

World University Service To Assist African Fund

(Editor's Note: First of a series of articles explaining the projects of organizations benefiting from Campus Chest donations.)

Watch the faces of students who have never owned a textbook rip open cases of texts shipped by World University Service. Listen to the whisper of a student, bedridden

State Names Speech Prof As Advisor

Harold P. Zelko, professor of speech, has been appointed adviser and consultant on training to the various departments of the Commonwealth.

In this capacity, he will help carry out Governor George M. Leader's objective to improve the administration of the various departments of the state government through increased competence by all levels of employees.

Main Function Cited
One of the main objectives of increasing the training activities will be to improve management and supervision of the many functions of the government.

Training is the responsibility of each department, with the Secretary for Administration, Director of Personnel, and training advisers helping to analyze training needs, develop programs where needed, and see that such programs are carried out.

Zelko has been on leave of absence from the University on several occasions to direct training activities in federal government departments.

Served in Army
During World War II, he was assistant director of training for the Corps of Engineers in the army. More recently, he was director of training for the Office of Price Stabilization and also for the Internal Revenue Service, U.S. Treasury Department.

He will continue his duties at the University while carrying out his assignments to the various departments of the state government.

WSGA to Meet Tonight

The Women's Student Government Association Senate will meet at 6:30 tonight in 212-213 Hetzel Union.

with tuberculosis, who receives free care in a sanatorium built by World University Service.

These are just two of the numerous projects sponsored by World University Service, one of the five agencies that will receive funds from this year's Campus Chest solicitations campaign to be held from Monday to Nov. 16. WUS, as it is commonly called, is an international voluntary agency which operates a program of material assistance and international education to aid the world university community.

Has 4 Sponsors
It is a service organization, sponsored by the Hillel Foundations, National Newman Club Federation, National Student Association, and United Student Christian Council.

The initial program of WUS, launched after the First World War, provided relief for universities in central and southern Europe.

In Europe, where World War II disrupted lives and weakened the physical and moral fibre of innumerable students, WUS offers aid to refugees, provides scholarships, medicines, and foods, and contributes to the operation of an international center offering rest cures.

Need is Great
Throughout Asia, where the need is greatest, WUS has constructed student health centers and tuberculosis sanatoriums, stocked libraries and laboratories, established dormitories, and provided scholarships and loan funds.

It is in Africa that the University chapter of WUS has shipped books and equipment and provided money for a medical scholarship trust fund.

Half the money raised for WUS in this year's Campus Chest campaign will be donated to the African Medical Scholarship Trust Fund that will be used at the University of Witwatersrand in the Union of South Africa.

This is the only university in the Union of South Africa at which native students may study. The present ratio of native doctors to population has been termed "drastic." There is one native doctor available for every 32,000 people.

The other half of the money raised for WUS will be used for educational emergencies.

Poster Contest Winners

Winners of the poster contest that Campus Chest sponsored were announced at a meeting of the executive committee last night.

Hugh Gibbons of Sigma Alpha Epsilon won the men's division of the contest, and the poster submitted by Delta Delta sorority won in the women's division.

These two groups each will receive the equivalent of a \$5 contribution which will be used in determining the winners of the sorority and fraternity trophies.

Trophies to be Awarded

The trophies are presented to the fraternity and sorority who collect the most money per capita. A trophy will also be awarded to the individual solicitors who collect the most money among independent groups.

A poster submitted by Sigma Delta Tau sorority received honorable mention and will be used on the table which will be set-up in the Hetzel Union Building next week to receive money returns from the solicitations drive.

Money Collected to Date

Edward Long, tabulations chairman, announced that total contributions received from alumni during Homecoming Weekend in fraternity houses and sorority suites amounted to \$64.

He said that approximately \$50 was collected this past weekend in the push cart race sponsored by Town Independent Men for Campus Chest.

the freestyle and backstroke races. Bob Pulver triumphed in the breaststroke and grabbed runner-up honors in the backstroke.

Tom Byrnes, Jack Buckley, Al Balkey and Mike Rohrbach pushed Alpha Sig near the top with a first in the relay, while Rohrbach and Byrnes took seconds in the freestyle and breaststroke. Rohrbach also corralled the top honors in the diving event.

Sir Alexander Fleming, one of the discoverers of penicillin, is also the discoverer of the anti-septic lysozyme. The latter is found both in the whites of eggs and human tears.

Gallery Displays Student's Works

Original pen and ink drawings and sculpture by Mark Wallace, graduate student in theatre arts from Bristol, are on exhibition in the Horse Stall Art Gallery at the Langhorne Players Barn in Langhorne, Pa.

Sketches of such famous Bucks County sites as the Thompson-Neely House, the William Penn Center, Pennsbury Manor and an 1875 Covered Bridge are included in the collection.

The sculpture includes works in driftwood, terracotta and bis-fired clay.

Copies of the original prints may be obtained in the Green Room of Schwab Auditorium. Price is 50 cents a print or \$2 for a set of five prints.

KEARFOTT

is interviewing on your campus

Friday, November 16

Make your appointment now with your College Placement Office

Kearfott's leading position in the development and production of aircraft control and navigation instruments makes the company a fertile ground for the young engineer to develop his talents and gain the experience which means success in his chosen profession.

Assisting in the design and development of today's most advanced systems, the graduate engineer quickly gains in knowledge of the functions and applications of the gyros, synchros and other components which comprise systems. You will share in Kearfott's vital role in TACAN, inertial guidance, stable platforms and other servo mechanisms for today's most important jet aircraft and industrial development.

In addition to close association with the engineers whose work has set new standards for the industry, you enjoy an educational assistance program to help you further your formal education, supplementing the "learning by doing" program through which you will choose your field of special interest.

Decentralized plants provide ample opportunity to become familiar with top management and distinguish yourself through initiative and imagination. Salaries and benefits are liberal, and advancement is based on your own value and contribution.

NOTE: If you cannot attend an interview on this day, please write for more information to Robert J. Sperl, Technical Placement Supervisor, Engineering Personnel Office.
