750,000 gallons of water, is completely painted on the inside.

The huge ball-shaped tank is being painted a buff color on the top and a pale green on the bottom. The legs, struts, and sway-braces will also be a pale green. The outside of the container will take three coats of paint, according to George Farrah, foreman for the Virginia Erection Co., Pittshurgh, a subsidiary of the Pittsburgh-DesMoines Steel Co., which built the tank.

Workmen of the Ritter Bros. Construction Co., Harrisburg, are still working on the foundation of the new classroom building near the Hetzel Union Building.

Musser Gets NSA Position

James Musser, junior in mechanical engineering from York, was appointed National Student Association Coordinator by All-University President Earl Seely last_night.

Other members appointed to the NSA committee are Robert Heck, junior in arts and letters from Dauphin; Barbara Hendel, junior in medical technology from Hollidaysburg; Ronald Urick, sophomore in education from Troy, Ohio; and Donna Cowder, junior in business administration from Clearfield.

At a meeting for students interested in working with NSA, Seely explained the suggested organiza-tion for NSA at the University. He said he thinks the plan will improve the NSA program over the past.

Seely said he will try to get the Spring Week and Campus Chest office for NSA.

Ramsey Will Speak

Dr. Duane V. Ramsey, assistant professor of sociology, will speak to Kappa Phi Kappa, men's education honor society at 7:30 p.m.
Thursday at Sigma Alpha Mu.

Dr. Ramsey's address is entitled, "The School and Its Role on Juvenile Delinquency."

HERE'S Jack Wimmer's Eeb. TIRE SALE

During sale Jack will sell tires in pairs at Key Dealer Price. One tire - 75c to mount. All types-conventional, tubeless—all grades. All are Road Hazard Guaranteed.

Engineering education selected B.A. or B.S.

EARN... WHILE YOU LEARN

INTERVIEWS . . .

with visiting engineering representatives of Pratt & Whitney Aircraft

Wednesday, February 22

MINIMUM REQUIREMENTS

- Any B.A. or B.S. degree.
- Mathematics through differential and integral
- One year of college physics (additional courses in chemistry or related sciences desirable).
- A good- scholastic standing in undergraduate work, particularly in math and science courses.
- Desire to pursue a career in engineering.

PRATT & WHITNEY AIRCRAFT, one of America's greatest engineering organizations, is offering a comprehensive engineering course to qualified B.A. or B.S. graduates. Throughout the training period, those enrolled in this program will be paid a liberal salary - with increases as scholastic progress is shown.

graduates

The educational program itself will be conducted, at our expense, by one of the nation's foremost engineering colleges. Graduates of this 30-week course will be assigned to our engineering department. Here, they will be given the opportunity to do creative engineering work on the world's finest aircraft engines.

Such an unusual opportunity should be fully investigated by B.A. or B.S. graduates with engineering interest. Further information and literature can be obtained from the College Placement Office - appointments for interviews can also be made.
