

Workshop Suggests More Rigid Policies

(Third of a series)
By JUDY HARRISON

Entrance examinations for all students, closer contact between students and advisers, and raising the scholastic requirement for membership in men's hat societies were recommended at encampment to create an atmosphere conducive to higher scholastic achievement.

The counseling program, the student-faculty workshop on

2 In BusAd Get Perfect 4 Averages

Two students in the College of Business Administration, Leon Kriner, senior from DuBois, and Paul Cryder, sophomore from State College, completed the Spring Semester with perfect 4.0 All-University averages.

A total of 45 students have been named to the dean's list of the college. An average of 3.5 or better is required for the dean's list.

Other Business Administration students who have been named to the dean's list are:

Charles Gorka, 3.84; James Kester, 3.84; Donald Snyder, 3.84; Raymond Stubblebine, 3.84; LeRoy Wagner, 3.84; John Yeakel, 3.84; Armer Craig, 3.83; Robert Jones, 3.83; Robert Krakoff, 3.83; James Montgomery, 3.83.

Charles Moose, 3.83; John Ciucci, 3.82; Eleanor Milham, 3.8; Seymore Delfiner, 3.74; James Anzalone, 3.68; Thomas Swierzewski, 3.68; George Anthony, 3.66; Lawrence Bartlett, 3.66; Herbert Black, 3.66; Jane Groff, 3.66.

Joseph Jodie, 3.66; Lynn Thomann, 3.66; Charles Grissinger, 3.65; Robert Pivik, 3.65; John Weaver, 3.65; Rita Cofsky, 3.63; Michael Sitzman, 3.63; Elizabeth Trezise, 3.63; Byron Baird, 3.60; David Wilson, 3.58.

Thomas Brogan, 3.52; Gerald Gorman, 3.52; Ferman Peterman, 3.52; John Boyanowski, 3.5; Nelson Craige, 3.5; David Difebo, 3.5; Millard Fitzkee, 3.5; Thaddeus Capinski, 3.5; Paul Gilpin, 3.5; John List, 3.5; John Madore, 3.5; Marion Overpeck, 3.5; Edward Steck, 3.5.

Engagements

Zahm-Seely

Mr. and Mrs. Daniel J. Zahm of Johnstown have announced the engagement of their daughter Rebecca to Mr. Earl E. Seely, son of Mr. and Mrs. Edwin Seely of Berwick.

Miss Zahm is a senior in journalism. She is copy editor of The Daily Collegian and a member of Pi Beta Phi.

Mr. Seely, who was graduated from the University last June, is employed as an engineer with the special products division of the Burroughs Corporation at Paoli. While at the University he was All-University President and a member of Skull and Bones, senior men's hat society. He is also a member of Lion's Paw and Tau Kappa Epsilon.

Lepine-Ellis

Mr. and Mrs. Austin E. Lepine of Highland Park, N.J., announce the engagement of their daughter Gail Ann to Mr. Robert W. Ellis, son of Dr. and Mrs. L. Ethan Ellis, also of Highland Park.

Miss Lepine is a senior in physical education at the University and a member of Gamma Phi Beta.

Mr. Ellis is a senior in mechanical engineering at Swarthmore

"Academic Policies" agreed, should be expanded so that upperclass students familiar with the individual interests of each college can guide respective freshmen. This would alleviate the burden on instructors and faculty advisers.

Value of College to Be Stressed

Student-faculty dinners, seminars and informal coffee hours would emphasize and make students aware of the importance of a college education and the privilege they have of attending the University. There is at least one capable person unable to attend college for every student enrolled.

To motivate students toward higher achievement, comprehensive tests could be given to determine the level of achievement in each course. This would be administered by a battery of testers, not the instructor.

Although it would be difficult to measure classroom participation, the group felt that this would eliminate bargaining for grades on the part of the student. In addition, instructor and student will be working toward a common goal and a true instructional situation will develop.

Councils Would Evaluate Courses

Student Councils, it was suggested, should meet with the deans of the colleges in order to evaluate various introductory courses and measure the degree of stimulation influencing students.

Concerning academic honesty, the group proposed that a definite effort should be made to fully publicize the program. The chief difficulty in the acceptance of this program, they said, seems to be a lack of knowledge of its existence.

Technical Courses Broadened

There is a need for broadening specialized courses in many of the technical curricula the workshop members agreed. This could be done by extending certain technical and professional courses to five years, as is accomplished at the present time by Ohio State University and Cornell University.

