains and productive coastal farms. The rebels, fighting to overthrow French rule, drift down at night to terrorize farmers.

A similar command, described as working effectively, already has been set up in the Aures Mountains in northeast Algeria. And a third command is in prospect for the area around Constantine, also in the northeast. Rebels of the so-called national liberation army have spread terror in all three sections since the outbreak of the insurrection 15 months ago.

The Cabinet acted after receiving a report from Premier Edgar Faure endorsing the unified commands outlined by the governor general in Algeria, Jacques Soustelle.

Soustelle also advanced proposals for handling the political aspects of the Algerian problem, either through a federation or integration of Algeria with France, but these were only discussed. The political decisions must await formation of a new French government by the French Assembly which meets Jan. 19.

At present, Algeria is considered an actual part of France. Algerians enjoy privileges on the level of French citizens.

# Sheppard Wins Appeal

COLUMBUS, Ohio, Jan. 11 (AP)—Dr. Samuel H. Sheppard, convicted of wife murder in a sensational 1954 Cleveland trial, today won an important victory. The Ohio Supreme Court agree to review his case.

The high court's action opened an avenue of hope to the 32-year-old osteopath now serving a life sentence and in Ohio Penitentiary.

# 3rd Bipartisan Attempt Falls Flat in State Tax Deadlock

HARRISBURG, Jan. 11 (AP)—A third bipartisan attempt to break a year-long tax deadlock fell flat today.

Sen. Rowland B. Mahany, Republican floor leader, said Republican and Democratic legislative chieftains made "no headway" at a conference aimed at arriving at a bipartisan tax program. But he added: "I still think that if we don't have enough votes for our sales tax program, I feel we'll have to vote for theirs. That's my personal opinion."

Mahany disclosed that two forms of sales taxes—a 2 per cent rate with no exemptions except on food, or a 3 per cent rate with exemptions on industrial machinery, public utilities and other items—will be brought before the Senate Republican caucus next Monday.

"We can't say yes or no about anything at this time," he said. "It has to be a decision of the caucus."

Mahany said his caucus also will discuss—with a question

endorsed. "We could lose this economic contest unless the country as a whole wakes up to all its implications."

A major purpose of the statement was evidently to enlist support for Eisenhower's foreign aid plans, which are faced with rough going in Congress. For example, Sen. Walter George (D-Ga.) has voiced vigorous opposition to Eisenhower's request for authority to embark on a long-range program of economic aid to other nations.

The statement was read by Secretary of State John Foster Dulles at his news conference. Dulles called reporters' attention to the words "as a whole" and said they were underlined in the statement.

He said it came from the U.S. delegation to the current session of the United Nations General Assembly. He added that he received it last Dec. 9, discussed it with Eisenhower Christmas Eve and made it public today on the occasion of his first news conference since then.

In response to a question, Dulles said he and the President agree with the statement. He said it very strongly reinforces administration views inherent in such foreign aid proposals as Eisenhower's call for long-range spending authority over a period of up to 10 years.

The statement described the current cold war phase as apparently "a shift . . . in which economic and social problems have moved to the forefront."

# Democrats to Pick Delegates-at-Large

HARRISBURG (AP)—The Democratic State Committee will meet in Harrisburg Jan. 27 to select 28 delegates-at-large to the Democratic National Convention at Chicago in July.

Genevieve Blatt, secretary of internal affairs and committee secretary, said the group will discuss a plan to elect four district delegates from each of the state's 30 congressional districts.

If the plan is approved, the 148 delegates would have a voting strength of 74 at the presidential nominating session or one-half vote each.

# Harriman Endorsed

ALBANY, N.Y., Jan. 11 (AP)—Democratic county chairmen of New York State today unanimously endorsed Gov. Averell Harriman for the Democratic nomination for president.

mark behind possible approval—a four-part program proposed by Rep. Readinger, House Democratic floor leader.

The Readinger program would yield \$450 million which comes fairly close to what Gov. Leader feels he needs to balance the Commonwealth's \$1,800,000,000 budget in the current biennium.

"We made no agreements," Readinger said after the conference. "But until the House knows what the Republican Senate will do, the House won't move."

Readinger renewed his emphasis that Republicans must agree to a bipartisan tax program in advance of any house action on taxes, includes the 2 personal net income tax.

The Democratic-controlled House has sent two tax programs—the \$411 million classified income tax and the 3½ per cent manufacturers' excise tax—to the Senate where both were defeated by Republicans.

Earlier in the day, M. Harvey Taylor, Senate president pro tempore who led the GOP delegation to the tax conference, voiced his outright opposition to the Readinger income tax.

# State Official Orders Polio Shots Halted

PITTSBURGH, Jan. 11 (AP)—Blaming what he called physicians' complaints of "competition and socialized medicine," a state medical officer today ordered a halt to Allegheny County's free polio vaccine program for needy children.

Dr. A. M. Williams, district state medical officer, said "mounting opposition from private physicians" was responsible. He said he has been receiving up to 10 phone calls a day charging "competition and socialized medicine."

"I'm not going to resume this program until we get things straightened out with the Allegheny County Medical Society," said Dr. Williams.

The society did not comment immediately.

Under the program started Dec. 17 nearly 60,000 needy children qualified for the free vaccine in Allegheny County. This was separate from the nationwide free polio vaccine inoculations sponsored by the National Foundation for Infantile Paralysis for 1st and 2nd graders.

Dr. Williams said "as of the middle of December" only a handful of doctors requested vaccine for their needy patients.

# State Farm Group Gives Endorsement To Soil Bank Plan

HARRISBURG (AP)—State Farm Show officials almost unanimously today favored President Dwight D. Eisenhower's billion dollar soil bank plan.

