The Weather Men have yet to win a league contest.

# A Study in Motion -

THE BUILDUP of a storm. That's what photo editor Ron Walker gives in these candid pictures of Charlie Speidel, long-time wrestling mentor of the Lions. Caught in his "bench work" Saturday when the wrestlers lost their first match of 1956 to Pitt, 16-12, Speidel reaches his final emotional pitch. In this case we couldn't figure out if we were in victory or defeat. These pictures are deceiving — Charlie goes through this not once a night, but every time one of his men walks to the mat. This happens eight times a night, and he is still going strong.

## Sports Attendance Up

NEW YORK, March 6 (AP)—All major sports showed increases in attendance during 1955 in spite of television, the ninth annual survey of the Morning Telegraph and Daily Racing Form disclosed. "This overall increase in sports attendance can be the first indication the habits and interests of the American sporting fan are beginning to swing the other way—he is leaving his living room and seeing the game in person."

## A Campus-to-Career Case History

*On the left, William Nock Colonna, B.S. in Business Administration, Virginia Polytechnic Institute, '52.*

### "Sales results...and something more"

Two and a half months after he began training with The Chesapeake & Potomac Telephone Company of Maryland, Bill Colonna went into the army, spending a year in Korea.

"While in the service," Bill says, "I never thought of having to look for another job. I resumed my career in the telephone business as soon as I got back. What's more, my rate of pay was increased by crediting my time in the army."

"After training, I was promoted to Sales Manager in Salisbury, Md. I'm responsible for initiating, planning and coordinating sales activities in an area serving 50,000 customers in nine counties

on the Eastern Shore of Maryland. I select and train men for my sales force, and help business office managers with their sales problems.

"Sales and marketing in the telephone business are growing more important every day. We've many new and different services to offer people. It's a job with scope, variety and challenge.

"Arranging for customers' communications requirements keeps me in touch with all departments of the company. These contacts add valuable experience that will always prove useful. I wanted a career that was broad and full of opportunities, and that's what I've got."

Bill Colonna is typical of the many young men who have interesting jobs in the telephone business. Career opportunities of many kinds exist in other Bell Telephone Companies, and in Bell Telephone Laboratories, Western Electric and the Sandia Corporation. Your placement officer has more information about these companies.
