

Hungary Strikes As Last Resort

BUDAPEST, Nov. 13 (AP)—This nation of 10 million turned to an almost complete general strike as a weapon against the Russians today.

The only active resistance in Budapest against Soviet arms was reported on Csepel Island in the Danube. There

Court Rules Segregation Laws Illegal

WASHINGTON, Nov. 13 (AP)—The Supreme Court today wiped out state and local laws requiring segregation on buses.

It did so by affirming a decision of a special three-judge U.S. district court in Montgomery, Ala. That court ruled that enforced segregation of whites and Negroes on Montgomery buses violated the Federal Constitution's guarantees of due process and equal protection of law.

In a brief unanimous order, the Supreme Court cited its 1954 decision against segregation in public schools. It also cited subsequent decisions outlawing segregation in public parks and playgrounds and on public golf links.

As it has done in several segregation cases since its basic school decision, the high court acted without listening to any argument.

Poles Replace Defense Chief

WARSAW, Poland, Nov. 13 (AP)—Marshal Konstantin Rokossovsky has resigned as Poland's minister of national defense and as deputy premier. Parliament was told today.

Rokossovsky's successor is Gen. Marian Spychalski, who has been a deputy defense minister. Spychalski was rehabilitated only this year after spending several years in jail.

Premier Josef Cyrankiewicz announced these and other government changes to a parliamentary session televised for the first time in Poland's history.

Swami Swimmer Sez:

LOS ANGELES, Nov. 13 (AP)—A mentalist, Jack Swimmer, won a \$5000 bet that he could forecast to the last digit the number of votes cast for President Eisenhower in the nation, California and Los Angeles County, the County Board of Supervisors said today.

thousands of workers have turned two factories into armed fortresses.

Workers Defy Reds

With their armed revolt almost crushed, workers turned to a weapon long barred in the Communist state—the general strike.

The transport system was crippled. Industries were closed down. Thousands of citizens wandered aimlessly around Budapest streets. Many poked about in the ruins of homes for lost possessions.

Factory Gates Guarded

At most industrial plants workers guarded gates to prevent strikebreakers from entering. White collar workers who went to their jobs quit to join the long lines of persons waiting for food, then returned to desks late in the day to check out.

Sandor Gaspar, Hungary's trade union president, appealed over Budapest radio for an end to the general strike.

Gaspar Speaks

Gaspar said trade unions "identify themselves with the demands of the Hungarian people that our country become independent and sovereign and that Soviet troops be withdrawn."

Gaspar said the workers "have sufficient grounds to be suspicious toward promises, but we must have confidence that the government will fulfill the promises after a resumption of work and re-establishment of order."

Relief Arrives

Shipment of 60 tons of food and medicine by the International Red Cross arrived from Vienna. Budapest hospitals got the medicine and the food was distributed in districts which suffered the most during the revolution.

The Hungarian Red Cross sent a message to the international organization saying relief shipments would be accepted on "every border."

Salk Forecasts Adult Shots As End to Polio

ATLANTIC CITY, Nov. 13 (AP)—Dr. Jonas E. Salk today recommended that adults up to age 50 take shots of Salk polio vaccine.

If they do, and if all children are vaccinated, then 1957 could be the first year of complete or nearly complete freedom from paralysis by polio, the Pittsburgh scientist predicted.

He said this goal can be won only if each person takes responsibility to have shots himself and get them for children and relatives.

Adults Hit Hard

Polio is striking hard at adults now, he warned, and one-fourth of all cases occur among persons aged 20 to 50.

Speaking to the American Public Health Service, Dr. Salk presented a report on the present status of the vaccine.

He also said that children vaccinated in the 1954 field trials should be reinoculated, if not already done, because much of that vaccine was weak, and shots were given too closely together.

Hurricanes affect a larger area, but tornadoes are the most destructive of all storms.

UN to Assist Hungarians Despite Russian Warning

UNITED NATIONS, N.Y., Nov. 13 (AP)—Dag Hammarskjold today delayed his Middle Eastern trip for 24 hours to concentrate on rushing UN representatives and relief supplies to revolt-torn Hungary.

The UN Secretary General made a swift change of plans upon receiving official word from the Hungarian govern-

ment that it was ready to talk about relief and how representatives appointed by the UN Secretary General "may participate in organizing the assistance on the spot."

Hungary Asks for Relief

Hungary last night rejected an Assembly move to send observers into that country but left the way open for relief supplies.

The Hungarian agreement to accept UN relief representatives was accompanied by a long list of foodstuffs and medical supplies urgently needed.

Hungary Receives Priority

On the political front, the UN moved to help Hungary. The UN Assembly's steering committee voted 11-2 to recommend a priority status for the Hungarian item in the Assembly despite a blunt warning from the Soviet Union that debate here would only complicate efforts to restore peace in Hungary.

The Assembly, without objection, also approved putting the

Mexicans Seize U.S. Shrimpers

BROWNSVILLE, Tex., Nov. 13 (AP)—The Mexican gunboat C28 escorted an American shrimp boat, the Pescadora, toward the Mexican port of Tampico today following the latest shooting incident involving American shrimp fishermen and units of the Mexican Navy.

Mexican gunboats have arrested numerous U. S. shrimpers, taken them to port, confiscated their catches and fined the operators. Gunboats have fired at or near U. S. shrimp boats.

Mexican claims its sovereignty extends 11 sea miles from shore. Neither the United States nor the shrimpers recognize this claim. They say Mexican waters extend out only three sea miles.

Middle East issue on its agenda for direct action when necessary.
