\$1910 Compensations Ok'd in New Budget

By ROG ALEXANDER

All-University Cabinet passed an operating budget of \$11,280 for the 1956-57 school year last night without any opposition to the \$1910 "scholarship fund" to be used for compensations for next year's cabinet officers.

The last bit of opposition to the compensation plan was erased when Douglas Moorhead, president of the Athletic Association, announced that, since the issue had been rehashed many times before the Supreme Court upheld Cabinet's ruling last Sunday, any further attempt to oppose the compensation plan would be fruitless.

The budget, which must be passed again at the next Cabinet meeting, totals \$700 more than this year's. The jump arised from the \$1000 appropriation to the National Student Association and the regional NSA.

The appropriation for Cabinet operating funds was also cut from last year's \$2500 to \$1000. The \$1500 saved will be used for new categories which previously drew operating funds from Cabinet's appropriation.

The only opposition to the entire budget arose when Samuel Moyer, freshman class president, asked Cabinet why the appropriation for the freshman class dance had been cut \$100.

George Donovan, Cabinet adviser, answered Moyer's question by explaining that the dance will be held in the Hetzel Union auditorium free of cost. Previously, the event was held in Recreation hall at an expense considerably greater than \$100, Donovan said.

Besides NSA, the new budget will provide funds for the Christmas lawn display committee, junior class Christmas party for faculty children, and the senior class reception for the president and deans of colleges, and the inter-religious committee of 13.

In other actions, the Cabinet accepted the Spring Week report of Richard Seng, chairman, asking permission to operate a public address system at the carnival grounds. Jonathan Plaut, representing the Board of Dramatics and Forensics, pointed out that under the existing agreement, 50

Modern family minus electricity

What would you do without low-price electricity in your home? Well—you could use candles. And build fires. And substitute elbow-grease for all the jobs electricity does automatically. If you *did*, you would be reminded quickly—and forcefully—how much electricity does for so little cost.

Electricity is the biggest bargain in your family budget. What *else* gives you such value in comfort, health, ease and fun?

Keeping electricity high in usefulness, low in price is the main job of independent electric companies like this one.
