

# Flying High --

—George Harrison Photo

DICK PACKER (left) and Bob Cole (back to camera) look on in amusement as Lt. Arthur G. Lockard, assistant professor of air science, attempts to climb aboard an unwilling donkey in last night's Donkey Basketball game at Recreation Hall.

# Donkeys Victorious In 'Basketball' Tilts

Laughs were a dime a dozen in Recreation Hall last night where a crowd of 500 Donkey Basketball fans found it difficult to tell a player from a jackass.

The shaggy animals seemed to have more brains than the competitors as they bucked and kicked their "riders"—who were on the floor most of the time—through two twenty-minute games.

In the main attraction the CLWDN's (Campus Leaders Who Do Nothing) battled to a 4-4 draw with the faculty, while the opening game—between fraternity presidents—saw the Alpha's defeat the Omega's, 4-0.

**Donkeys Outfox Seely, Packer**  
Not even past All-University President Earl Seely or All-American soccer star Dick Packer could escape the "wraths" of the stubborn creatures. Most of the time Seely could be found looking for his foe from a prone position. Packer, on the other hand, could not control the "racing fever" in his animal as it would gallop around the basketball court like a horse in the Kentucky Derby.

It took 16 minutes for a goal to be scored in the first game, but only five minutes passed in the second contest before Dick Packer scored. Packer also scored the other CLWDN points. Don Swegan, instructor in physical education, and Dr. Jerome K. Pasto, associate professor of farm management, tallied the points for the faculty.

**Braund, Lessig Score**  
Darwin Braund, Delta Theta Sigma, and John Lessig, Chi Phi, were the only scorers in the fraternity presidents game.

Hugh Cline, past cheerleader; Robert Bullock, past Interfraternity Council president; Robert Cole, past Town Independent Men president; Norman Miller, (Continued on page eight)

# Two Profs Presented Fellowships

Dr. W. C. Fernelius, head of the department of chemistry, and Dr. Joseph Marin, head of the department of engineering mechanics, have been awarded Guggenheim Fellowship awards for the 1956-57 academic year.

Dr. Fernelius plans to engage in research on stability of coordination compounds in solution, in the inorganic chemistry laboratory of Oxford University, England. He will sail July 12 from New York City with his wife and children.

Dr. Fernelius did graduate work abroad in 1930, studying at the University of Munich. He came to the University in 1948 from Syracuse University and has taught at Purdue and Ohio State Universities. He received his B.A., M.A., and Ph.D. degrees from Stanford University.

Dr. Marin will engage in research in the mechanics of the solid state, including the mechanics of creep, during the fall semester at Harvard University, Massachusetts Institute of Technology and Brown University.

Before beginning the research, Dr. and Mrs. Marin will travel to Europe early next September where Dr. Marin will present technical papers at the International Congress of Applied and Theoretical Mechanics in Brussels, Belgium, and the International Conference of Fatigue in London.

A graduate of the University of British Columbia, Dr. Marin received his M.A. degree from the University of Illinois and his Ph.D. degree from the University of Michigan. He taught at Rutgers University and the Illinois Institute of Technology before coming to the University in 1942.

# Senior Ball to Have 'Springtime' Theme

A blue ceiling, old-fashioned lanterns, artificial windows, and canopies decorated with flowers will carry out the "Springtime" theme of the semi-formal Senior Ball to be held from 9 to 1 tonight at Recreation Hall.

Billy Butterfield and his 12-piece orchestra will be featured with Dotty Dare, Butterfield's wife, as vocalist.

Tickets, at \$5 per couple, are on sale today at the Hetzel Union desk. They will also be sold tonight at Rec Hall.

Refreshments will be served during the entire evening.

**Sextet to be Featured**  
Butterfield, who plays the trumpet, will feature a sextet of musicians tonight. His orchestra has no particular style and plays all kinds of music.

