

Pipe Grabber

—Ron Walker photo

OLD STEAM PIPES are being removed from an underground tunnel in front of Carnegie Hall in preparation for installing a newer and larger steam pipe system.

Physical Plant Workmen Change Mall Steam Pipes

Physical Plant workmen are now in the process of changing the size of steam pipes under the west mall sidewalk between Pollock and Pattee Library.

Workmen are removing about 650 feet of eight-inch pipe and replacing it with 12-inch pipe.

The work, which will be done periodically, is expected to be completed by the fall, a Physical Plant spokesman said yesterday.

LA, Ed Councils' Election Dates Set For March 21, 22

Election dates for the Liberal Arts Student Council and the Education Student Council have been set, according to Robert Nurock, liberal arts elections committee chairman, and Charles Witmer, education council president.

The council elections will take place March 21 and 22 in conjunction with the All-University elections at a central polling place in the Hetzel Union building.

In the liberal arts elections eight freshmen are eligible to run for the sophomore offices, 11 sophomores for the junior offices, and seven juniors for the senior offices. A 2.5 All-University average is required for candidates.

Nominations for education council representatives will be received from March 12 to 16. Council officers will be elected at a meeting March 13.

The new piping is expected to prove the underground steam distribution to the buildings on the upper half of the Mall and those on Ag Hill.

Most of the University steam heat is distributed from a main plant, located at Burrowes road and W. College avenue, through over three miles of underground piping.

Most of these pipes are located under walks, thereby serving a double purpose. Besides carrying steam heat to the buildings, they also serve to keep ice and snow off the walks.

Removal of Pipes

On the project now in progress, men are working under the sidewalk in the large steam tunnel to remove the pipes. The pipes are then brought to the surface by a crane.

The entrance to the underground tunnel is located in front of Carnegie Hall, where the crane has been situated.

No interruption of heat during the semester is expected in the buildings served by the line, the spokesman said.

Student Employment

Representatives from the following companies will interview June and August graduates and undergraduates for summer work. Applicants for interviews may sign up in 112 Old Main within the next two weeks. This list will be carried only once by The Daily Collegian. Interviews will be held on dates mentioned.

- California Texas Oil Co.—Mar. 12—P.E., ACCTG., ECON., FIN., MNTG., GEOL., CHE., C.E., E.E., GEOPHYS., I.E., M.E. Also M.S. candidates in above fields. Also for Jrs. in CHEM., M.E., C.E., and E.E. for summer.
- Curtiss Wright Corp. (Wright Aero. Div.)—Mar. 12—AERO.E., CHE., C.E., E.E., I.E., M.E., METAL. Also M.S. and Ph.D. candidates in Engr. or Physical Metal.
- Continental Oil Co.—Mar. 12—CHE., M.E., CHEM., PETE.
- Latrobe Steel Co.—Mar. 12—METAL., M.E., I.E.
- Atlas Powder—Mar. 12—CHEM., CHE.
- Eastman Kodak—Mar. 12-13—MATH., CHE., CHEM., E.E., I.E., M.E., MED. TECH., MET., PHYS. Also M.S. candidates in same fields.
- American Cyanamid—Mar. 12-13—CHEM., CHE.
- Pgh. Des Moines Steel—Mar. 12-13—C.E., M.E. Also same for summer.
- U.S. Steel (Summer Employment)—Mar. 12-13—C.E., M.E., E.E.
- Truscon Steel Div.—Mar. 13—C.E., ARCH. ENGR., M.E.
- B. F. Goodrich (Research Center)—Mar. 13—CHEM., PHYS., MATH., CHE., and M.E. Also M.S. and Ph.D. candidates in same fields.
- B. F. Goodrich (Akron Office)—Mar. 13—CHEM., ENGR., BUS. AD., L.A.
- New York Trust Co.—Mar. 13—L.A., BUS. AD. Also for summer.
- West Penn Power Co.—Mar. 13—E.E., C.E., H.E.C., BUS. AD., AGR.E., M.E., I.E.
- Armstrong Cork—Mar. 13-14—CHEM., CHE., BUS. AD., ECON., L.A., I.E., PHYS., MATH., ACCTG., M.E., E.E., I.E., C.E., ARCH.E., AERO.E., L.M.R. Also M.S. candidates in CHEM. and CHE.

Theater Group To Give Play

Five O'clock Theater will present "The Matchstick Cathedral" by Walter Vail, graduate student in dramatics from Upper Darby, at 5 p.m. today in the Little Theater in the basement of Old Main.

Kathryn Kelleher, junior in arts and letters from Vandring, will direct the play. Stage manager will be Sylvia Brown, senior in arts and letters from Wilkes-Barre.

Members of the cast are Wayne Zarr, sophomore in arts and letters from Levittown; John Petane, sophomore in arts and letters from Swedesboro, N.J.; Leonard Richards, junior in business administration from Wayne; Carol Miller, sophomore in education from Johnstown; and Richard Swire, freshman in arts and letters from Philadelphia.

Mannequins Spring Collection

Spring 1956 brings not only a fever of the same name, Brundie's annual cold, news from baseball training camps, traditional showers for May flowers, but also, a brand new trend in fashions for feet.

Mannequins have designed the model shoe, the shoe that's high style at a convenient price. Fresh is the keyword—a freshness in design, color, patterns, prints, textures, surfaces, heels, and toes. The collection typifies fashion's continental influence on shoes.

As sleek as a new Italian sports car the "kick-a-pleat" pump emphasizes the continuing importance of fashion tapered and five detailed toe.

Not to be outdone is the pleated toe of another model. It slowly rises.

It slowly rises on a needle-thin heel that gives the ladies' legs that slim appearance.

Both come in quads to B's—4½ to 9. And wait until you see the color. From the name you would feel like a stroll under the Eiffle Tower—"French Bread!" Humm—good!

Judge Recommends Constitution Change

The State Constitution of Pennsylvania has become a thing of "rags and tatters," declared the Hon. W. Walter Braham of New Castle, chairman of the Pennsylvania Bar Association's Committee on Revision of the Constitution.

Speaking before a meeting of the State College League of Women Voters Thursday, Judge Braham said the constitu-

tion, like other human institutions, has grown old, and is far too outmoded. It has been set aside by court decisions and common consent too many times to effectively serve the people of Pennsylvania, he said.

The state constitution, which was adopted in 1874, compares with the Federal constitution, Braham stated, but is three times as long. It provides for such outdated legislation as prohibition against dueling, the election of a surveying official, and prohibits women from becoming school teachers and superintendents.

Relief Payments

Under the existing constitution, Braham said, the state shall pay relief only to blind persons and dependent mothers. Today, he went on, everyone is on the public dole. The constitution also forbids

the state to create a public debt over \$100 million. Now, the authorities have wiped out this legislation because of such things as communities borrowing from the state to build new schools. Braham said.

Constitutional Changes

The Supreme Court lists three methods of changing the constitution. Braham continued. The method of amendment is the easiest and most complicated in the long run, he said. Or else, the people can call a constitutional convention, or if that fails, they can form a revolution.

The constitutional convention is intended to prevent such a revolutionary movement, Braham concluded, and thus, in the interests of good government, a convention should be called and the constitution rewritten.
