

Phys Ed Group Sets Procedures For Elections

Procedure for nominating class representatives for next year was discussed last night by the Physical Education Student Council. Next Monday the nomination committee will present the slate for the council's approval. Voting will take place after Easter vacation.

Two students, a man and a woman, will be elected from each class. Representatives must have a 2.0 All-University average.

A student of the college may obtain a self-nomination form at room 247 Recreation Hall, which he may submit to the committee after he has obtained signatures of 15 students in the college. These petitions must be turned in to Ralph Cryder, Nancy Hutchison, or Carolyn Briggs.

The procedure for Student Major Club officer elections was also discussed. Marilyn Doan will select the nominating committee from the club's membership, as she is secretary of the club and the other officers are student teaching.

The club's constitution was read for council approval before being sent to All-University Senate for final approval.

A letter from Gilbert L. Crossley, assistant professor of electrical engineering and sponsor of the campus amateur radio station, W3YA, was read. The council decided to grant Crossley's request to appear before them and ask for a contribution to the station.

Spring to Arrive In 'Cool' Way

It arrives on campus today but you would never know it.

Yes, spring will begin at about 10:20 a.m. today. At least that's what the trusty old Farmer's Almanac says.

We'll have to take the Almanac's word for it because the weather certainly won't show it. Today's temperatures are expected to be in the high 30's.

The weatherman says, however, that today will be fair with no precipitation in sight.

Yesterday winter took advantage of its last day as it sent the mercury down to a chilly 12 degrees. The high was 35.

I was thinking of ways to improve student government and realized that if I wanted to help improve it, I could by nominating myself for a position. Do you want to help improve student government? You can by voting, and through voting you preserve the democratic way of life—and when you vote, vote for HOWIE.

Howard P. Zeitlen for a senior seat on the Business Administration Student Council. Flexibility! Experience! Integrity! Efficiency! Ability!

Applications Available For Hemlock Chain

Senior women interested in participating in the hemlock chain may contact Susanne Smith or Marilyn Grant no later than Friday.

Women who sign up for the chain must have a full length gown and should be available for at least one night of the week of May 7 to help make the chain.

Three Hundred Attend Senior Advisory Tea

Approximately 300 seniors attended the senior class tea sponsored by the Senior Class Advisory Board in the Hetzel Union ballroom Sunday, according to Delite Hoopes, committee chairman.

President Milton S. Eisenhower and the deans of the colleges formed a receiving line.

West Halls Council to Meet

West Halls Council will meet at 7 tonight in McKee lounge.

QUEHANNA

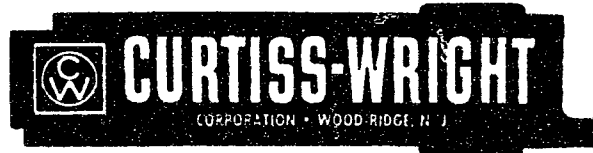

... a great research center for the future... YOUR future

JUST 47 MILES FROM PENN STATE IS ONE OF THE WORLD'S MOST ADVANCED RESEARCH CENTERS: QUEHANNA, PA. . . . AN OUTSTANDING ENVIRONMENT FOR THE ENGINEERS OF TOMORROW.

Quehanna, Curtiss-Wright's 85-square-mile research and development center here in the Alleghenies, offers challenging and wide-ranging career opportunities in aerodynamics, electronics, nucleonics, plastics, ultrasonics, metallurgy. Just a short drive from Penn State, Quehanna brings together specialized engineering talents and unparalleled experimental and laboratory facilities for research in today's most advanced scientific fields. Curtiss-Wright has faith in today's most advanced scientific fields. Curtiss-Wright has faith in the future—your future—and proves it with this new location that gives you greater opportunities to grow and advance quickly.

YOUR EDUCATION IS OUR BUSINESS. Curtiss-Wright looks to Penn State graduates to fill many of its top engineering positions. We are working with administrative and faculty members right now, developing a special postgraduate course at the Research Center. Plans are also being made for study tours to Quehanna for Penn State engineering students.

KNOW MORE ABOUT CURTISS-WRIGHT. Contact Mr. George N. P. Leetch, University Placement Service Director, who will make an appointment for you with one of the Curtiss-Wright Representatives when they visit the campus March 23. Or, at any time, call Alfred E. Lewis (Penn State '32), Curtiss-Wright Industrial Relations Manager, at Frenchville 2401. Mr. Lewis will welcome the chance to talk about your present engineering ideas and your career plans for the future.