However the five year plan may discourage students because of increased costs and extra time required, and there may be a tendency toward increased specialization rather than liberalization.

The group also suggested revising present courses, depleting out-dated technical courses and substituting general education such as the social sciences, humanities, physical sciences and biological sciences.

Air ROTC Flights To Begin Monday

Orientation flights for Air Force Reserve Officers Training Corp cadets in C-45 and C-47 aircraft will begin at the University on Monday.

In addition, an L-17 aircraft will be used in the program as soon as it is received.

Each cadet in the Corps will be given the opportunity to sign up for a flight, if he desires.

College and a member of Delta Upsilon.

Employment Interviews

The following firms will conduct interviews for February graduates and advanced degree candidates who expect to receive degrees during this school year on Oct. 4 in the Placement Service Office in 112 Old Main:

Union Carbide Nuclear Co.—Advanced degree candidates in Chem, CerE, ChE, EE, ME, Met E, Phys, Math.

West Virginia Pulp and Paper Co.—Bachelor of science degree candidates in Chem, ChE, Phys, Forestry, ME, EE, CE, BusAd, LA; master of science degree candidates in Chem, ChE, Phys, BusAd; doctor of philosophy candidates in ChE, Phys.

Peat-Marwick-Mitchell & Co.—6th and 7th semester Accounting Interns.

Sororities Begin Informal Rushing

Informal rushing for second semester women with at least a 2.3 average and third semester women with at least a 2.0 All-University average will begin on Oct. 9.

A meeting for all interested coeds will be held at 1 p.m. Saturday in 121 Sparks. Representatives of Panhellenic Council will explain the program at that time.

Registration for informal rush will begin Monday and continue until Oct. 8 from 8 a.m. to 5 p.m. in the dean of women's office.

Freshmen Reaction Favorable to 'Ban'

Reaction among freshmen to the Interfraternity Council's ban on the serving of alcoholic beverages to freshmen minors at fraternity functions seemed yesterday to be favorable to the ruling.

A poll conducted among freshmen at random by The Daily Collegian disclosed that many first-year students either approved the ban or stoically accepted it as a necessary part of University regulation.

The council approved the ban Tuesday night as an amendment to its rushing code. Fraternities considered the action at house meetings following a council meeting Monday night at which it was initiated.

Drink Moderately

Several of the freshmen interviewed in yesterday's poll said they did not drink or drank only moderately.

Richard Bressler, arts and letters major from Loganton, said he believes the ban is "a darn good thing," because "more fellows lose jobs and homes through drinking than any other thing."

Robert Elder, business administration major from Dunkirk, N.Y., said he believes the ban is an inevitable action and would have been enacted "sooner or later."

Richard Jones, business ad-

ministration major from Ivyland, expressed a negative attitude toward the ban and said he believes it is unnecessary regulation.

Richard Noyes, electrical engineering major from Springfield, said he is "entirely in agreement" with the action. He said he believes it is good for freshmen because the first year of their college career is their "roughest" scholastically, and drinking would be a "distraction which would only make it rougher."

More Men Interviewed

Almost all the freshmen interviewed were men, but one coed summed up general feminine opinion on the ban when she said she believed it is in the interest of both sexes in the class and is a reasonable and necessary regulation.

Several freshmen said they believed it would be inevitable because "most colleges" have already taken similar action. A few said they did not know drinking by freshmen was permitted before the ban was passed.

THE WHY'S & WHEREABOUTS

IT'S only fair to tell you why we will be turning down requests for fraternity composites.

PLEASE don't infer this as an attitude of indifference. We are only too aware that fraternity composites are an important element in the staff of life of our studio.

IT'S merely that we feel our quality dropped somewhat this past year. The result was directly attributable to the quantity of work we did. Namely—too many composites.

SO with due regard and appreciation for the many inquiries this past week we bid a fond farewell to this year's fraternity composites.

OUR plan in general is to do fraternity composites on alternating years, i.e.—sorority composites this year and fraternity composites next year.

ALTHOUGH the possibility is somewhat remote, if we should have a slack week during the spring, we will be glad to do a fraternity composite. However, don't plan on this.

UNTIL now, because of uncertain plans, we have not accepted any dates for sorority composites. However, sorority appointments are now being solicited. The answer is YES we will use shoulder drapes or vignette bare shoulders for the composites. (An example of a shoulder vignette can be seen in the portrait of Miss B. Gross presently in our display box.)

AND as usual, this is a good time for you Social Chairmen to make a reservation for party pix on the next big weekend.
