

UCA to Sponsor 5-Day Conference IM Football --

A conference entitled, "UCA and the World Church," to be open to students and faculty members interested in learning of the activities of the world church, will be sponsored by the University Christian Association beginning Friday through Tuesday.

The conference will include three lectures by Rev. Stewart Meacham, formerly a Methodist mission worker in India; informal discussion periods on Monday and Tuesday conducted by Elias Peter, youth director of the Church of South India; and Bible study classes and worship services.

Supper to Open Conference
The conference will begin with a cafeteria-style supper at 5:30 to 7:30 p.m. Friday at which time Rev. Meacham will deliver the opening address, "You and the World Church."

Morning prayer services will be delivered from 8:10 to 8:40 a.m. Saturday in the Helen Eakin Eisenhower Chapel and will be followed by study hours at 9, 10, and 11 a.m. in the small lounge of the chapel.

Conferees to Meet at Chapel
At 4:30 p.m. Saturday, conferees will meet at the Chapel to leave for the UCA Cabin for supper.

Rev. Meacham will deliver his second address following the meal. Discussion periods and evening prayer also are planned.

The Sunday program will include a common study hour at 9 a.m. in 102 Chapel; regular Sunday worship services at 10:45 a.m. in Schwab Auditorium; and a platform address by Rev. Meacham during a dinner at 12:15 to 2:30 p.m. in the Hetzel Union Building.

Mixers Scheduled
From 3 to 5 p.m. open houses and coffee hours will be held in

the Memorial Lounge of the chapel.

Mr. Peter will lead informal discussions concerning the mission of the world church and the church and university, for students, faculty, and staff members on Monday and Tuesday.

Students interested in information pertaining to vocations overseas—either church-paid or work in governmental or United Nations agencies, are encouraged to attend the discussions or to schedule personal interviews with Mr. Peter.

Coed Contact Prohibited In Old Days at 'State'

In the Rules of the Pennsylvania State College, 1875-1885, students were forbidden "to associate with students of the opposite sex during either session or vacation, without special permission of the President and the Preceptress."

(Continued from page seven)
score occurred shortly after the kick-off on a Dewitt to Larry Freedman completion good for 14 yards. Bob Bastion was next to haul down Dewitt's throw, this one counting 6 yards. Larry Beighy picked off a Jack Van Vechten pass and then scored on Dewitt's heave. Bastion came back to score the finale on a 13-yarder.

Alpha Sigma Phi battered Alpha Zeta in the last game, 19-7. Lou Lynch scored all three Alpha Sig T.D.s, coming on three passes. The first was a Jim Norton-Dick Ferrari combo which covered 61. Dick Gray hit Lynch for the second and Ferrari's pass got the third. Don Snyder tallied for AZ.

Silva Will Pick Victors

Dr. Ruth Silva, associate professor political science, will predict Pennsylvania congressional seats at 9 tonight over the WDFM and WMAJ news round-up.

ChemPhys Council

Freshmen students interested in Chemistry-Physics Student Council positions may nominate themselves on bulletin boards in Osmond, Whitmore, Pond, and Walker laboratories.

Artist's conception of Palm Beach Facility shows two-story administration and engineering headquarters structure, center, and single-story manufacturing building, rear. Test and laboratory facilities will be located in area beyond that in upper right of drawing.

Sunshine and science . . .
star performers in
new Florida "Show"

Believing that the future of aviation lay with larger aircraft, higher speeds and greater ranges, the founders of Pratt & Whitney Aircraft established an iron-clad policy demanding constant striving to develop aircraft engines that would continually surpass previous accomplishments. The intervening restless years at P & W A have been filled with continuing progress which proved the wisdom of that early decision. Brand new areas of technology were explored; recognition as undisputed leader in its field was attained; expansion to accommodate the growth of the company resulted in a nationwide network of auxiliary facilities.

Florida — long America's year 'round playground — is now providing ground for the continued expansion of America's foremost aircraft engine builder.

Ideally located in Palm Beach County, P & W A's newest facility will be an important engineering auxiliary to the main laboratories and plants in Connecticut. Major factors in selecting the site were the mild climate and sufficient isolation to permit development and test of highly advanced and extremely powerful jet engines with minimum acoustical disturbance to the surrounding resort communities.

The engineering graduate who begins his career at this Florida facility will have the rare opportunity of keeping pace with its anticipated growth. In an organization renowned for development engineering superiority, he will be able to gain invaluable experience working on vital, long-range projects that are a challenge to the imagination.

World's foremost designer and builder of aircraft engines