Agreement with the major point in the President's nine-pronged plan for the betterment of the agricultural industry was made with qualifications in most cases, however.

"There is no getting away from it, he's on the right track when he proposes a soil bank plan but how he is going to implement it will be the proof of the pudding," said state Agriculture Secretary William L. Henning.

Others, including Miles Horst, former agriculture secretary and now Republican state chairman, completely endorsed the plan with predictions for its success.

W. S. Hager, another former state agriculture secretary, termed the program "definitely a step in the right direction."

Lyman E. Jackson, dean of the agriculture college at Pennsylvania State University and a member of the Farm Show Commission, attached all hope for success of the plan to "cooperation between the farmer and the agency administering the plan."

# Super-Bomb Tests to Go On

WASHINGTON, Jan. 11 (AP)—Secretary of State John Foster Dulles served notice today that the United States will carry on tests of atomic and hydrogen bombs because it is "imperative" to hold an American lead in nuclear weapons.

Dulles said he believes this country is ahead now although he conceded that the question of its atomic position in relation to the Soviet Union is partly a matter of speculation.

The effect of Dulles' comment, in response to questions, was to reject various suggestions, mostly from leaders in countries which are neutral in the cold war, that bomb tests be discontinued.

# Possible Site for New Ebbets Field Located

BROOKLYN, Jan. 11 (AP)—A site near the Long Island Rail Road Terminal at Flatbush and Atlantic avenues was termed "large and suitable enough for a new Ebbets Field" today by John Cashmore, borough president.

Cashmore made his statement after study of a six months' survey designed to find a new ball park for the Brooklyn Dodgers after the 1957 season.

Walter O'Malley, president of the Dodgers, has threatened to move the team out of Brooklyn unless a new location is found. The Dodgers are playing seven games next season in Jersey City.

# Ike Still Silent About Primary

WASHINGTON, Jan. 11 (AP)—President Dwight D. Eisenhower, still keeping his own counsel on the second term question, today refused to "assent or dissent" to entry of his name in the Illinois presidential preference primary April 10.

A White House statement said, however, this was not to be interpreted as meaning the President has yet made a final decision on whether to run again.

The statement was issued after Gov. William G. Stratton of Illinois announced in Springfield, Ill., that he would enter the President's name. Stratton said he had not consulted Eisenhower, but added:

"This is our way of saying, Mr. President, we hope you run again."

The White House statement was issued by James C. Hagerty, press secretary to the President, with Eisenhower's approval.

It came as a hot Republican-Democratic row developed over a statement by Sen. Robert S. Kerr (D-Okl.) suggesting that Republicans be careful not to put too great a burden on Eisenhower's health.

In his weekly newsletter to constituents, Kerr noted that Eisenhower's State of the Union message was read to Congress by clerks and added:

"The fact that he was physically unable to deliver it in person is evidence that it was either much too long, or, that those so urgently pushing him to run again should take warning lest they put too great a burden on his physical reserve."

"However, these Republicans are so alarmed about their own low political reserve they plan to bring Ike to the GOP convention, even if he has to stay in Letterman General Hospital at San Francisco, which reportedly is preparing a suite for him."

Maj. Gen. Paul I. Robinson, commandant of the hospital, said Dec. 25 that a suite was being prepared at the hospital. It was explained that it would be ready should the President attend the national convention next August and need a place to rest.

# Virginia Governor Asks Quick Segregation

RICHMOND, Va. (AP)—Gov. Thomas B. Stanley today asked the Virginia Legislature for prompt action to carry out the first step of a segregated school program.

In an address to the opening session of the 1956 General Assembly, Stanley declared the limited constitutional convention approved in Monday's referendum "should be held as early as practicable."

Voters gave their overwhelming approval to amendment of the state constitution to clear the way for using public funds for a child's private schooling, the No. 1 recommendation of the governor's Commission on Public Education

# Three Jailed For Strike Violence

SHARON, Pa., Jan. 11 (AP)—Three pickets were jailed today in a new outbreak of violence at the struck Sharon transformer plant of Westinghouse Electric Corp.

City police arrested two of the men shortly after midnight and held them as "suspicious persons". Police said they hurled a rock and a bottle at an auto leaving the plant.

They were identified as Kenneth Peterson, 41, of Concord, N.Y., former international representative of the striking AFL-CIO International Union of Electrical Workers, and Frank Simeon, 23, of R.D. 1, Hubbard, Ohio, an employe of the Sharon plant.

Police reported four autos leaving the plant were stoned last night and early today, and several others were scratched or "scored" with pieces of wire.

PHILADELPHIA (AP)—Secret negotiations were launched today by a federal mediator in a new effort to find a basis for "genuine collective bargaining" to end the 13-week strike of Westinghouse Electric Corp. workers.

But no matter how today's peace talks end, even on an optimistic note, mediator John Murray warned that "the strike couldn't be settled in anything less than two weeks."

Murray huddled at an undisclosed site with Robert D. Blasier, Westinghouse vice president for industrial relations, and James B. Carey, president of the AFL-CIO International Union of Electrical Workers which represents 44,000 strikers.

The Independent United Electrical and Radio Workers Union, representing 10,000 Westinghouse employes, also struck in October—and for the same reasons: higher wages and other benefits.

# Carnegie Tech Upsets West Virginia, 68-66

PITTSBURGH, Jan. 11 (AP)—An underdog Carnegie Tech team pulled the big upset of the local collegiate basketball season tonight by edging West Virginia 68-66. The victory was only the third in 10 starts for Tech. West Virginia had a 9-4 record going into the contest.
