Job Survey Now Being Conducted

A survey of the various jobs at which sophomores, juniors and seniors were employed this summer is now being conducted by the Student Employment Office, the central campus headquarters for summer jobs.

Survey forms will be distributed by hostesses in women's dormitories and resident counselors in men's dormitories and are to be filled out and returned to them within the next two weeks.

The survey collects information on types of summer employment, living and working conditions of these jobs, and the wages received in the different fields.

The information will be analyzed and categorized in a job location and information file which students seeking employment next summer may consult.

The service reports that many students were able to find information concerning various phases of summer employment in the files of the 1955 survey.

Students who encountered jobs with unfavorable living and working conditions this summer are asked to contact the service in order that other students may be alerted before applying for similar jobs.

The results of the survey will be published in The Daily Collegian at a later date.

Group Returns From Europe
The same group recently returned from a tour of Europe and previously Armstrong made the movie High Society with Bing Crosby and Grace Kelly.

"Satchmo," who specializes on the trumpet, is also a singer and a public personality. He has been referred to as a one man show of warm inventiveness and sheer personality.

Records Make History
It was not until after 1929 that he settled down to record steadily with the musicians who worked with him nightly on the job. Previous to that he recorded with three special groups, the Hot Five, the Hot Seven, and a band built around himself and Earl Hines. His original records made jazz history.

Among his many notable recordings, "Confessin," "Body and Soul" and "I Can't Give You Anything But Love" are among the outstanding. Armstrong's record of "Lazy River" exhibits some of the most incredible trumpet ever recorded.

Hall is Clarinetist
Hall has played the clarinet with some traditional jazz groups as Eddie Condon and Wild Bill Davidson and Kyle has accompanied Anita O'Day, a jazz singer, and has played with Bill Bradley. Deems, noted for his technical