Before forming his own orchestra, he played with Bob Crosby, Artie Shaw, Bennie Goodman, and Les Brown. His orchestra has appeared in hotels and theaters across the country including the Waldorf Astoria and the Philharmonic in New York, the Roosevelt Hotel in New Orleans, and the Palladium in Hollywood.

**College Dances Nothing New**  
His musicians have also played at several colleges including Princeton, Cornell, Yale, Dartmouth, and Rensselaer Polytechnic Institute. They were at the University several years ago.

Some of Butterfield's better known recordings on the Decca label are "Moonlight in Vermont," "Stardust," and "Jalousie." Two of his most recent albums are "Butterfield Bounce" and "Ballads for Sweethearts."

He has appeared on television on such programs as "Studio One," and Robert Montgomery Presents.

**Studied in Ohio**  
He studied music in Middletown, Ohio, his hometown, under Frank Simon, a trumpet soloist for John Phillip Sousa's band, and at the Cincinnati Conservatory of Music. He attended Transylvania College in Lexington, Ky., where he played in a college dance band.

William Rohm, vice president of the Senior Class, is chairman of the Senior Ball committee. Other members are Constance Anderson, patrons and programs; Barbara Edgington, catering; Diane Hallock and Joseph Hayes, publicity; and Charles Henry, requisitions.

Senior Ball is the last big dance of the year.

# Naval Officer Data Available in HUB Today

William Metz, a 1955 graduate of the University, will be available in the Hetzel Union game room today to discuss Naval officer programs, particularly Officers Candidate School and Aviation Officers Candidate program for college graduates.

# Allgood Gets Award To Lecture in Helsinki

Mary B. Allgood, associate professor and chairman of the division of commercial consumer services, has been granted a Fulbright Award to lecture in Finland at the University of Helsinki.

Miss Allgood has requested a leave of absence for the academic year, 1956-57, to make the trip.

# Labarthe Will Speak

Dr. Jules Labarthe will speak at the Ladies Night program of the American Chemical Society at 8 p.m. Tuesday in 119 Osmond.

Labarthe, senior fellow on the Commodity Standards Fellowship at the Mellon Institute, Pittsburgh, will speak on "Stores, Goods, and Science."

# Nipson to Speak At Journ Forum

Herbert Nipson, managing editor of Ebony Magazine, will be the guest speaker at the Journalism Forum at the University at 11 a.m. Monday in 121 Sparks.

Nipson, will discuss "The Magazine Picture Story." He graduated from the University in 1940 with a B.A. degree in journalism. As an undergraduate, he was assistant sports editor of The Daily Collegian; a staff member of Portfolio, literary magazine; and a member of Sigma Delta Chi, professional journalistic fraternity.

The speech is open to the public.

# Hi-Fi Exhibit To Be Shown At Open House

A Hi-Fi Open House, with a demonstration of high fidelity records and tape recordings, will be held at 7 p.m. Tuesday in 10 Sparks.

The exhibition will be sponsored by the Electrical Engineering Society and Alvo Electronic Distributors, Inc., who will supply several thousand dollars of hi-fi equipment to be demonstrated.

Frank H. McIntosh, president of the McIntosh Laboratories, Inc., Binghamton, N.Y., will speak on "High Fidelity, Amplifiers and Speakers."

The talk will be illustrated with slides and a hi-fi demonstration with equipment belonging to both the University and Alvo.

McIntosh designed and built the McIntosh Amplifier. Two of them are used in the closed circuit television project and one by WDFM, student radio station.

The Open House will be the last program sponsored by the Electrical Engineering Society this year. Admission is free, and the demonstration is open to the public.

# Landscape Society Will Hear Simonds

The Student Landscape Society will hear an informal talk by John Simonds, of Simonds and Simonds Landscape Architectural Office, Pittsburgh, Pa., at 8 p.m. Tuesday in 105 Osmond. Simonds' subject will be "Oriental Gardens."

Tickets for this discussion will be available for 25 cents in the landscape office, 306 Plant Industries until Monday. Light refreshments will be served.
