

Wesley Fireside Group To Hear 'This I Believe'

The theme of the Evening Fireside program of the Wesley Foundation at 6:15 p.m. Sunday will be "This I Believe."

Speakers for the program will be Earl Brosius, sophomore in arts and letters from Northumberland; and Eugene Decker, a University graduate, presently working on the

Theologian To Speak At Chapel

Dr. Howard Thurman, of Boston University, will speak on "The Other Cheek" at chapel services at 10:55 a.m. tomorrow in Schwab Auditorium.

Dr. Thurman was selected one of the 12 outstanding ministers, priests, and theological schools of all faiths.

Dean of Marsh Chapel
He is dean of Marsh Chapel and professor of spiritual resources and disciplines at Boston University.

Before accepting his present position, Dr. Thurman organized and developed a unique church. It is an interracial, intercultural, and non-sectarian venture in religious fellowship and experience.

Grown to 300
From a small group of 30 persons, the membership has grown to over 300 and includes Caucasians, Negroes, Japanese, Chinese, and Latin Americans. In addition, there are more than 1000 members-at-large living in more than a half-dozen countries and the continental United States. He now serves as minister-at-large of the church.

Dr. Thurman is author of many religious books.

George E. Ceiga, organist, for the prelude will play, "Prelude on the Tonus Peregrinus," fourth sonata by Rheinberger; and as the postlude, "In Thee Is Joy," by J. S. Bach.

As the anthem, the choir will sing "Let Thy Hands Be Strengthened" by John Blow.

Campus Chest---

(Continued from page one)
Dr. John Moffitt, a State College physician, representing the American Cancer Society; and Paul Denise, regional director of World University Service.

Lawrence McCabe, solicitations chairman, spoke to the group about the mechanics of solicitations.

Instructs Solicitors
In instructing solicitors on how to approach prospective contributors, Gellman said:

"The ultimate goal of this drive is to keep organization after organization from pestering students with its own door-to-door drive; instead, students can give once to Campus Chest, and then forget about these organizations for the remainder of the year."

He told the group that in his estimation a Campus Chest drive could only be considered successful if the total amount raised was equal to that which might have been derived from several separate drives.

Nittany Council

The Nittany council meeting, originally scheduled for Monday night, has been postponed for two weeks because of a heavy Blue-book schedule next week, according to Melvin Weaver, council president.

- Nov. 28, De Laval Steam Turbine Co: BS: ME.

Open Houses Will Be Held

Open houses for freshmen and new students, from 2 to 5 p.m. tomorrow at all fraternities, will end the Interfraternity Council's rushing program for this semester.

Tomorrow's program, in which all 54 fraternities at the University will participate, will be similar to the open houses held Oct. 21.

Hugh Moore, IFC rushing chairman, has urged freshmen to visit as many houses as possible to give them a broader background and more fraternities from which to choose.

He has also requested that any new students wishing to rush, who have not filled out rushing registration cards, to do so at the Hetzel Union desk.

UCA Classes Open Monday

Classes in a School of Religion to be conducted by the University Christian Association will open Monday night and continue for six weeks.

The classes, which will be held from 7:30 to 9 p.m. Mondays in the Helen Eakin Eisenhower Chapel, are open to faculty, staff and townspeople. They are offered on a non-credit basis.

The courses are "Rediscovering the Bible," taught by the Rev. Dr. Luther H. Harshbarger, University chaplain and co-ordinator of religious affairs; "Basic Christian Ethics," taught by the Rev. Preston Williams, assistant to the chaplain; and the "Meaning of Christianity" taught by the Rev. Robert Starbuck, associate director of the University Christian Association.

Co-Edits

The pledge class officers of Alpha Epsilon Phi are Hannah Yashan, president; Leslie Bloom, vice president; Marsha Greifer, secretary; Sandra Gusky, treasurer; Janet Sloves, historian; and Florence Kushner, social chairman.

"MY 3 ANGELS" Tonight is a sellout! Next weekend will be your last chance to see the show. Buy your tickets early.

WATCH FOR THE CAMPUS CHEST

Student Donations Help Fight Cancer

(This is the third in a series of articles explaining the works of the organizations benefiting from Campus Chest donations.)

Cancer strikes one in four Pennsylvanians and is the second leading cause of death in the state.

The organization that provides funds for the study, research, and cure for cancer, is one of the five organizations which will benefit from funds collected during this year's Campus Chest solicitations drive.

This organization is the American Cancer Society.

Cancer can be cured—if the disease is discovered early and followed by prompt and proper treatment.

Hundreds of doctors in Pennsylvania are enrolled in life-saving, five-point cancer detection programs, sponsored by the Medical Society of Pennsylvania, in cooperation with the Pennsylvania Division of the American Cancer Society.

Society Is Voluntary
The American Cancer Society is a voluntary association of people united in the hope of conquering cancer. The organization is made up of 60 chartered divisions throughout the United States and Alaska.

The society seeks to save lives in five main divisions. They include educating the public, keeping doctors informed, supporting facilities for the detection, diagnosis, and treatment of cancer, improving medical and social services for the cancer patient, and broadening the research program.

All service undertaken by the society must have medical approval. Under its articles of incorporation of May 1913, the society may not operate medical or laboratory facilities, or treat patients.

Supports Clinics
Its divisions, however, can often give support to establishing, equipping, and maintaining clinics for detection, diagnosis, and treatment.

The society helps patients in numerous ways. The program of the Centre County unit of the American Cancer Society is four-fold.

It provides public information, dressings, loans sickroom equipment, and sponsors the visiting nurses service.

The Centre County unit also supplies radium to hospitalized cancer patients at the request of certified specialists.

Furnishes Transportation
Transportation is furnished to and from treatment centers for diagnosis and treatment if a patient is in need.

Another project of the unit is to supply drugs for the ease of pain for cancer patients if expense causes family hardships.

The society also sponsors extensive research in various phases of the disease.

There are scientists who are probing the life processes that underlie cancer. The two established methods of curing cancer—surgery and radiation—are constantly undergoing improvement.

Naval Man To Speak at Grad Series

"The International Geophysical Year" will be the subject for a lecture by Dr. Homer E. Newell Jr., of the Naval Research Laboratory, Washington, D.C., at 8 p.m. Tuesday in I21 Sparks.

This will be the final lecture of the fall Graduate School lecture series.

To Discuss Geophysical Year
Dr. Newell will speak on the geophysical year, which will begin in January, 1957.

The geophysical year is a period of 18 months during which scientists of all nations cooperate in studying geophysical phenomena of the world.

Along with concentrated studies of worldwide scope by international groups of scientists, two new projects will be undertaken. An earth satellite will be launched and an expedition will be sent to study the Antarctic region.

All the major powers of the world will cooperate in the projects. The extent of the studies will be governed by the political and economic situation of the world.

Author of 17 Articles
Dr. Newell, a graduate of Harvard, is the author of 17 articles on rockets, guided missiles, and the atmosphere.

Last year, he became acting superintendent of the Atmosphere and Astrophysics Division of the Naval Research Laboratory.

He is a member of Phi Beta Kappa and Sigma Xi, national honorary societies.

Elections Committee to Meet

The All-University Elections Committee will meet at 6:30 p.m. tomorrow in The Daily Collegian office.
