

Lion Party Opposes Court Amendment

The Lion Party steering committee Sunday voted to go on record against the amendment passed last Thursday by All-University Cabinet which would put Cabinet members on the Supreme Court.

Lion Party will make the amendment a campaign issue unless Cabinet reverses itself on the proposed amendment, Byron LeVan, Lion Party clique chairman, said last night.

Political Clubs Will Encourage People to Vote

The Young Democratic and Young Republican Clubs will be working with their respective town committees in connection with the elections today.

Working with the precinct heads, they will check the lists of voters and contact the people who have not voted. They encourage the non-voters to get out and cast their vote for their party's candidates.

Transportation Provided
Club members will be on hand to provide transportation for voters who are unable to get down to the polls.

If a baby sitter is needed, other club members will offer their services in this field.

GOP Literature Campaign
The Young Republicans passed out campaign material in State College last night. They also carried on a door to door literature campaign.

Both clubs have been preparing for the election since the beginning of the semester. Phone and literature campaigns were conducted last week in an attempt to increase the number of voters.

Draft Deferment Exam To Be Held Next Week

The Selective Service College Qualifications Test will be given at 8:30 p.m. Nov. 15 in 105 Armsby. The exam will last from 8:30 a.m. to noon. Excuses may be obtained for classes which students miss.

Previous registration for this exam should have been made with Mrs. Sarah Case, dean of men's office.

Prof Writes Article On Nuclear Research

Robert G. Cochran, research associate in the nuclear reactor project, is completing a paper on "Nuclear Engineering Research with a Swimming Pool Reactor."

It will be presented before the Research Section, Engineering Division, Association of Land Grant Colleges and Universities next Tuesday in Washington, D.C.

- Gibbs & Cox, Inc.—Nov. 20—BS, MS: ME, EE, CE, Phys.
- Mellon Institute—Nov. 20—All Degrees: Chem, ChE, Phys.

Newell to Give Final Lecture Of Grad Series

Dr. Homer E. Newell Jr., director of the naval research laboratory, will speak on "The International Geophysical Year" at 8 p.m. Nov. 13 in 121 Sparks.

The lecture will be the last in the fall graduate school series.

Newell has been associated with the naval research laboratory since 1941. Before that, he was an instructor of mathematics at the University of Maryland and lecturer in astronomy at the National Park College.

During World War II Newell was a ground instructor in navigation and civil air regulations. At the naval laboratory he has been associate head of the theoretical analysis section and head of the rocket research section. He has also supervised the atmosphere and astrophysics division.

Newell received his doctor's degree from the University of Wisconsin, where he became a member of Phi Beta Kappa, scholastic honorary society.

He has published a number of books and articles on guided missiles, rockets, satellites, and outer space exploration.

Quarry operators who donated stones for the construction of the obelisk carved their names on the face of their gifts.

Little Man on Campus by Dick Bibler

"Oh, come now—you know very well what I mean by an 'ORAL' EXAMINATION."

Rink Instruction To Be Probed

The College of Physical Education and Athletics student council will continue its discussion of the University skating rink at its meeting at 6:30 tonight in 212 Hetzel Union.

The council is discussing a plan to provide ice-skating instruction at the rink.

Robert Rutherford, instructor in physical education and supervisor of the golf course, ice rink, and golf shop, said that the rink would open around Thanksgiving.

The opening will depend on the weather, he said. Last year it went into operation on Thanksgiving Day.

Ed Council Cancellation Caused by Bluebooks

The Education Student Council will not meet tonight as originally scheduled. The postponement was made because of the heavy schedule of blue books this week, according to Judith Hance, president.
