

Egypt, Israel Agree To Cease-Fire Plan

JERUSALEM, April 19 (AP)—Secretary General Dag Hammarskjold of the United Nations announced today Egypt and Israel had put into effect a new and unconditional cease-fire on their strife-torn border.

It was his first big accomplishment on a two-week-old Middle East peace mission for the Security Council. He said

Cloak-and-Dagger Defendant Freed In Perjury Case

WASHINGTON, April 19 (AP)—A judicial ruling today killed the government's perjury case against Aldo L. Icardi—a case based on his denial of complicity in the strange World War II slaying of Maj. William V. Holohan.

U.S. Dist. Judge Richmond B. Keech ruled that a House Armed Services subcommittee before which Icardi voluntarily testified in March 1953, was not functioning in furtherance of a valid legislative purpose.

Icardi, 35, is now a real estate broker in Pittsburgh. An Italian court convicted him in absentia of murder—meaning without being able to get Icardi's presence in court.

The perjury charge in the court here was brought after Icardi testified before a House Armed Services subcommittee in March, 1953, and swore he had no part in the slaying of Holohan.

both governments told him they had ordered their forces not to shoot across or pass over the armistice demarcation line after 6 p.m. Wednesday.

Agreement Reached
Both sides agreed to the cease-fire more than a week ago but had reserved the right to fire in self-defense. They also had delayed giving Hammarskjold confirmation that the necessary orders had gone out to their forces.

Hammarskjold held two private meetings with Israeli Premier David Ben-Gurion today on how to maintain the cease-fire. This made six such conferences between the two since Tuesday. Other UN and Israeli representatives also attended.

Discussions Held
Earlier, Ben-Gurion and his Cabinet had a private discussion of the talks between the Premier and secretary general. Hammarskjold had conferred with Egyptian Premier Gamal Abdel Nasser in Cairo and with Lebanese officials in Beirut before coming here. He will return tomorrow to his Beirut temporary headquarters.

His assignment is to secure compliance with the 1949 armistice agreements of Israel with Egypt, Jordan, Lebanon, and Syria.

Reds Open Talks To Iron Out East-West Tension

LONDON (AP)—Nikolai Bulganin and Nikita Khrushchev drove to Prime Minister Eden's official residence today for their first full scale talks with British statesmen on easing East-West differences.

"We are now going to start our big talks," Khrushchev, the Soviet communist party boss, said as he and Premier Bulganin left the Soviet Embassy to drive to No. 10 Downing St.

After the meeting, the statesmen agreed to keep their talks secret and avoid propaganda moves.

The British and Soviet leaders are to confer here on means of lessening East-West tension. Informants said Eden intends to test the sincerity of the desire for friendship Bulganin and Khrushchev have so often expressed recently.

They said he will ask the visitors to stop subverting the West's positions in Europe, the Middle East and the Far East and especially would express Britain's determination to keep its Middle East oil holdings.

It was Eden who proposed the consultations be kept secret. He has expressed belief that the best international understandings are "open covenants secretly arrived at."

Ike's Atoms for Peace Plan Well Received by Russians

WASHINGTON, April 19 (AP)—President Dwight D. Eisenhower was described today as "very much gratified" by Russia's agreement with the United States and 10 other nations on a plan expected to launch his atoms-for-peace agency by mid-1957.

The 12 nations put the finishing touches yesterday to a proposed charter for the International Atomic Energy Agency, as it will be called.

The charter goes next to a conference of 84, possibly 86, nations at New York City in September. If accepted there, as expected, it will go to the parliaments of the nations and will become effective when ratified by 18 countries. American officials expect this around June 1957.

James J. Wadsworth, who headed the U.S. delegation to the 12-nation meeting in Washington, reported to Eisenhower this morning. Afterward, he told reporters the President was "very much

gratified" at "such substantial progress."

In a separate development today, the Atomic Energy Commission announced it would contribute \$350,000 for construction of an atomic research reactor in Brazil. It was described as the first such grant to a foreign nation.

The reactor will be constructed under a 1955 agreement between Brazil and the United States as part of the President's atoms-for-peace plan.

ON-CAMPUS

INTERVIEWS

SOON!

North American Representatives
Will Be Here April 23, 24

You'll learn first hand about the advantages and opportunities in choosing a career with a future at North American. Here engineers and scientists are now discovering new frontiers in four exciting new fields:

- | | |
|--|--|
| ELECTRO-MECHANICAL
Missile Guidance Systems
Fire and Flight Control Systems
Computers, Recorders | SUPERSONIC AIRFRAMES
Structures
Thermal Barriers
Vibrations and Flutter |
| ROCKET PROPULSION
High Thrust Engines
Propellants
Pumps | NUCLEAR ENGINEERING
Research Reactors
Medical Reactors
Power Generation Reactors |

Contact your placement office today. Make an appointment to see North American representative, Mr. D. C. Harpole, on April 23, 24.

Interviewing hours 9 A.M. - 5 P.M.

Or write, Engineering Personnel, Missile and Control Equipment Dept. 31-24COL, North American Aviation, Downey, California
