

Ike Promises Farmers Complete Income Parity

PEORIA, Ill., Sept. 25. (AP)—President Dwight D. Eisenhower called tonight for a "full share" for the farmer in prosperity.

He aimed a scathing indictment of "mockery and deceit" at Democratic proposals to revive rigid price supports.

NAACP Asks End To Probe

WASHINGTON, Sept. 25 (AP)—The National Association for the Advancement of Colored People today asked House Democratic Leader John W. McCormack to request an end to a House investigation of racial integration in Washington schools.

Clarence Mitchell, director of the NAACP's Washington bureau, said in a telegram to the Massachusetts lawmaker:

"Surely there is something that you as the majority leader can do to insist that these hearings be suspended."

Purpose Explained
The NAACP contends the purpose of the special House subcommittee, made up largely of Southerners, is to attack the school integration policy that went into effect here in the fall of 1954.

The investigating group heard one Washington teacher express fear for her job today because of her appearance at the hearings.

Teacher Gives Views
Mrs. Mary Seath, a fifth grade teacher at Emory Elementary School, said she felt in a "precarious position" because of a statement by Wesley Williams, a Negro member of the District of Columbia Board of Education.

Williams had said a recheck of the ability of some school administrators might be desirable in view of their testimony about difficulties in handling integration problems.

In a bludgeoning attack, Eisenhower described the farm program subscribed to by rival Adlai E. Stevenson in terms of a "political grab bag," "price-depressing," and "politicking at the farmers' expense."

Prospects 'Brighter'
In contrast, he said in a speech before a national TV and radio broadcast his administration is opening up for farmers "brighter peacetime prospects than they have had for years."

Ahead, he promised, lies "full income parity." He defined it as the farmers' "full share in our country's good times."

Free Agriculture
"In a free agriculture," Eisenhower declared, "farmers attain that kind of parity in the market place. That's what I spoke for at Kasson (Minn.) four years ago; the attainment of that full share for the farmer—the preservation of a free agriculture."

"That's what I have been working for. I shall keep on working for it, and the facts show good progress."

Democrats have charged Eisenhower endorsed 100 per cent parity price supports at Kasson in the 1952 campaign. He said then he wanted such parity "in the market place," a position he reaffirmed tonight.

Leader Sets Precedent

HARRISBURG, Sept. 25 (AP)—Gov. George M. Leader announced a precedent-setting move today to permit legislators to set in on closed budget hearings leading to his possible tax demands from the 1957 Legislature.

Israel Attacks Army Post

JERUSALEM, Israeli Sector, Wednesday, Sept. 26 (AP)—Israeli troops launched an attack last night on a Jordan army post, Israel announced official today.

Hurricane Flossy Blows Itself Out

By The Associated Press
Hurricane Flossy virtually blew itself out over Georgia Tuesday after leaving 12 dead and more than a dozen unaccounted for in a sudden, wild sweep across the Gulf of Mexico over the weekend.

The storm which developed quickly in the gulf Saturday, sped toward New Orleans and then swept inland in northwest Florida with 100-mile an hour winds, was reduced to gusts of 25 to 50 miles an hour in southern Georgia. More than five inches of rain were dumped on dry farm lands.

Most of the damage was in the gulf where two men died in drowning accidents aboard the motor vessel Carport. The ship was found in a battered condition yesterday but the 15 still aboard were reported in good condition. The ship's radio had been put out of commission by the gale, its lifeboats smashed and only one engine was operating.

A tanker picked up off a reef two men who had been missing for hours in a helicopter while inspecting damage to oil rigs in the gulf.

It's not time for T.G.I.F.ing; but for the finest food in town, you can't beat the Town House! And for that midweek music break, don't miss

Stage Set for Battle Over Suez Canal

UNITED NATIONS, N.Y., Sept. 25 (AP)—France and Britain fought with evident bitterness today to beat down Egypt's counter-attack against them in the Suez Canal controversy.

A procedural wrangle is expected when the UN Security Council meets at 2 p.m. tomorrow for the first round on the

new case, just two months after President Nasser seized the canal. The result is in doubt. The United States kept its stand secret but the Soviet Union was reported backing Egypt in the developing UN battle over the 103-mile waterway.

Bernard Cornut-Gentille, French delegate, said France will oppose the move by Egypt to put on the council agenda an item alleging that Anglo-French actions against Egypt are a danger to peace.

tian Pineau said in Paris those nations which stand firm against Nasser "will in the end serve the cause of peace."

Britain wants the council to endorse a plan for international control of the waterway approved by an 18-nation meeting in London earlier this month. This was rejected by Nasser.

However, an Egyptian in the UN who would not permit identification hinted that some parts of it might be acceptable.
